CLAIM

The ornamental design for a wire channel, as shown and
described.

DESCRIPTION

FIG. 1 is an end and one side perspective view of the
wire channel showing my new design;
FIG. 2 is an end elevational view thereof.
The trunking comprises an elongate channel member
and a snap-fit cover member. The channel is secured to
a substrate such as a wall, and services, such as electric
and telephone cable, laid therein before the cover is
fitted thereof.

FIG. 2
