[57] CLAIM

The ornamental appearance for a control panel for satellite television system, as shown and described.

#### DESCRIPTION

FIG. 1 is a top, front and right side perspective view of a control panel for satellite television system showing our new design, wherein the claim is embodied in a receiver;

FIG. 2 is a front elevational view thereof;

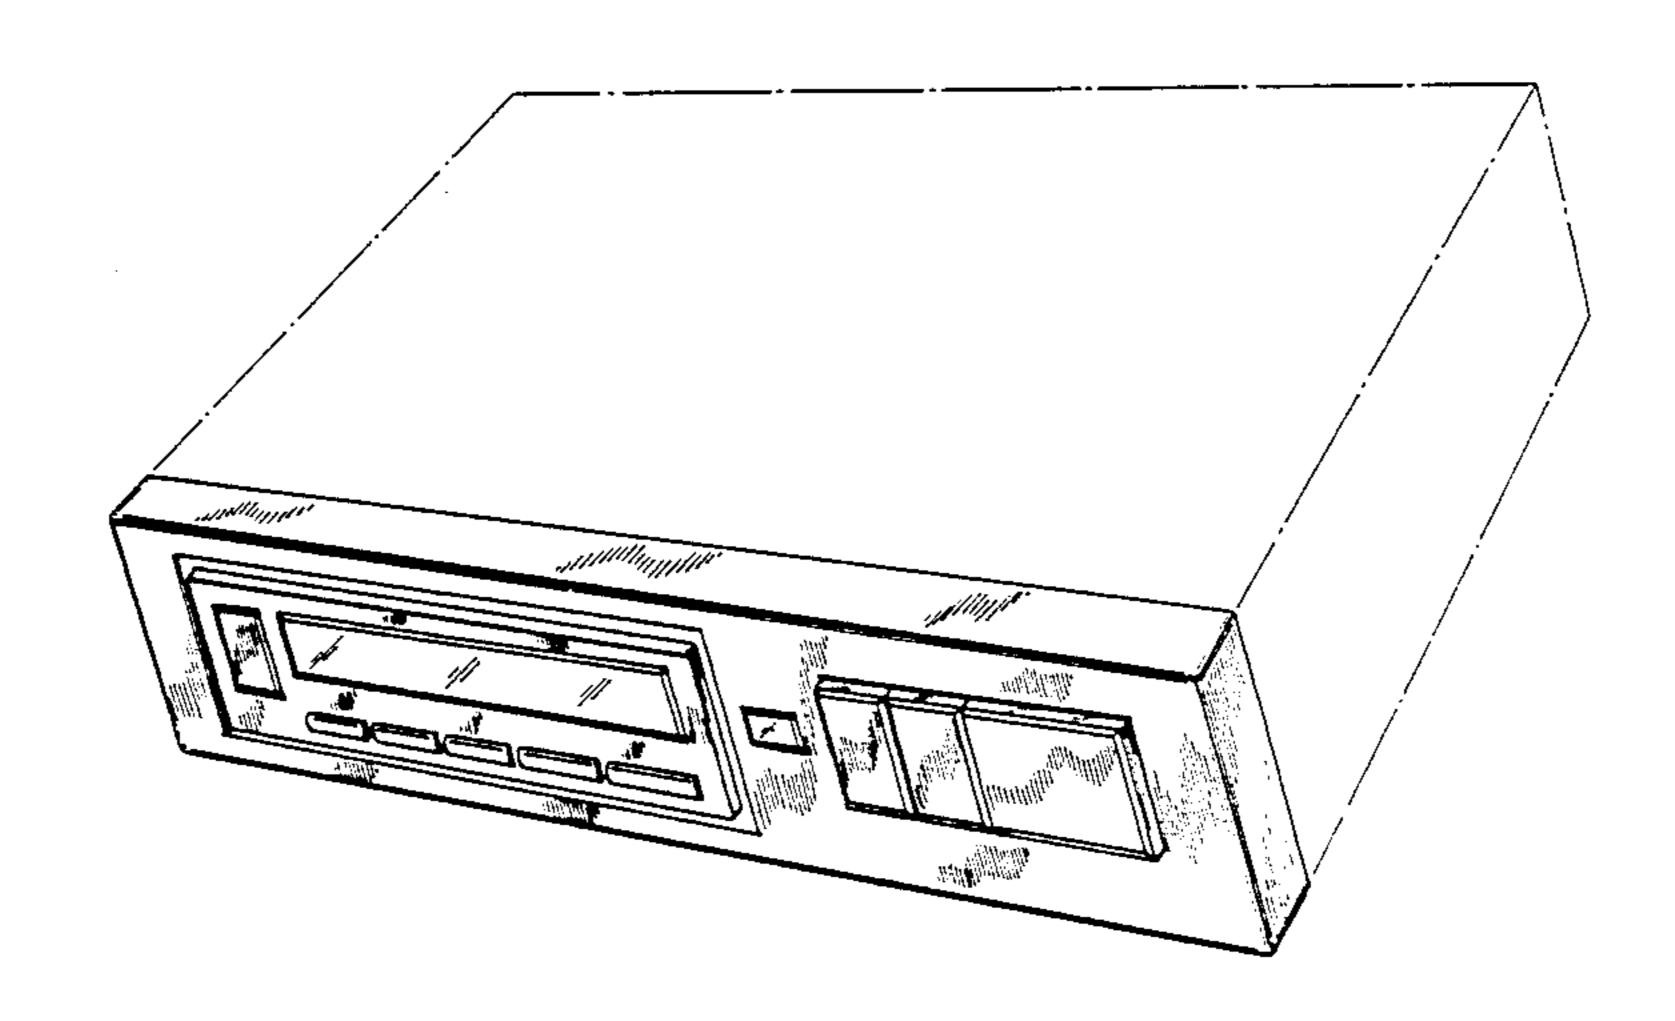

FIG. 3 is a top plan view thereof;

