[57] CLAIM

The ornamental design for a work table or similar article, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a work table or similar article showing our design; FIG. 2 is a front elevational view; FIG. 3 is a rear elevational view; FIG. 4 is a bottom plan view on an enlarged scale, and wherein portions of the center have been broken away for convenience of illustration; FIG. 5 is a left hand elevational view; and FIG. 6 is a right hand elevational view thereof. FIG. 7 is a perspective view of a work table or similar article, showing a second embodiment of our design; and, FIG. 8 is a right hand side elevational view thereof. FIG. 9 is a side elevational view showing a third embodiment of the work table or similar article shown in FIG. 1; FIG. 10 is a rear elevational view showing a fourth embodiment of a work table or similar article shown in FIG. 1; FIG. 11 is an enlarged fragmentary view taken in perspective and showing the upper right hand corner of the work table or similar article of FIG. 10, at the rear of the embodiment of FIG. 10, in greater detail, the upper left hand corner at the rear of the embodiment of FIG. 10 being a mirror image thereof; FIG. 12 is a front elevational view of the embodiment shown in FIG. 10; FIG. 13 is an enlarged fragmental view taken in perspective and showing the upper right hand corner of the embodiment of FIG. 1, at the front of the embodiment of FIG. 1, the upper left hand corner at the front of the embodiment of FIG. 1 being a mirror image thereof; and FIG. 14 is an enlarged fragmental view taken in perspective and showing the upper right hand corner at the rear of the embodiment of FIG. 1, with the left hand corner at the rear of the embodiment of FIG. 1 being a mirror image thereof.
