[57] **CLAIM**

The ornamental design for a fluid filtration unit for use in oil well hole drilling operations, as shown and described.

DESCRIPTION

FIG. **1** is a front and top perspective view of a fluid filtration unit for use in oil well hole drilling operations showing my new design;

FIG. **2** is a rear left side and top perspective view thereof;

FIG. **3** is a top plan view thereof; and

FIG. **4** is a rear right side and top perspective view thereof.

The broken-line showing of the wheel assembly in FIGS. **1, 2** and **4** is for illustrative purposes only and forms no part of the claimed design. The partial surface treatment on the bottom platform is understood to cover the entire platform surface.
