[57] CLAIM

The ornamental design for a container wall, as shown and described.

DESCRIPTION

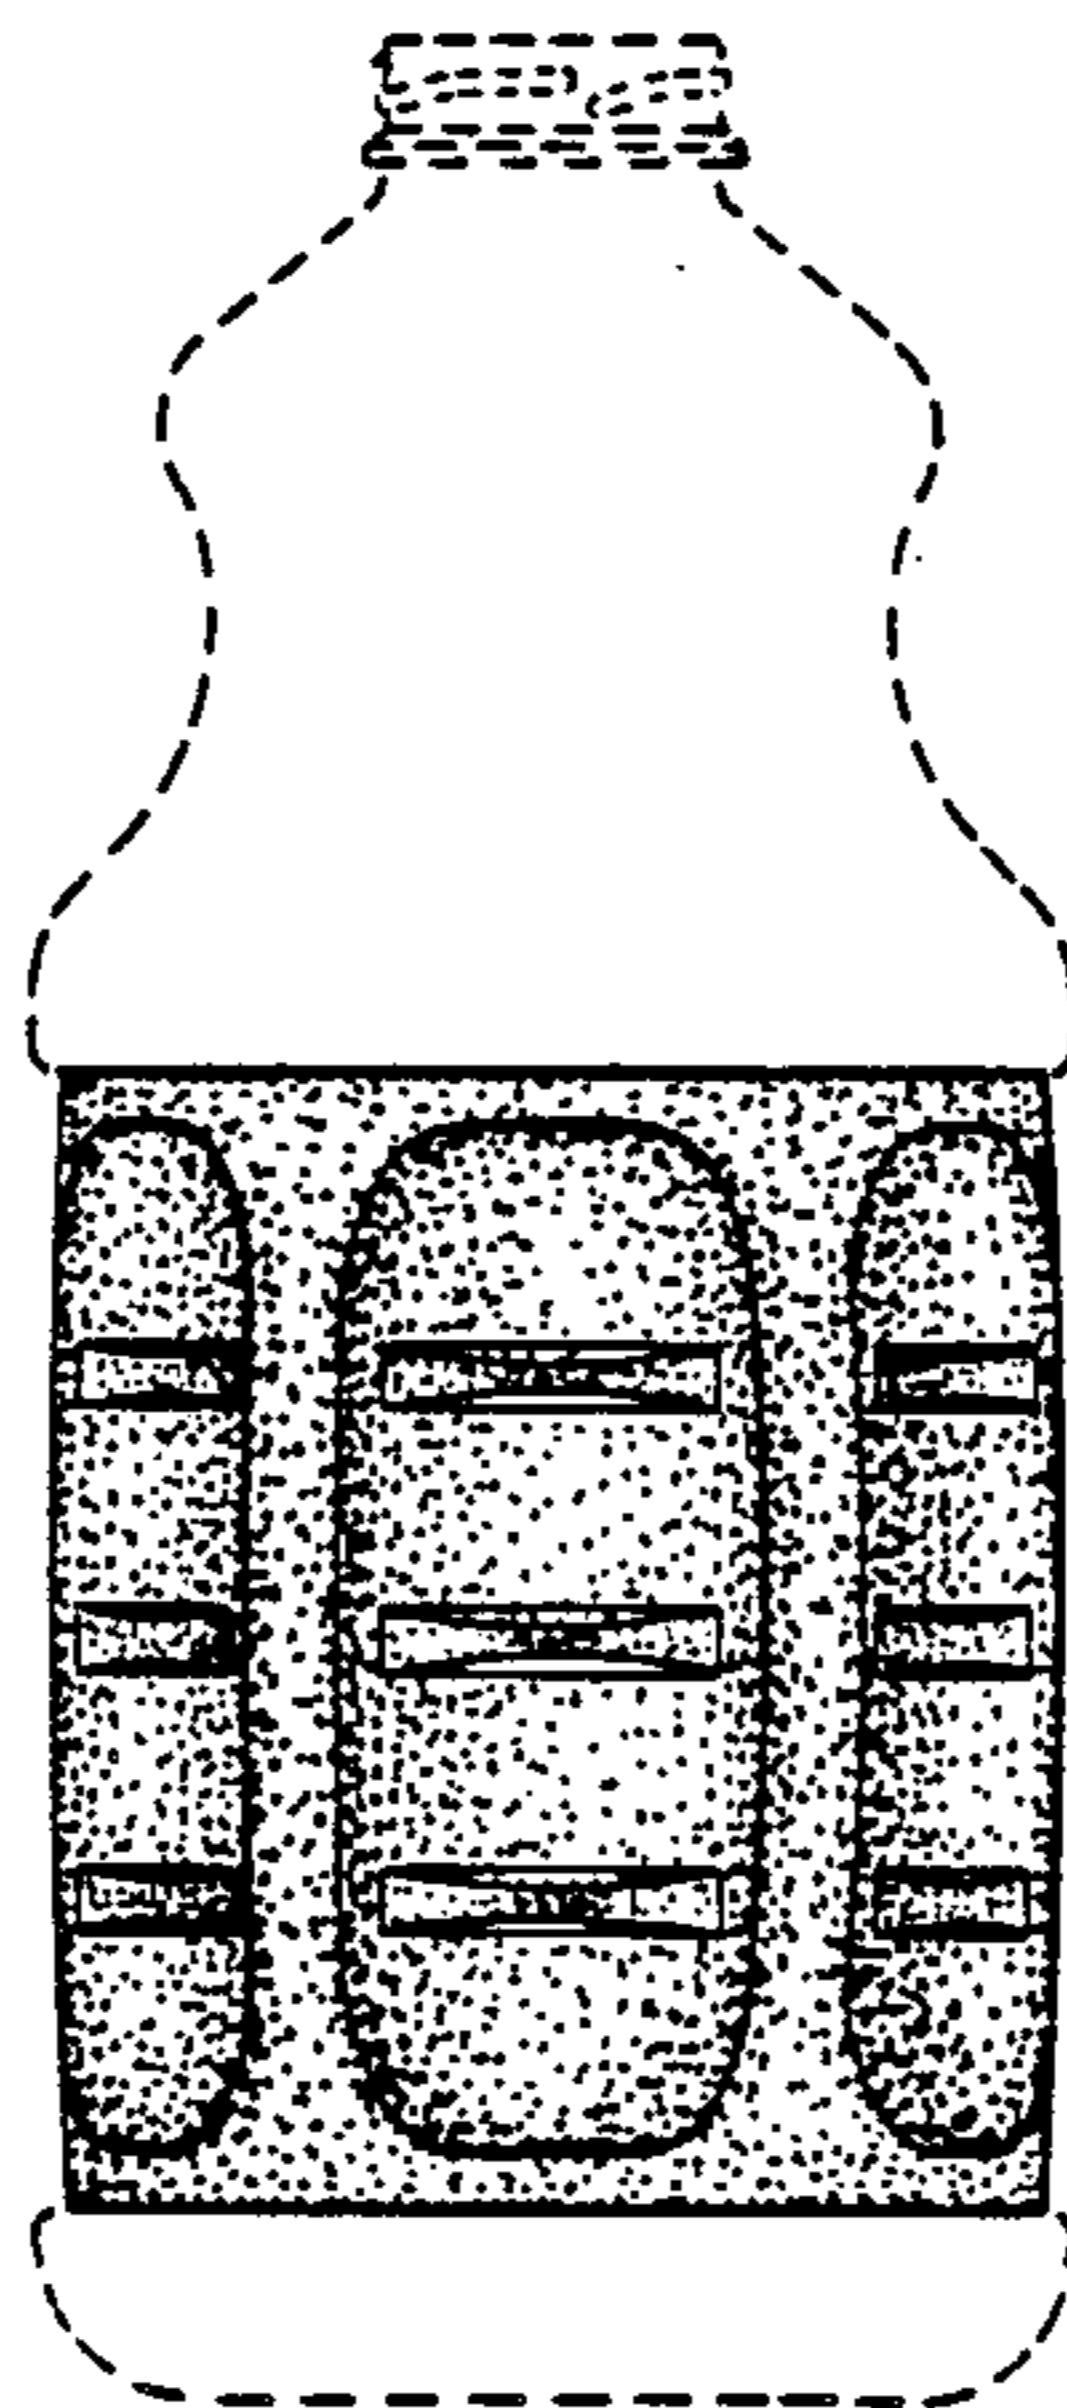

FIG. 1 is a side elevational view of a container wall showing my new design;

FIG. 2 is a top perspective view on a reduced scale, the opposite side being the same in appearance; and

FIG. 3 is a top perspective view showing a modified form of my new design, the opposite side being the same in appearance.

The broken lines showing a container top and bottom are for the purpose of showing environmental structure only.

The container wall of the invention is symmetrical so that all side views present the same appearance.