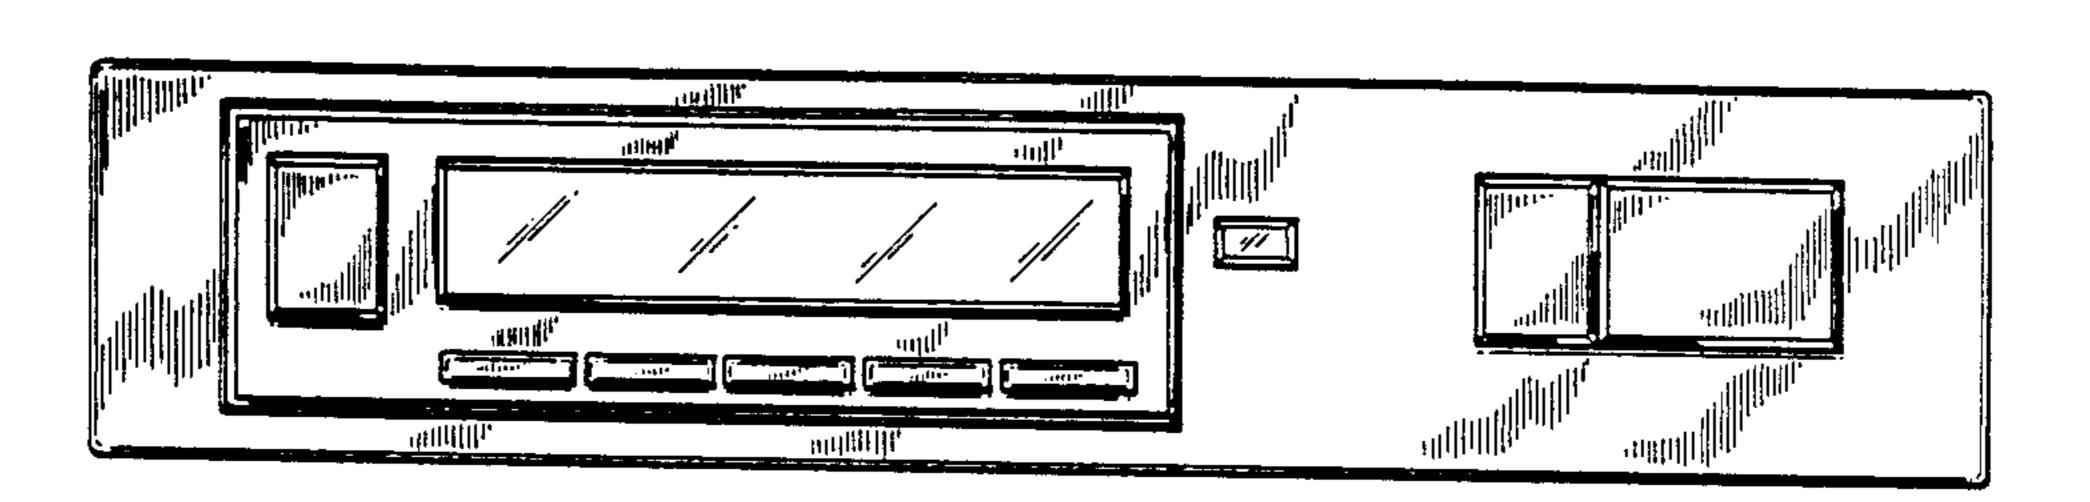

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a right side elevational view thereof; and

