[57] CLAIM

The ornamental design for combined lamp and aquarium or the like, substantially as shown and described.

DESCRIPTION

FIG. 1 is a fragmentary front, left side perspective view

of a combined lamp and aquarium or the like showing my new design, the harp being fragmentarily shown for convenience of illustration;

FIG. 2 is a reduced rear elevational view thereof, the top cover being omitted for purposes of disclosure;

FIG. 3 is a reduced front elevational view thereof, the legs on the harp being broken away for convenience of illustration;

FIG. 4 is a top plan view thereof, the cover being omitted for purposes of disclosure;

FIG. 5 is a top plan view thereof, showing the assembled lamp and aquarium;

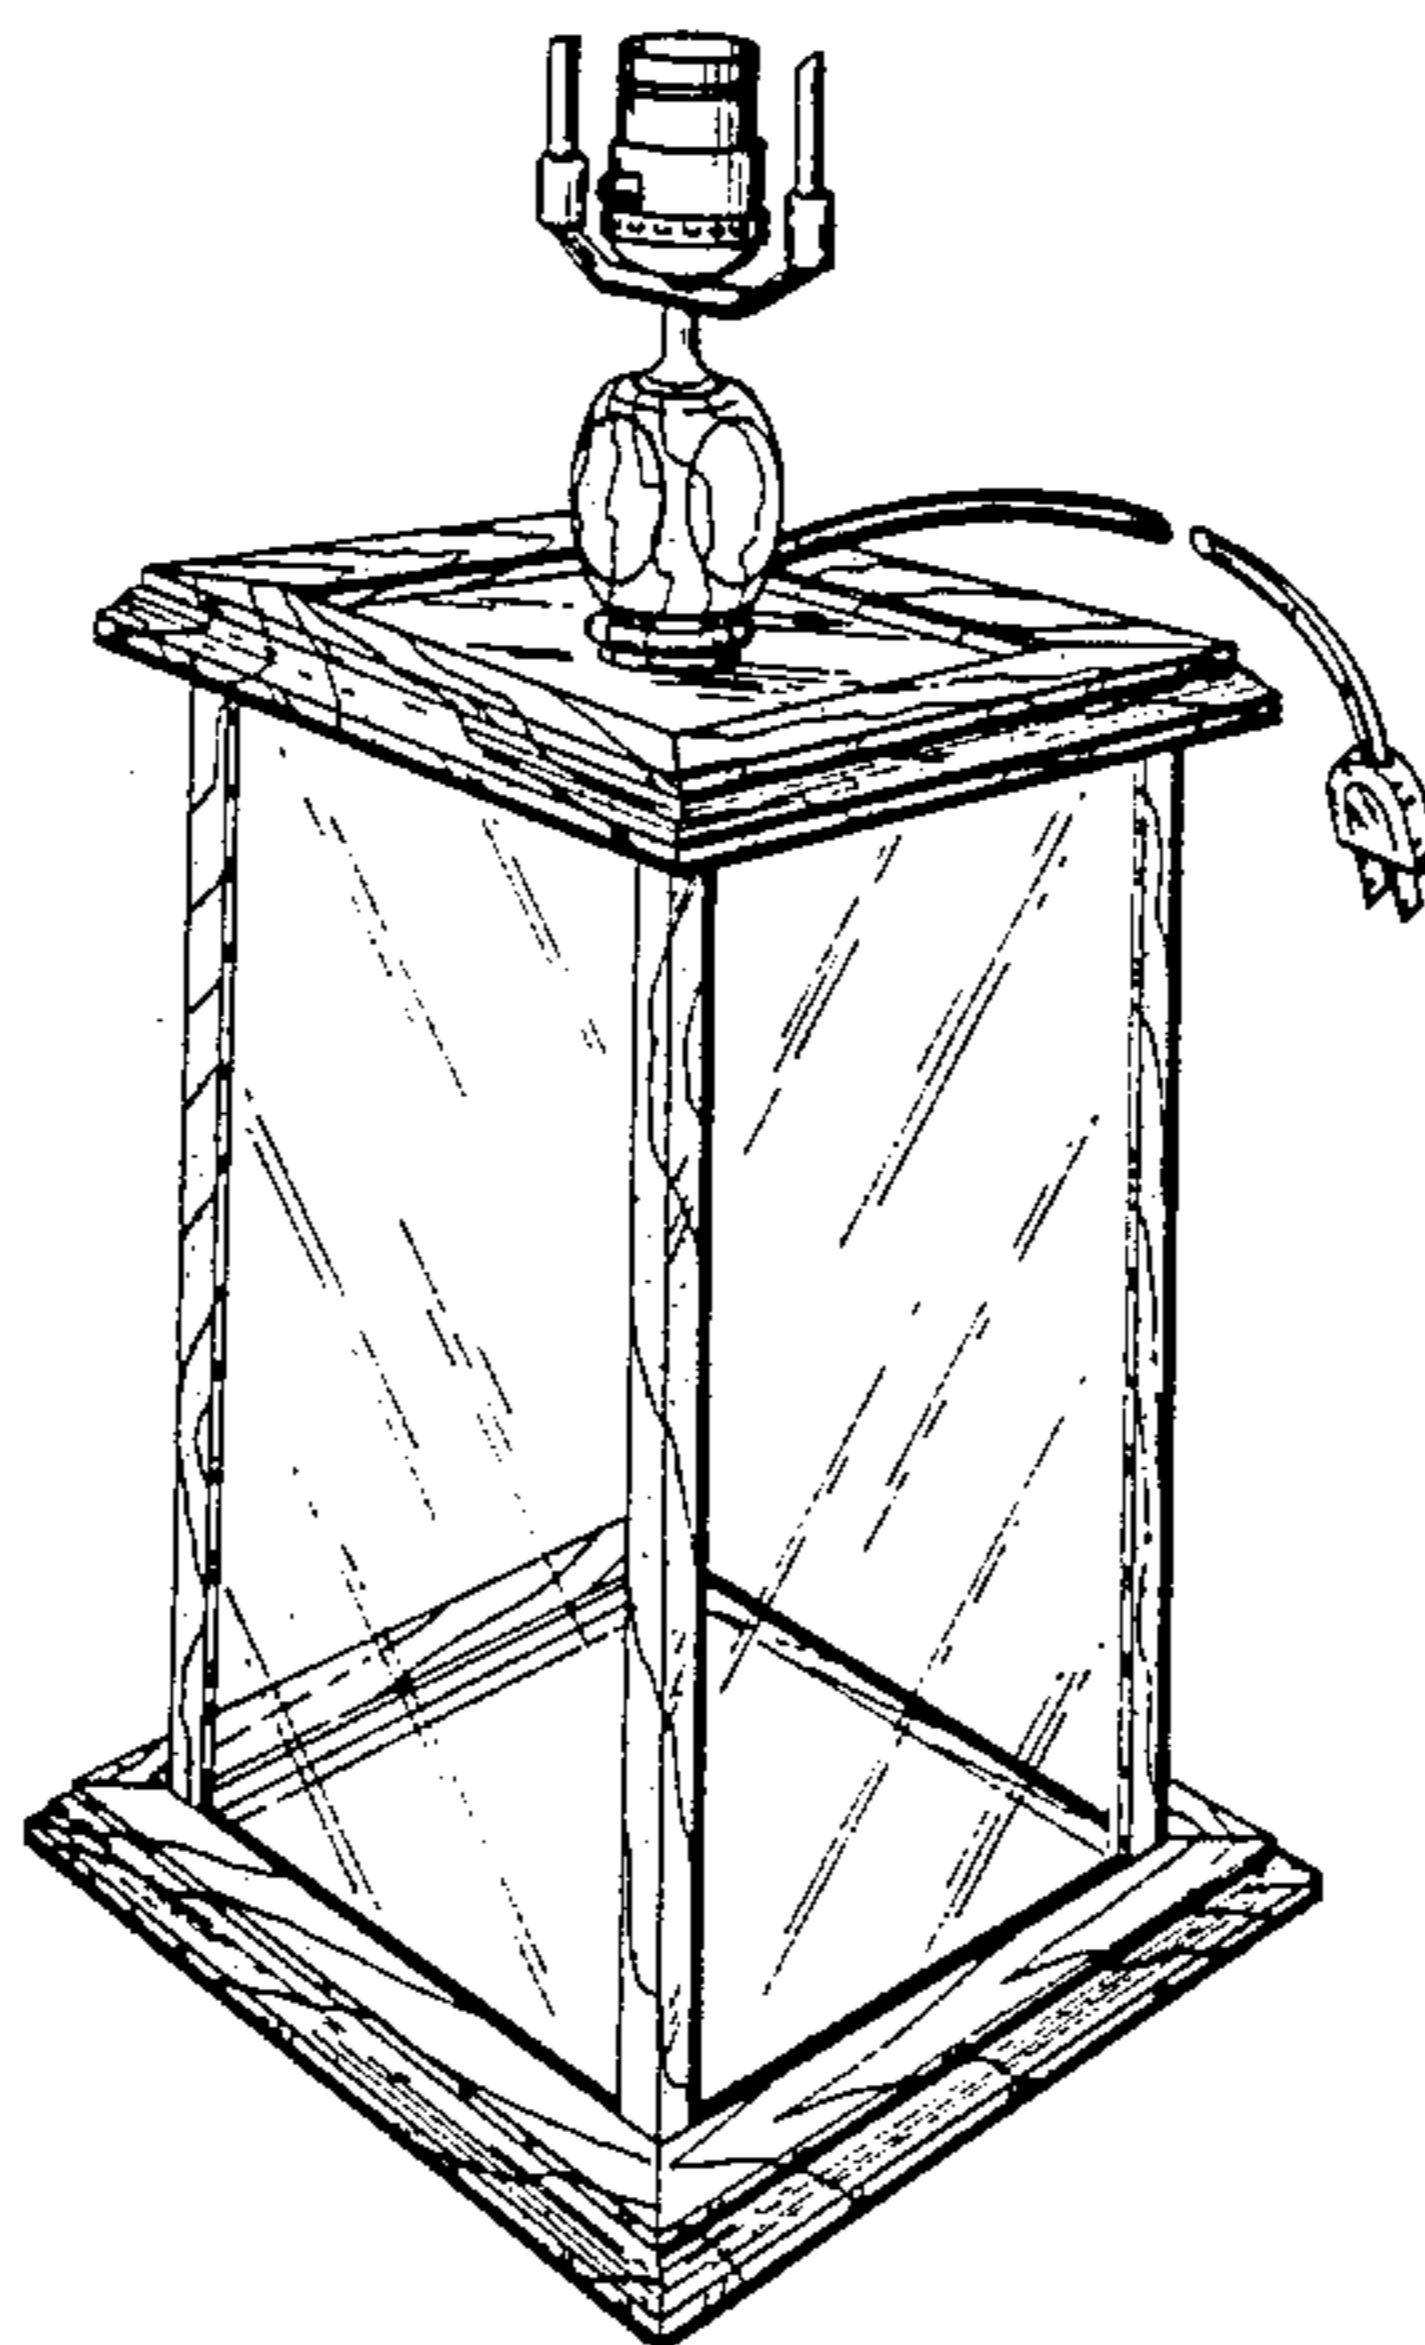

FIG. 6 is a bottom plan view thereof;

FIG. 7 is a fragmentary front elevational view of a second embodiment of my new design, the lamp being broken away for convenience of illustration;

FIG. 8 is an end elevational view thereof, the opposite end being a mirror image, the top cover being omitted for purposes of disclosure;

FIG. 9 is a rear elevational view thereof, the top cover being omitted for purposes of disclosure.

The rear of the lamp harp and base therefor is a mirror image of the front as shown in FIG. 3. The right side of the lamp harp and base is a mirror image of the left as shown in FIG. 1. The interior surface of the rear wall of the aquarium is mirrored, and the exterior surface of the rear wall is an opaque wood-grained panel. The second embodiment differs from the first embodiment only in the proportion of the aquarium.
