[57] CLAIM

The ornamental design for an adjustable CRT supporting stand, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an adjustable CRT supporting stand embodying our new design, illustrated in a level orientation.

FIG. 2 is a perspective view thereof in the inclined position;

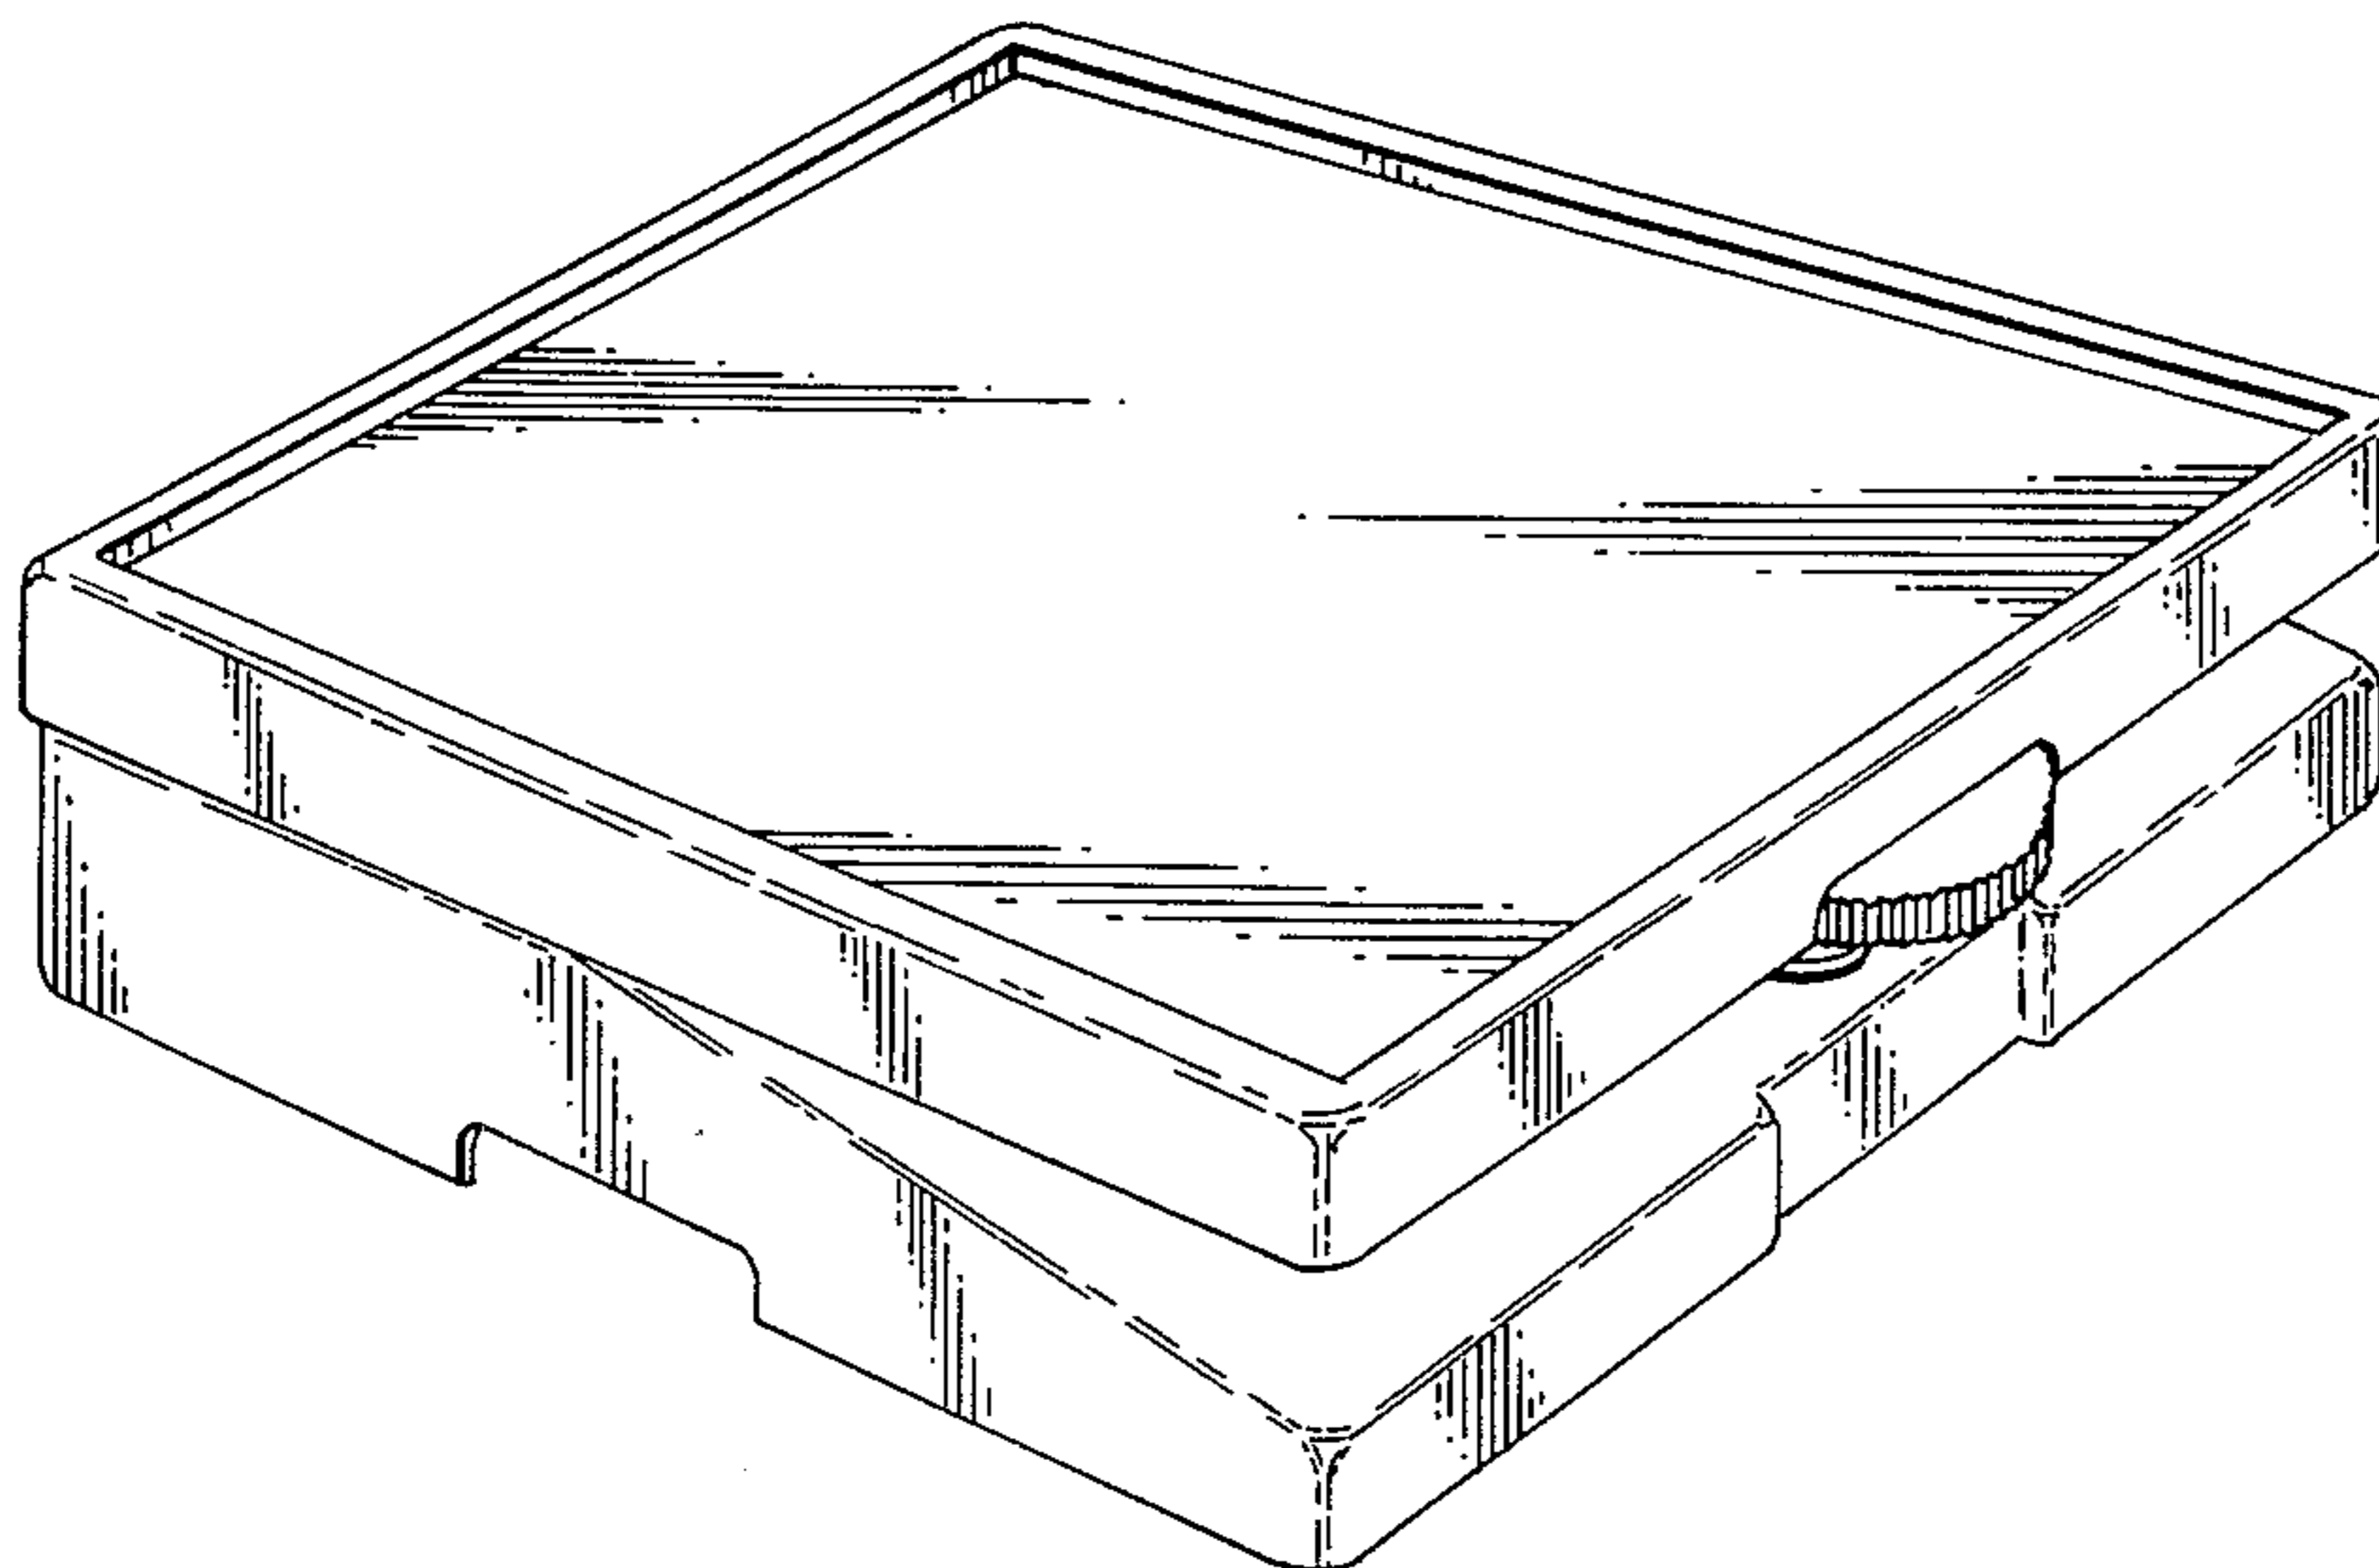

FIG. 3 is a front elevational view thereof on an enlarged scale in the level position shown in FIG. 1;

FIG. 4 is a side elevational view thereof on an enlarged scale, the opposite side being a mirror image;

FIG. 5 is a bottom plan view thereof on an enlarged scale;

FIG. 6 is a rear elevational view thereof on an enlarged scale;

FIG. 7 is a top plan view thereof on an enlarged scale.
