[57] CLAIM

The ornamental design for an implement for activating and deactivating a telephone hook switch, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front, top and partial right side perspective view of an implement for activating and deactivating a telephone hook switch showing my new design; FIG. 2 is a left side elevational view thereof, the side opposite being substantially a mirror image. FIG. 3 is a rear elevational view thereof; and FIG. 4 is a bottom plan view thereof.
