[57] CLAIM

The ornamental design for a clothes hanger clamp for luggage, as shown.

DESCRIPTION

FIG. 1 is a perspective view of an clothes hanger clamp

for luggage embodying our new design;

FIG. 2 is a front end elevational view thereof;

FIG. 3 is a rear end elevational view thereof; FIG. 4 is a left side elevational view thereof;

FIG. 5 is a top plan view thereof.

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a bottom plan elevational view thereof;

FIG. 8 is a left side elevational view thereof shown in an opened position;

FIG. 9 is a left side elevational view of a second embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members;

FIG. 10 is a left side elevational view of a third embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members;

FIG. 11 is a left side elevational view of a fourth embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members;

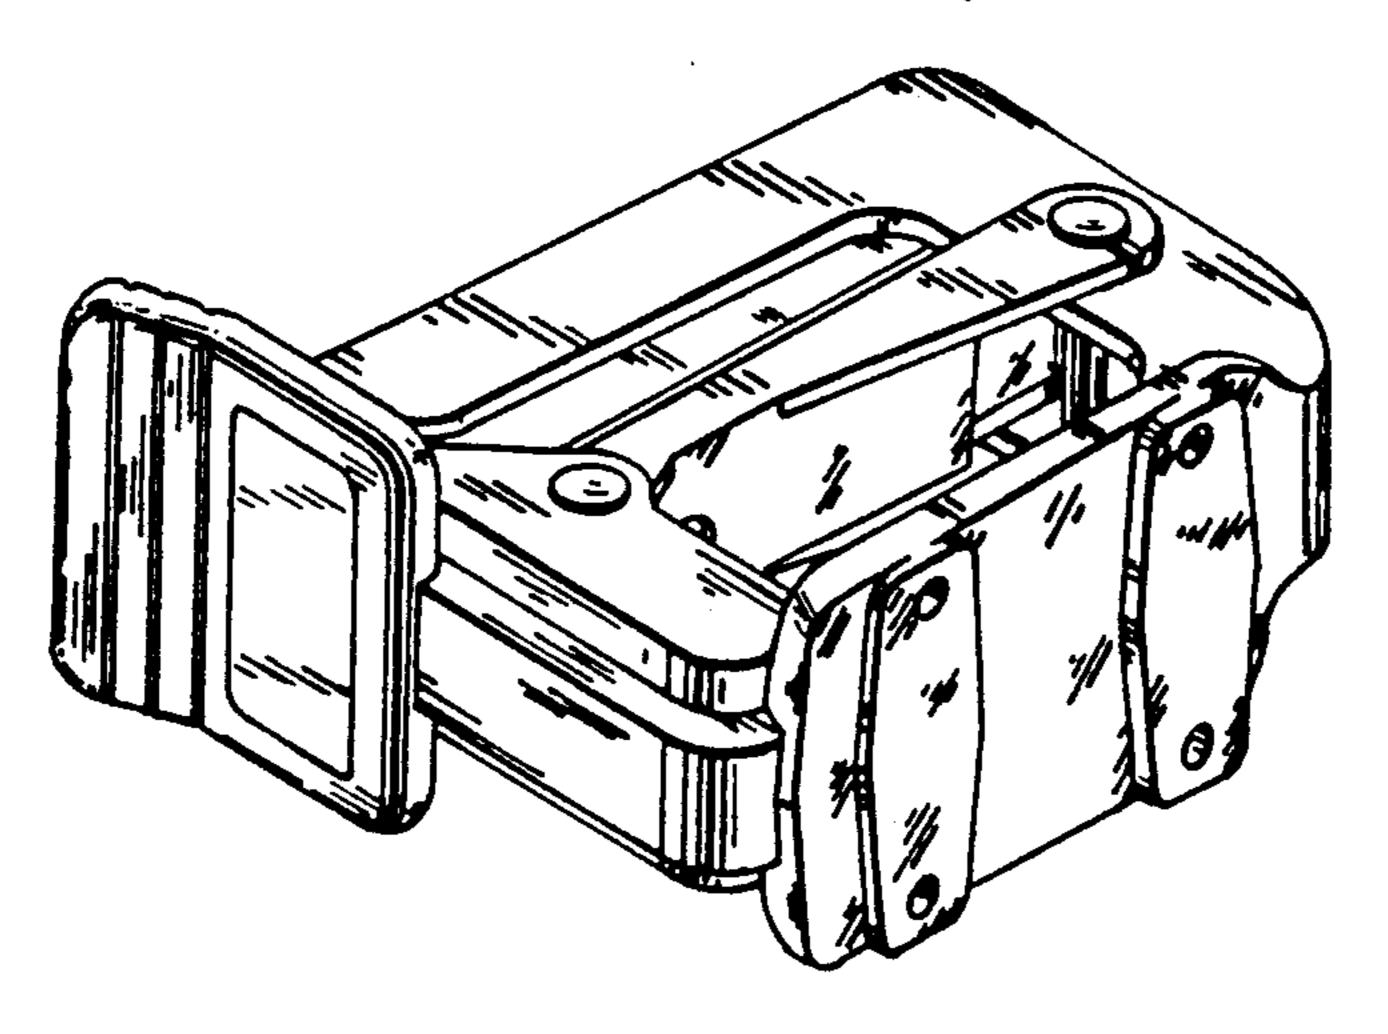

FIG. 12 is a left side elevational view of a fifth embodiment thereof, the only difference residing in the appearance of the perforation in the jaw members;

FIG. 13 is a left side elevational view of a sixth embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members;

FIG. 14 is a left side elevational view of a seventh embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members;

FIG. 15 is a left side elevational view of a eighth embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members; and FIG. 16 is a left side elevational view of a ninth embodiment thereof, the only difference residing in the appearance of the perforations in the jaw members.

With respect to the alternative embodiments of the design shown in FIGS. 9 through 17, each right side elevational view is a mirror image thereof; each front end elevational view thereof, each rear end elevational view thereof, each top plan view thereof, and each bottom plan view thereof is respectively illustrated in FIGS. 2, 3, 5 and 7; and each perspective view thereof is illustrated by FIG. 1 incorporating the alternative embodiments of each of the FIGS. 9 through 17, respectively.