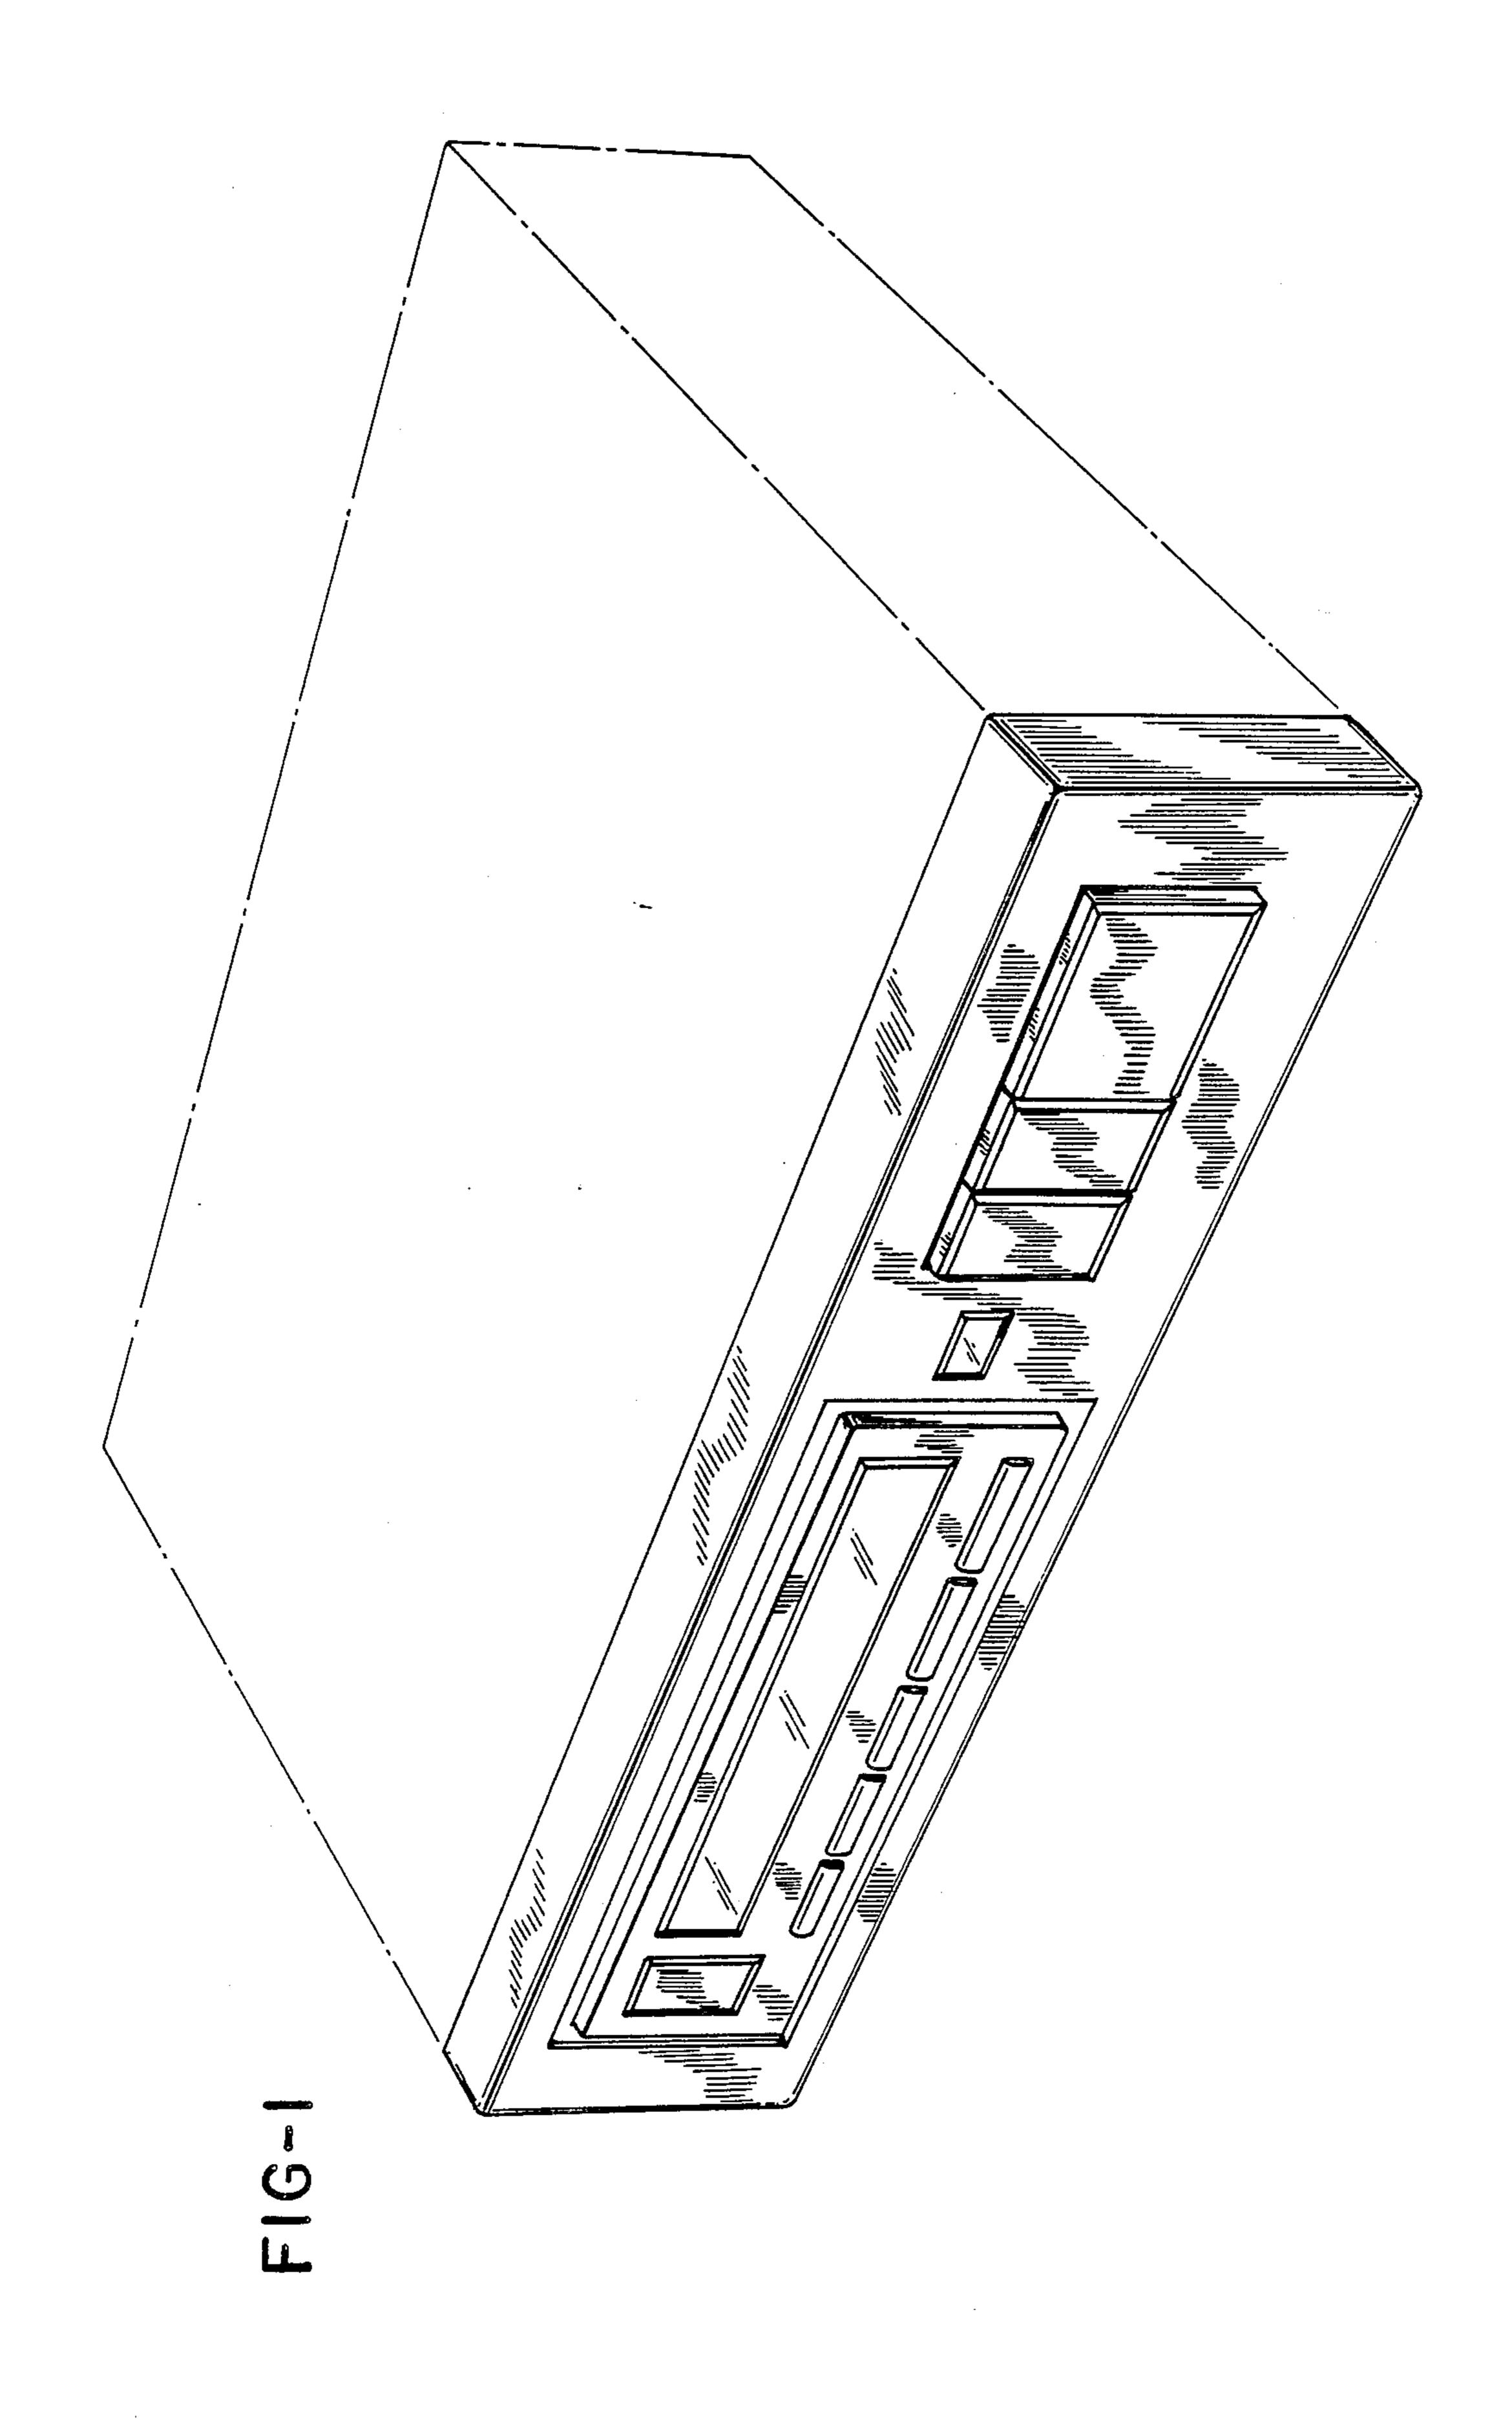

FIG. 6 is a second embodiment thereof, as shown in FIG. 1 wherein the claim is embodied in an antenna positioner.

The housing shown in broken lines in FIGS. 1, 3, 4 and 5 is for illustrative purposes only and forms no part of the claimed design. The sides of the second embodiment are similar in appearance to that shown in FIGS. 4 and 5.
