[57] CLAIM

The ornamental design for a night-light, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a night-light showing my new design, a fragmentary portion of the lens elements on the rear surface of the transparent front being depicted, it being understood that such lens elements extend throughout such rear surface;

FIG. 2 is a side elevational view thereof, the other side being identical, a fragmentary portion of the lens elements on the inside surface of the transparent side being depicted, it being understood that such lens elements extend throughout such inside surface;

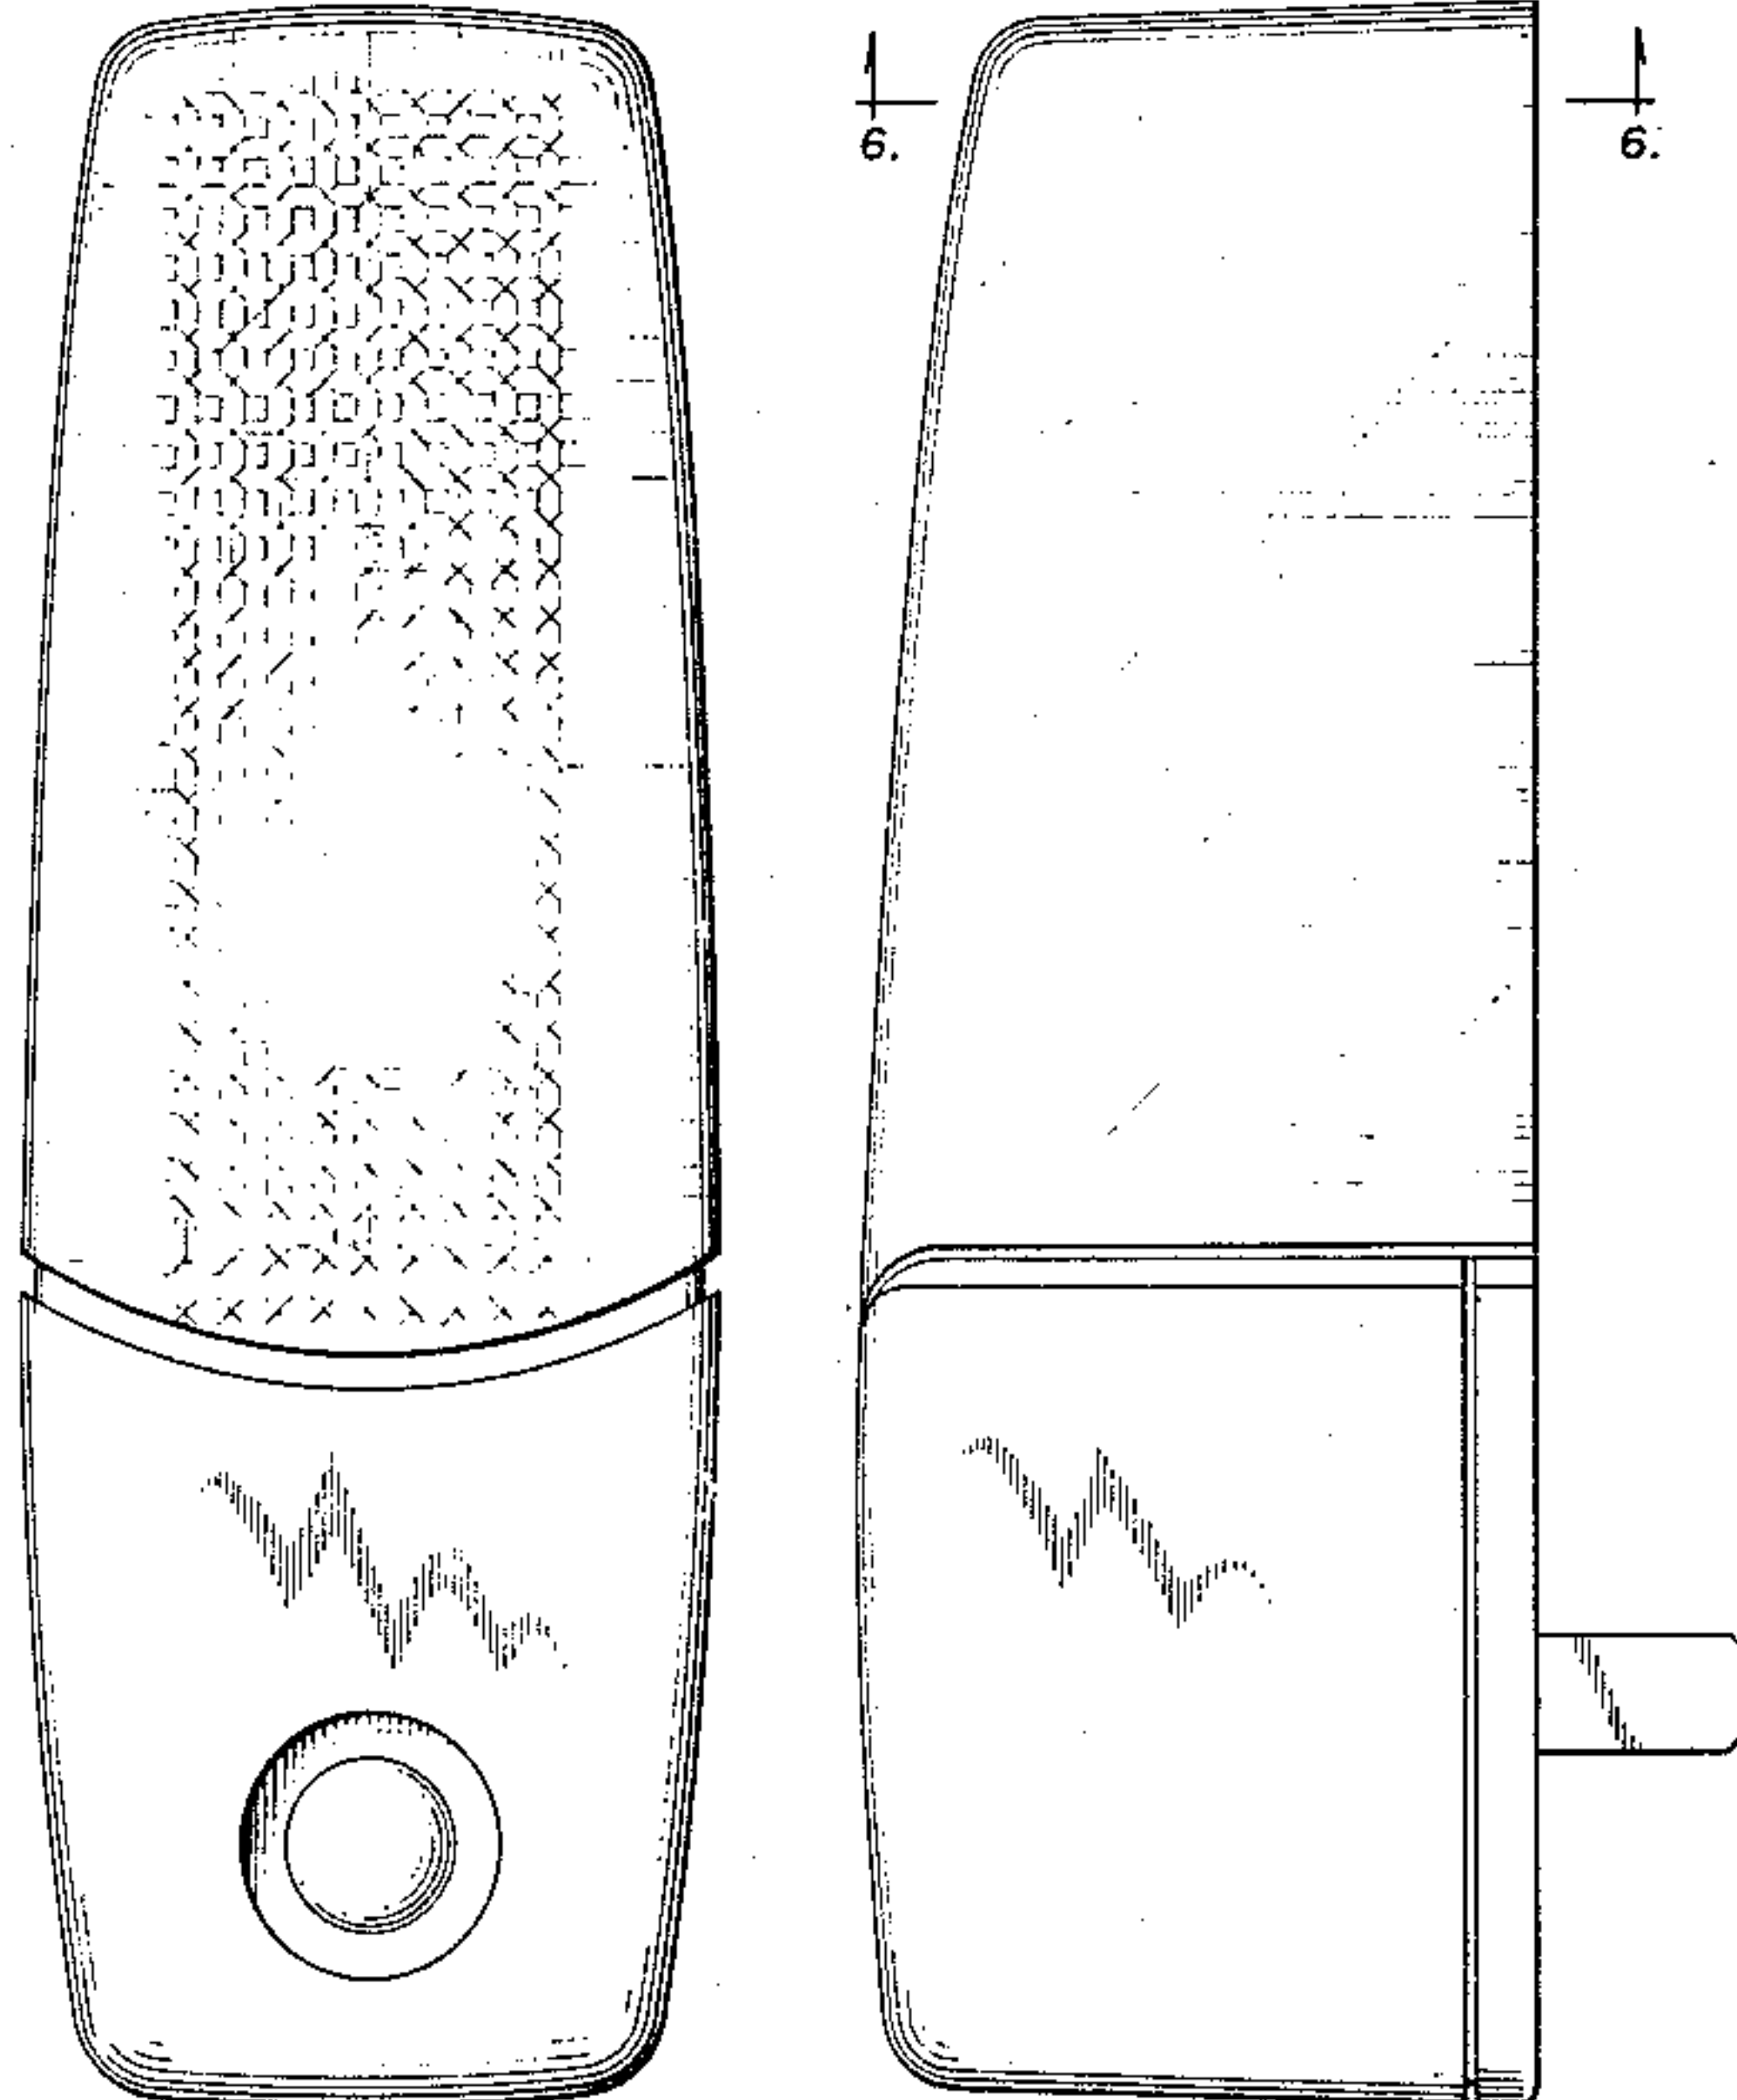

FIG. 3 is a rear elevational view thereof, a fragmentary portion of the lens elements on the rear