## [57] CLAIM

The ornamental design for a computer housing or similar article, substantially as shown and described.

## DESCRIPTION

FIG. 1 is a front view of a first embodiment of the computer housing or similar article showing our new design;

FIG. 2 is a top view of the first embodiment of the design;

FIG. 3 is a right side view of the first embodiment of the

design, the left side being essentially a mirror image thereof;

FIG. 4 is a rear view of the first embodiment of the design;

FIG. 5 is a front view of a second embodiment of the new design for a computer housing or similar article; FIG. 6 is a right side view of the second embodiment of the design, the left side being essentially a mirror image thereof;

The top and rear views of the second embodiment of the design are the same as those of the first embodiment, shown in FIGS. 2 and 4, respectively;

FIG. 7 is a front view of a third embodiment of the new design for a computer housing or similar article;

FIG. 8 is a top view of the third embodiment of the design;

FIG. 9 is a rear view of the third embodiment of the design;

The right side view of the third embodiment of the design is the same as that of the second embodiment, shown in FIG. 6;

The left side view of the third embodiment of the design is essentially a mirror image of the right side view of the first embodiment, shown in FIG. 3;

FIG. 10 is a front view of a fourth embodiment of the new design for a computer housing or similar article;

FIG. 11 is a top view of the fourth embodiment of the design;

FIG. 12 is a rear view of the fourth embodiment of the design;

FIG. 13 is a left side view of the fourth embodiment of the design;

The right side view of the fourth embodiment of the design is the same as that of the first embodiment, shown in FIG. 3;

FIG. 14 is a front view of a fifth embodiment of the new design for a computer housing or similar article;

