[57] **CLAIM**

The ornamental design for a holder for needlework hoop or frame, as shown and described.

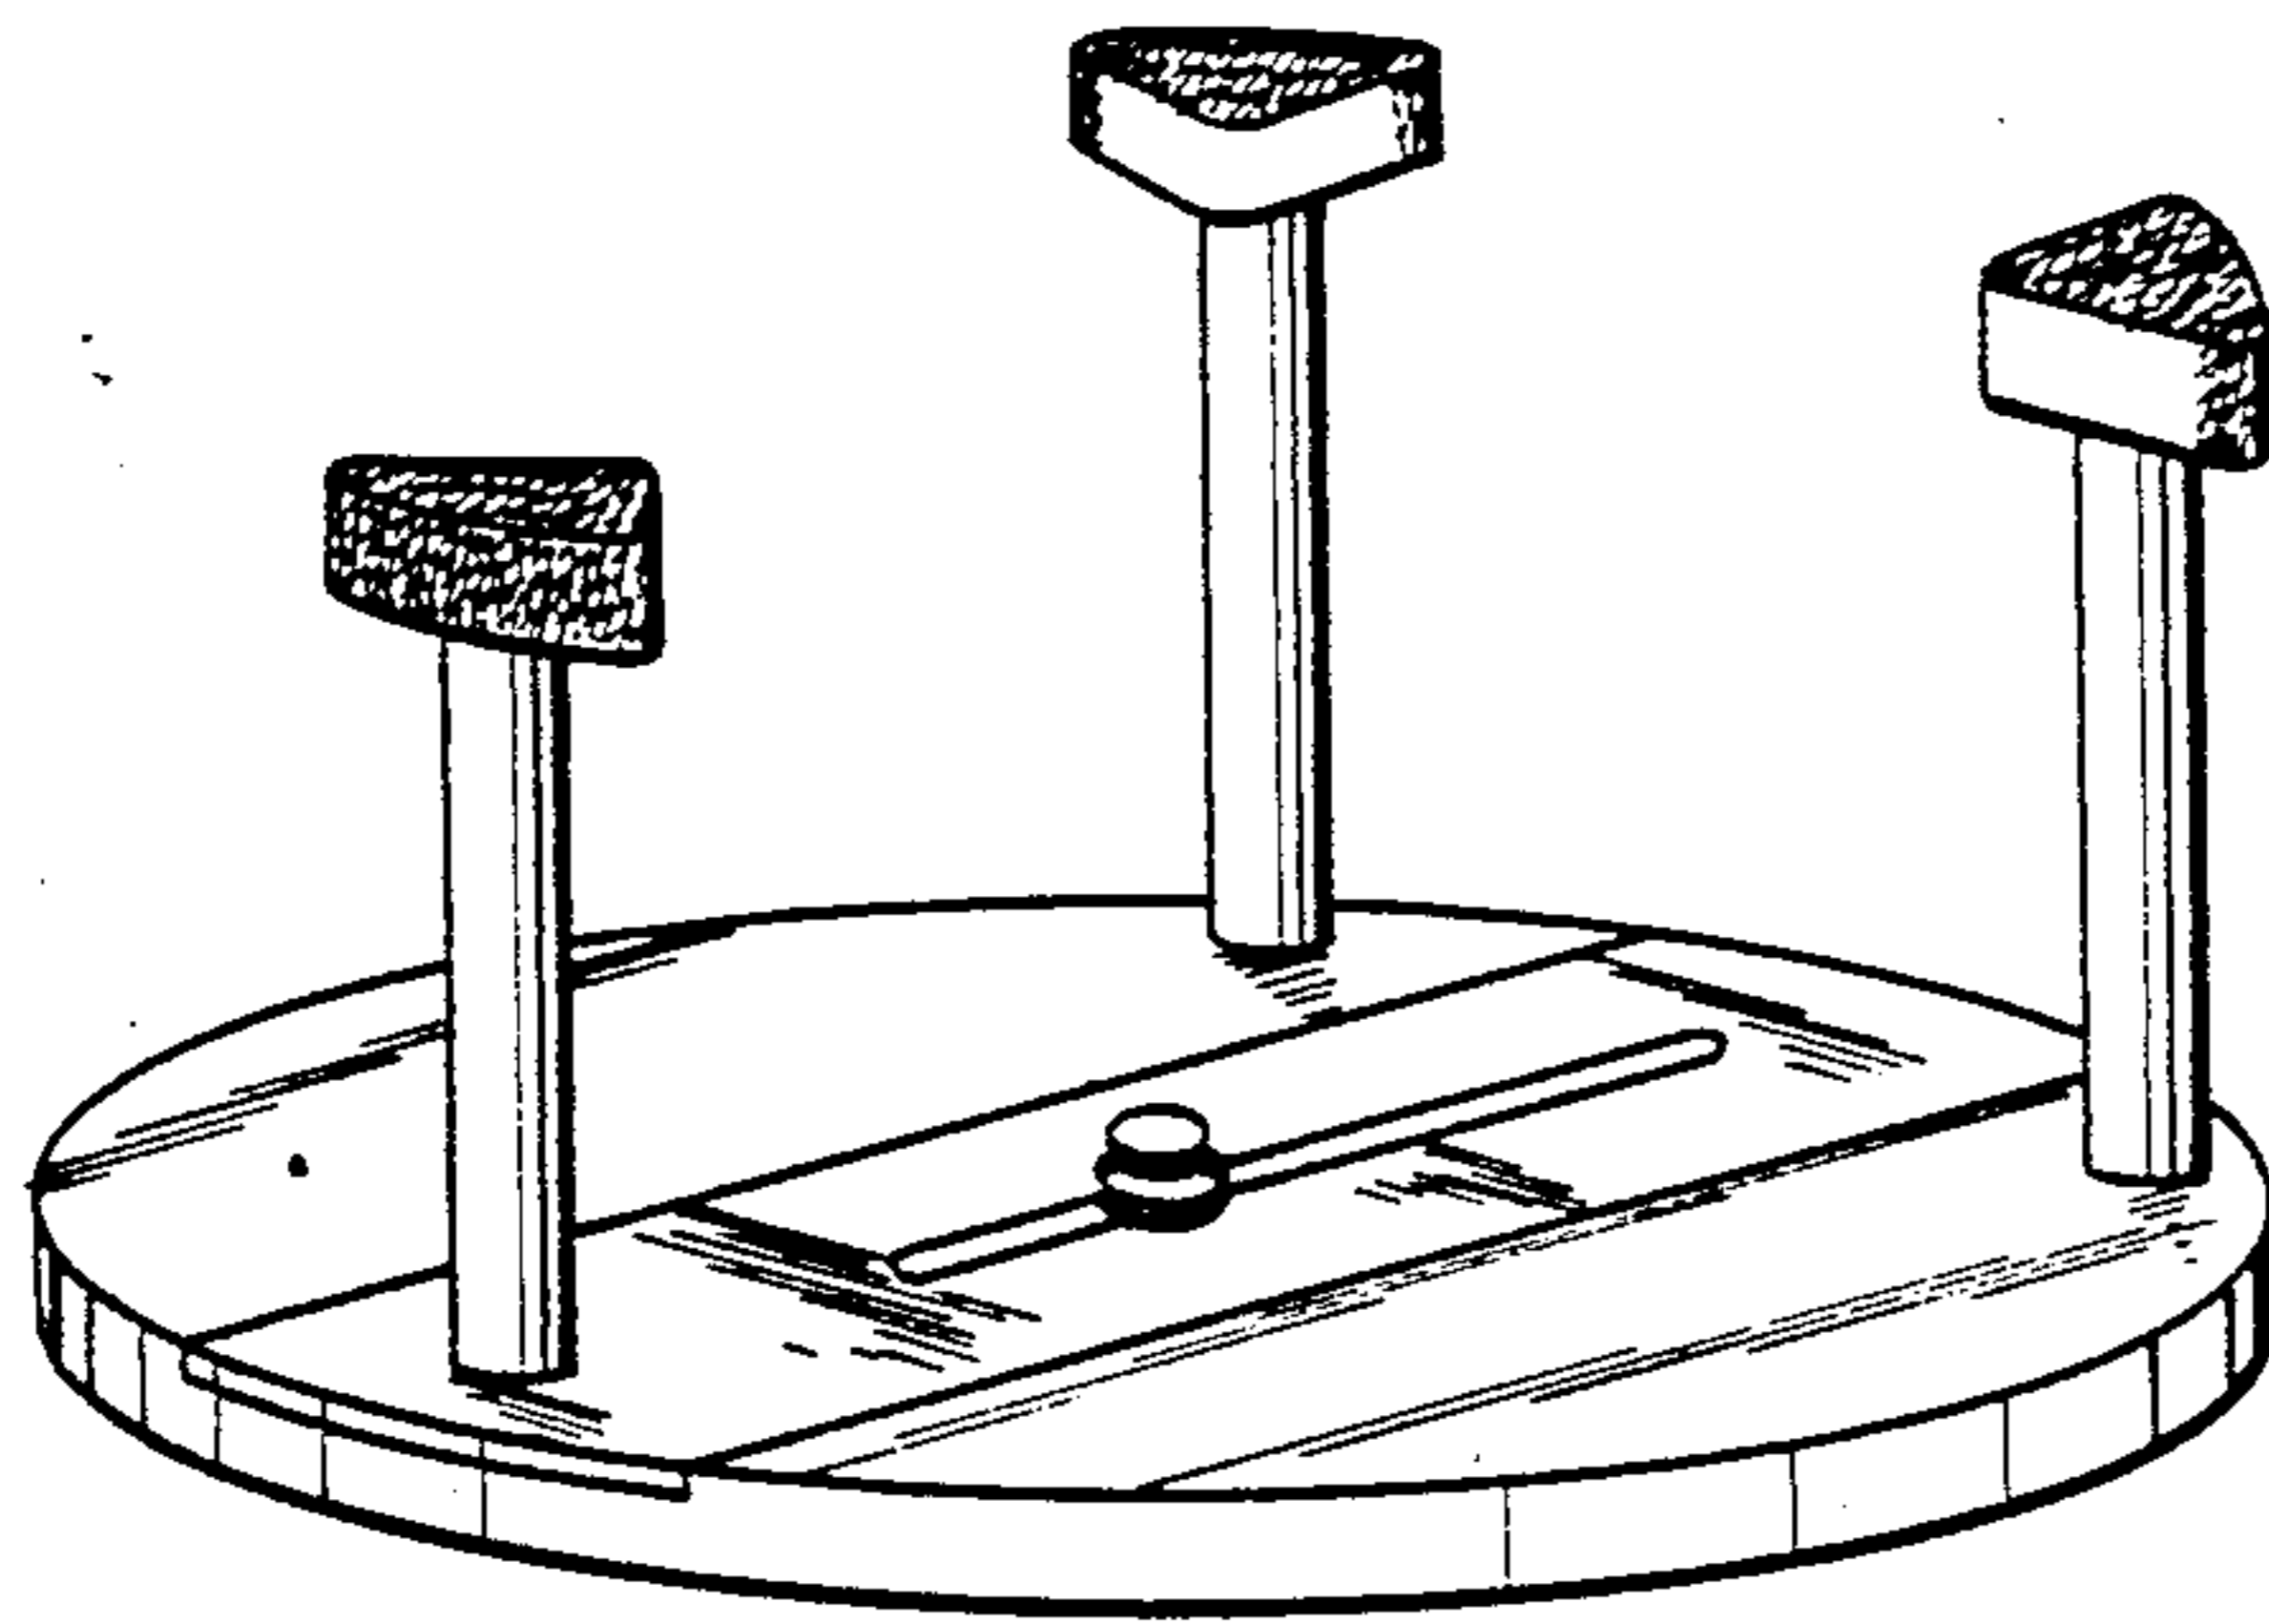

DESCRIPTION

FIG. 1 is a perspective view of a holder for needlework hoop or frame showing our new design; FIG. 2 is a top plan view thereof; the hoop shown in broken lines for illustrative purposes only; FIG. 3 is a rear elevational view thereof. FIG. 4 is a front elevational view thereof. FIG. 5 is a right side elevational view thereof, the opposite side being a mirror image; and FIG. 6 is a bottom plan view thereof.

The appearance of the left-hand side is a mirror image of that shown in FIG. 5.

The dotted line in the top view of FIG. 2 represents a needlework hoop mounted on the holder, this particular hoop being an oval-shaped hoop, and is merely for illustrative purposes but not part of the design.

The darkened areas on the pads atop the posts represent a hook and loop type of fabric, such as is well known by the trademark Velcro.