surface of the front being depicted, it being understood that such lens elements extend throughout such rear surface;

FIG. 4 is a top plan view thereof, a fragmentary portion of the lens elements on the bottom surface of the transparent top being depicted, it being understood that such lens elements extend throughout such bottom surface;

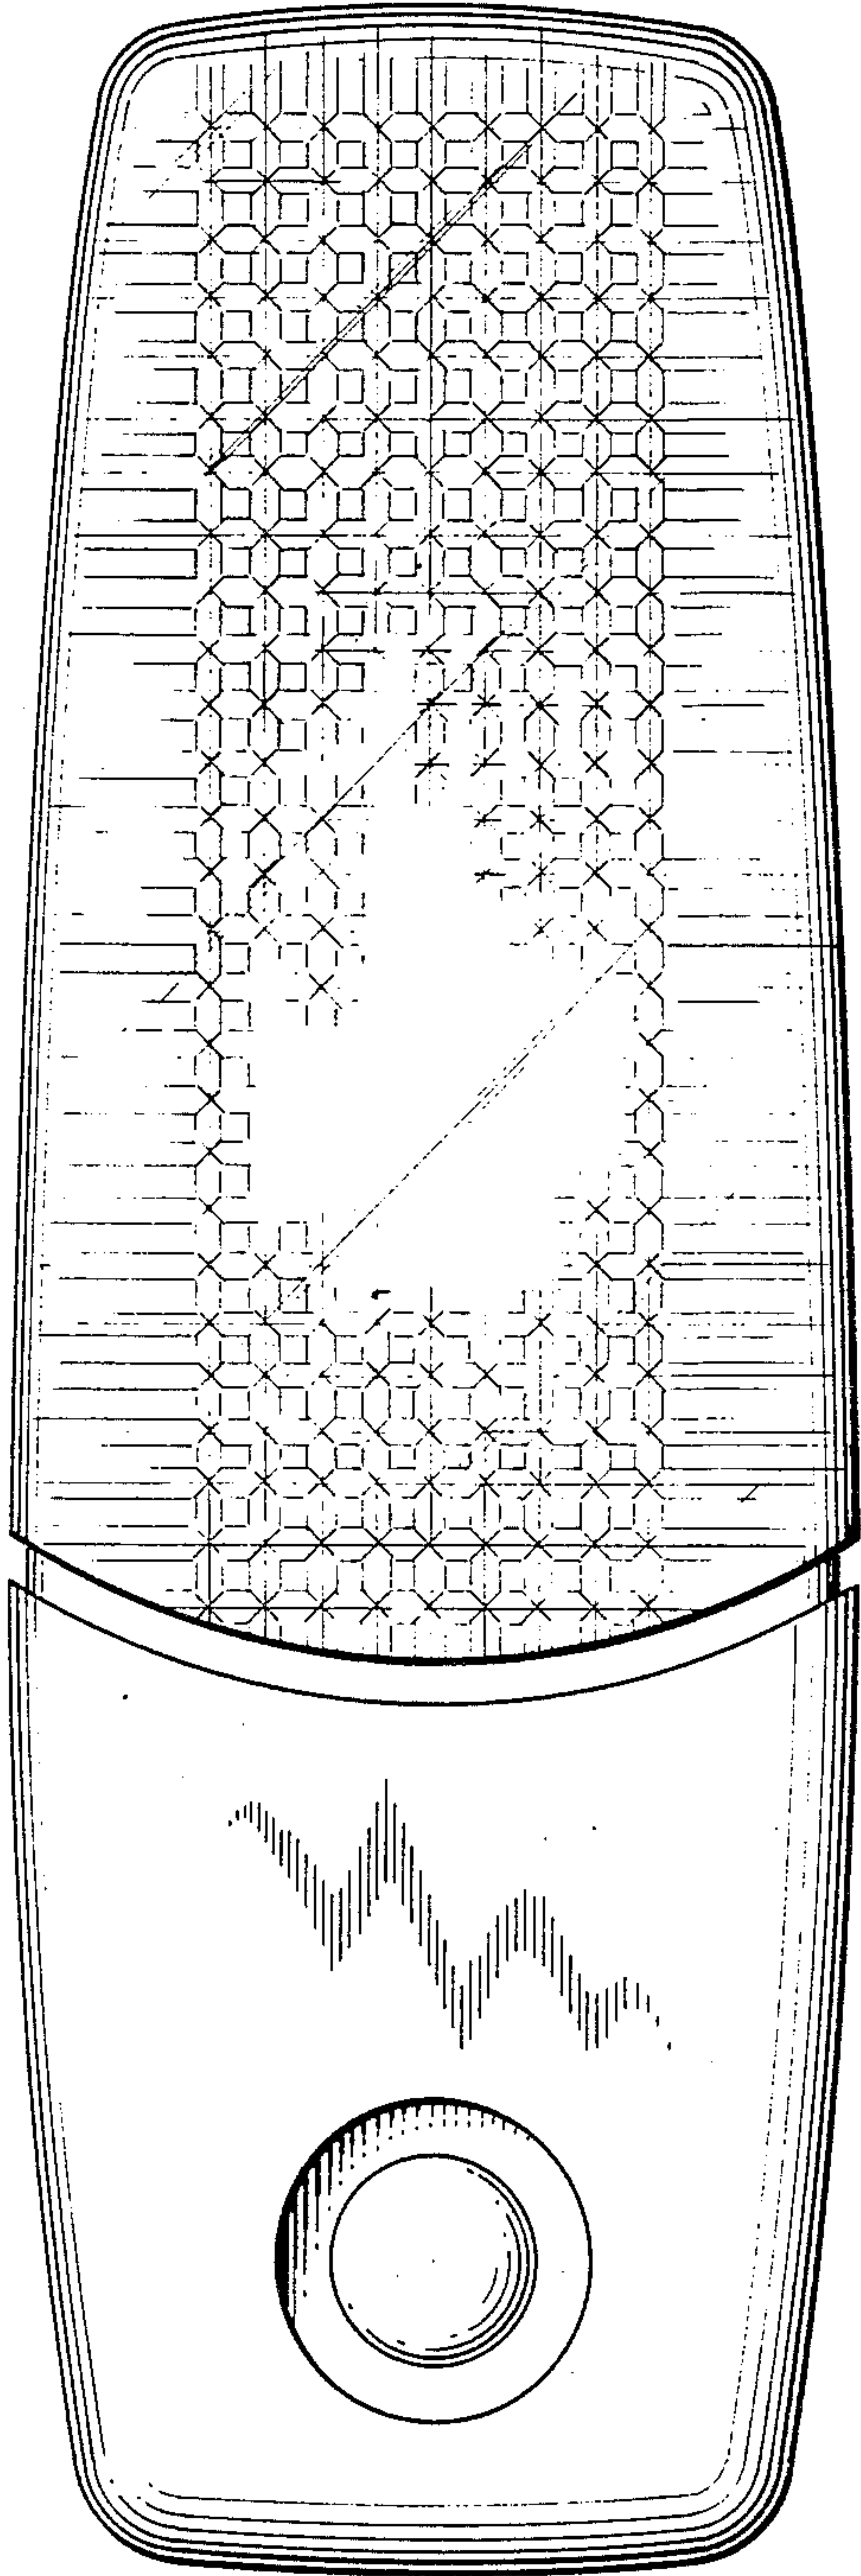

FIG. 5 is a bottom plan view thereof; and

FIG. 6 is a cross-sectional view taken along line 6—6 of FIG. 1.

