[57] CLAIM

The ornamental design for an equipment support hub assembly, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an equipment support hub assembly showing our new design with three hooks in horizontal position and one in vertical position; FIG. 2 is a front elevational view thereof, rear and side elevational views being essentially the same, differing only in the location of the hook in vertical position; FIG. 3 is a bottom plan view thereof; FIG. 4 is a perspective view thereof from above; and FIG. 5 is a perspective view thereof from below. The support rod for the hub is shown in abbreviated broken lines in FIGS. 2, 4 and 5 for environmental association purposes only and forms no part of the claimed design.