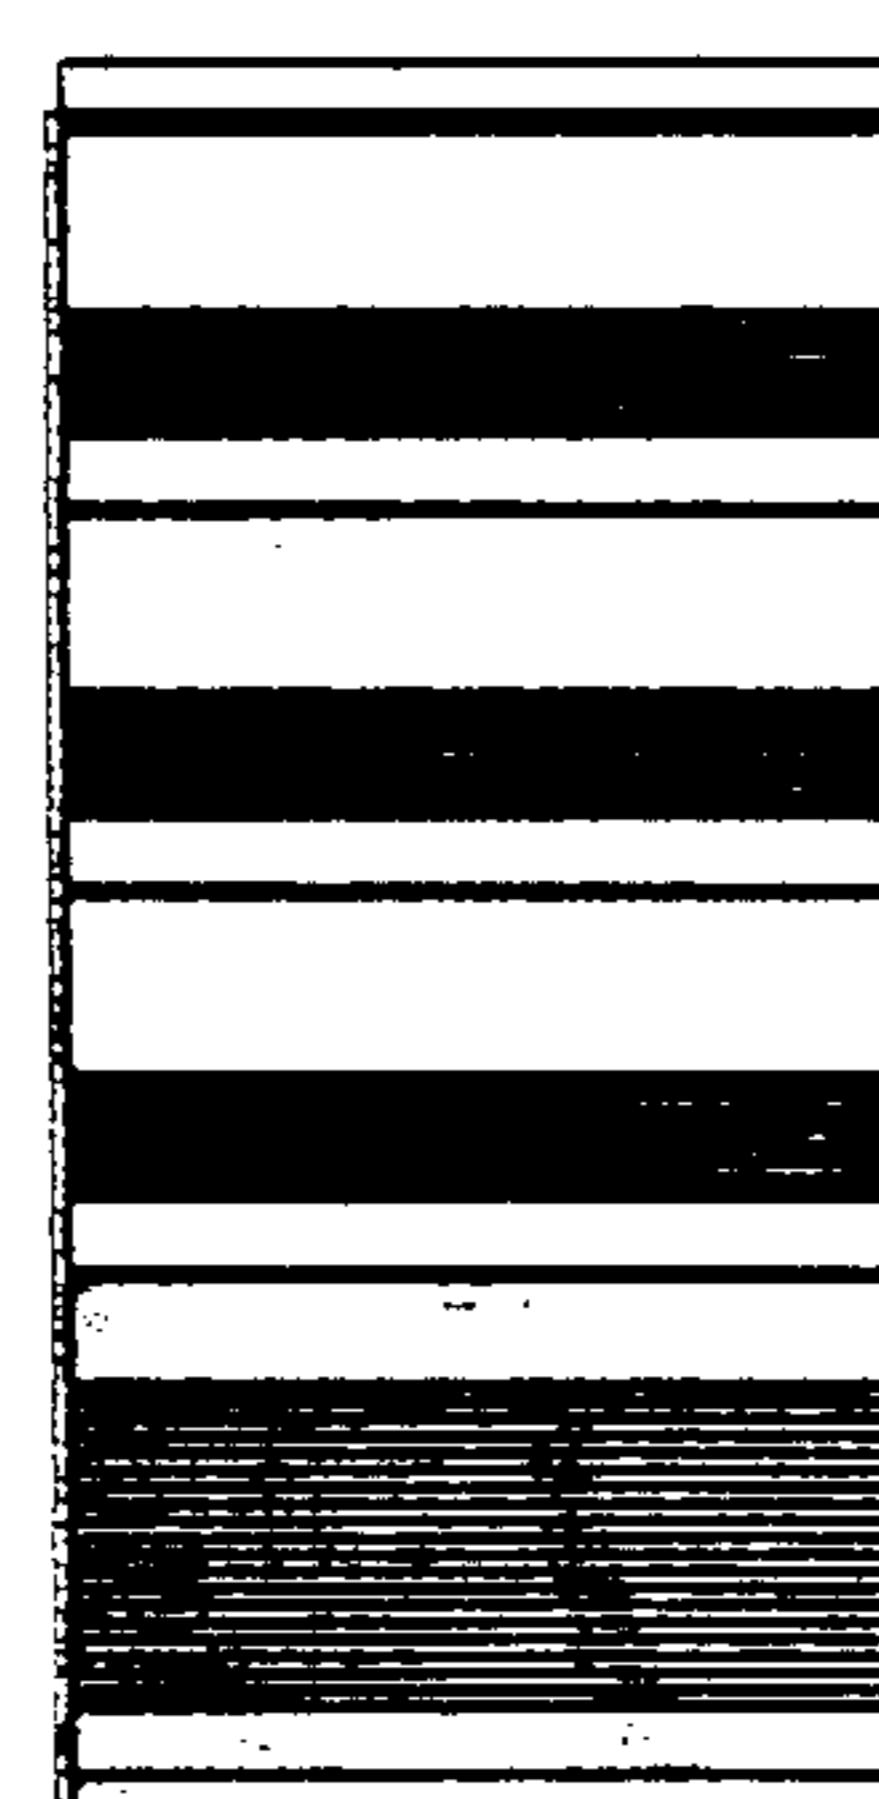

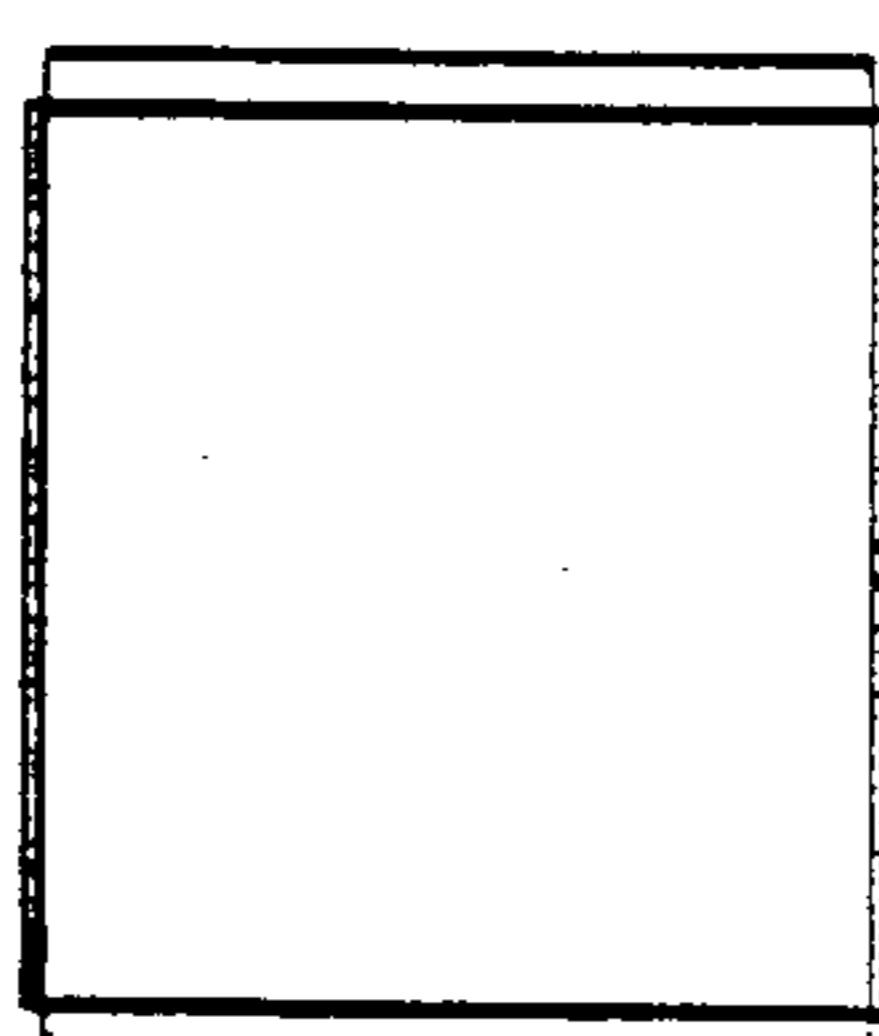

FIG. 15 is a top view of the fifth embodiment of the design;

FIG. 16 is a rear view of the fifth embodiment of the design;

The right side view of the fifth embodiment of the design is the same as that of the second embodiment, shown in FIG. 6;

The left side view of the fifth embodiment of the design

(List continued on next page.)

**DESCRIPTION**

is the same as that of the fourth embodiment, shown in FIG. 13;

FIG. 17 is a front view of a sixth embodiment of the new design for a computer housing or similar article;

FIG. 18 is a top view of the sixth embodiment of the design;

FIG. 19 is a rear view of the sixth embodiment of the design;

The right side view of the sixth embodiment of the design is the same as that of the second embodiment, shown in FIG. 6; and

The left side view of the sixth embodiment of the design is the same as that of the fourth embodiment, shown in FIG. 13;