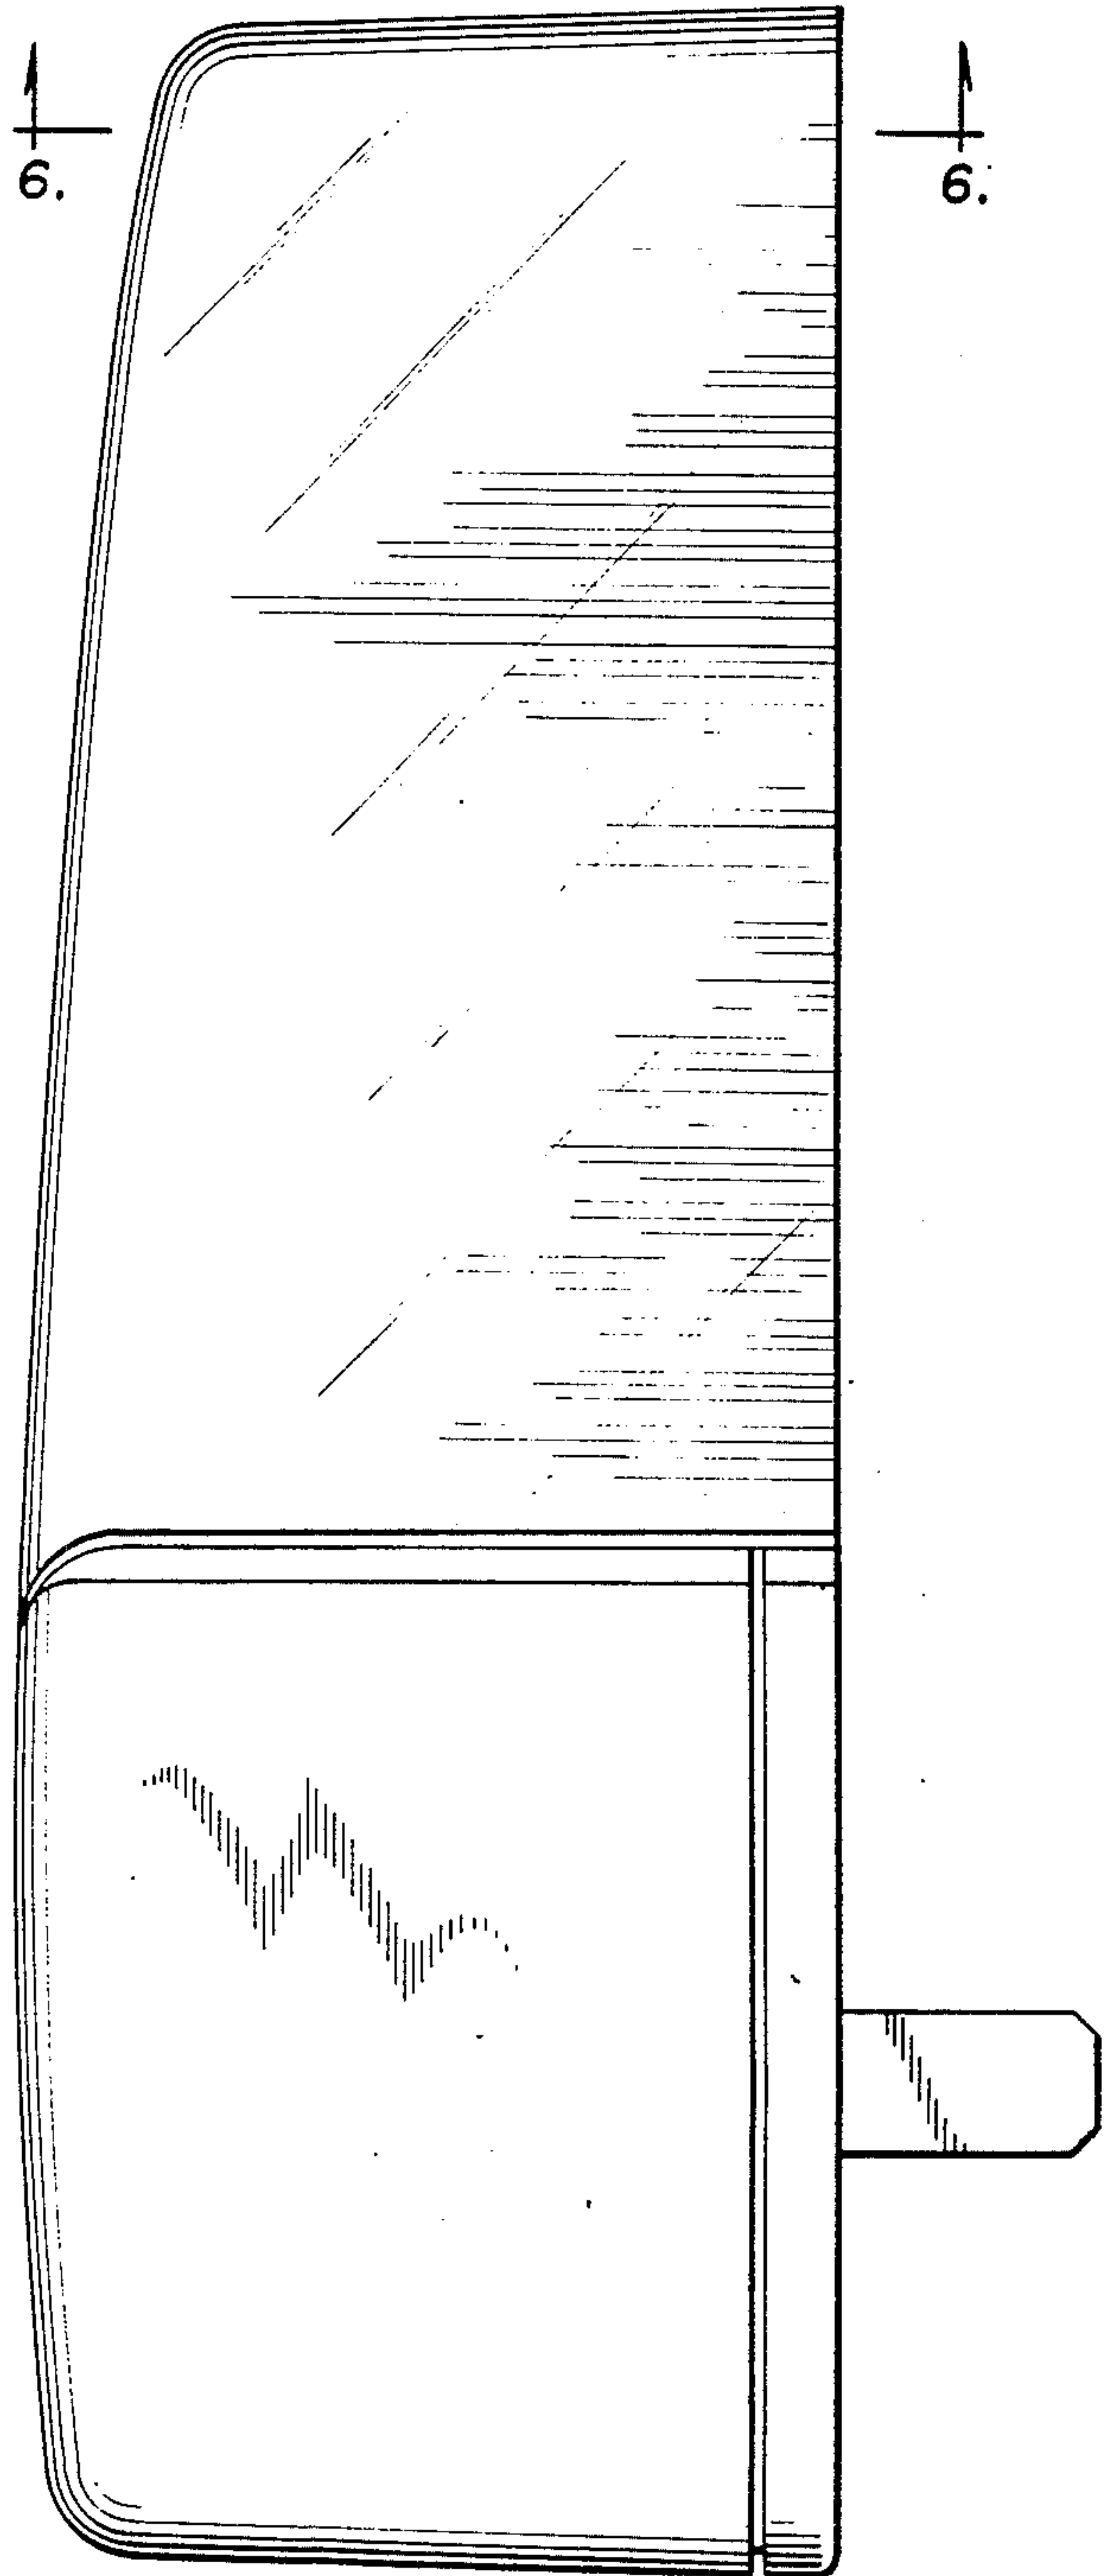

The lamp is shown in broken lines in FIG. 3 for illustrative purposes only.
