[57] CLAIM

The ornamental design for a rolling pin, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a rolling pin showing our new design;

FIG. 2 is a front elevational view thereof; on an enlarged scale, the opposite side being a mirror image; and FIG. 3 is a right side elevational view thereof, the opposite being a mirror image.

The essential features of our design for a rolling pin reside in the specific configuration of the wooden, turned handles in combination with the central, uniformly diametered portion of smooth, polished metal, all as illustrated.

The characteristic feature of the design resides in the specific configuration of the handles in combination with central, uniformly diametered body portion as best illustrated in FIG. 2.
