[57] CLAIM

The ornamental design for a combined lamp, ornament and container, as shown and described.

DESCRIPTION

FIG. 1 is a front, top and left side perspective view of a combined lamp, table or shelf ornament or container showing my new design;

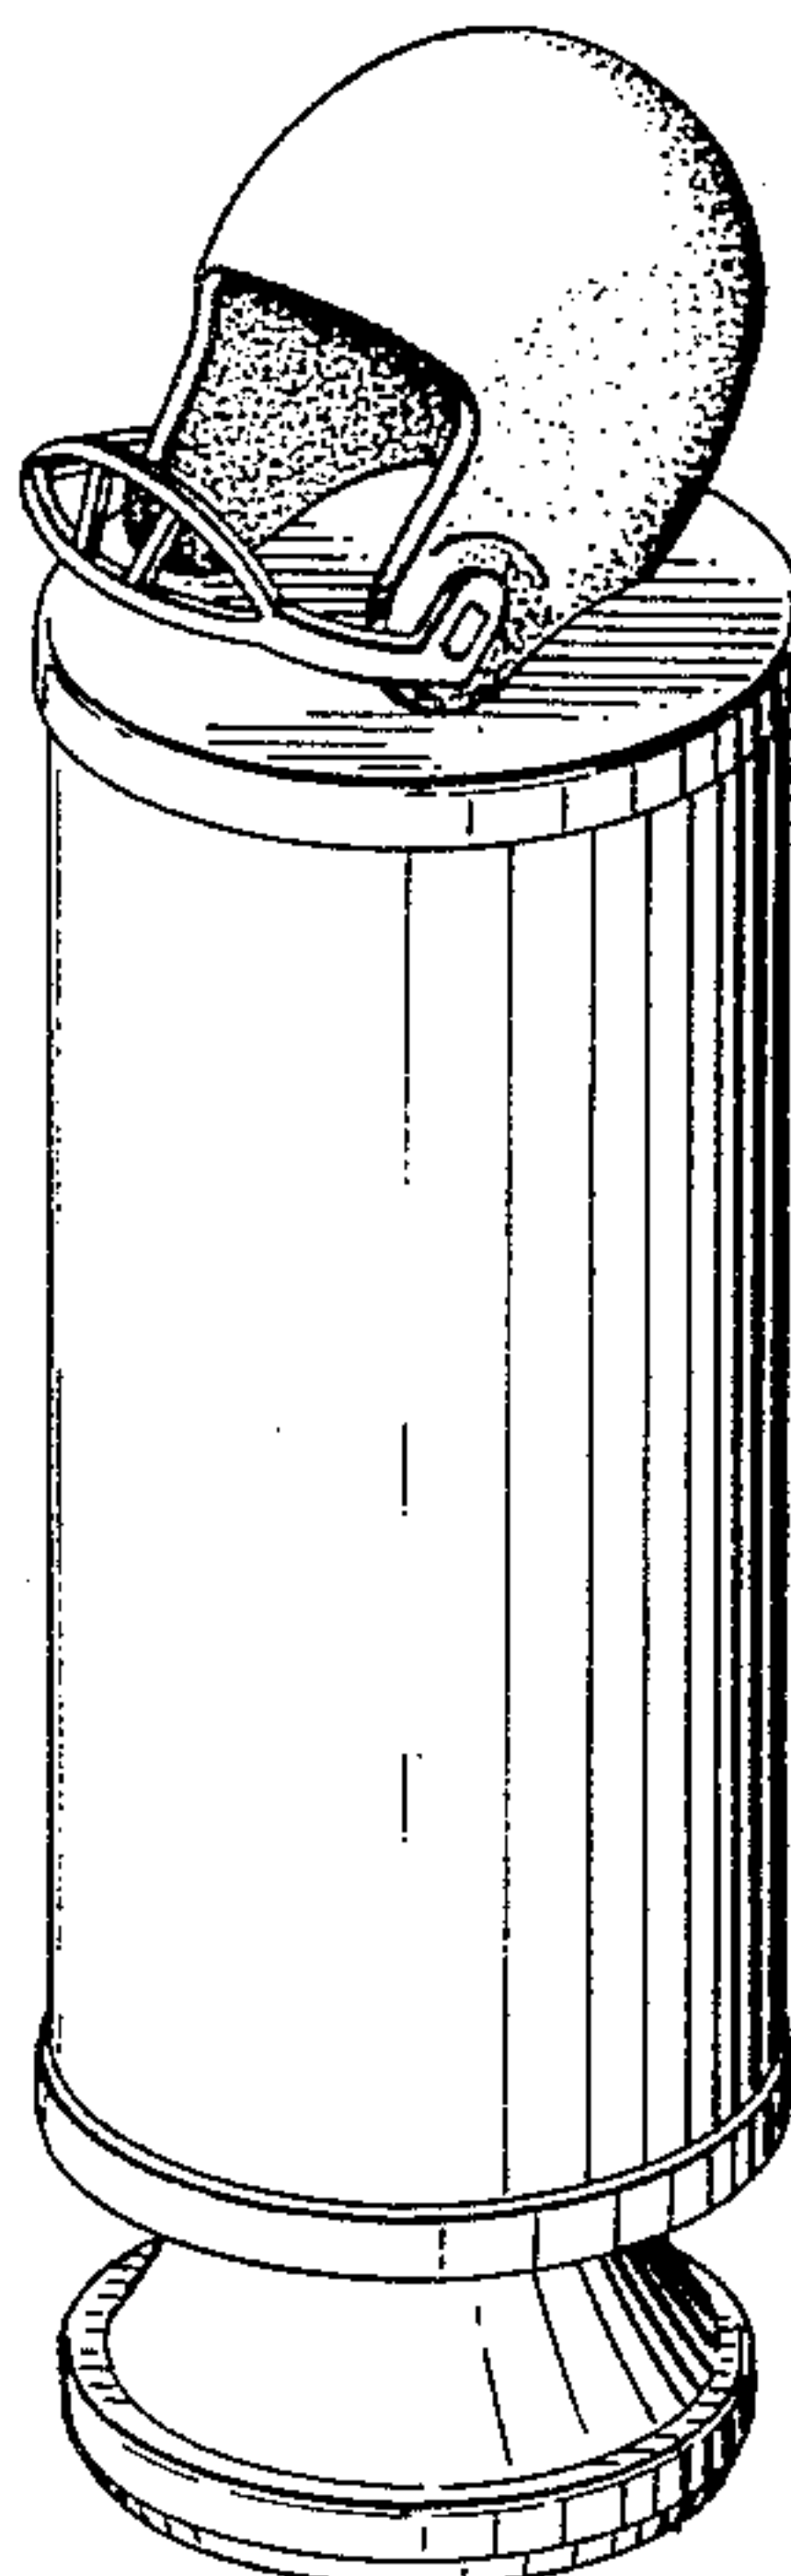

FIG. 2 is a right side elevational view of a second embodiment of my new design;

FIG. 3 is a rear elevational view of a third embodiment of my new design;

FIG. 4 is a front, top and right side perspective view of a fourth embodiment of my new design;

FIG. 5 is a front, top and right side perspective view of a fifth embodiment of my new design.

The helmet is identical in all five embodiments. The rear and opposite sides of the body and base in the first, fourth and fifth embodiments are mirror images of the front and disclosed side. The sides, front and rear of the cylindrical body and base of the second and third embodiments are identical. The base of the first, fourth and fifth embodiments is similar to the base of the second and third embodiments, differing only in cross-section in the fifth embodiment.
