[57] **CLAIM**

The ornamental design for a bicycle caliper brake adjuster, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bicycle caliper brake adjuster, showing my new design;

FIG. 2 is a side elevational view thereof, the design being radially symmetrical so that the side elevations displaced at 90°, 180° and 270° are the same as the side shown;

FIG. 3 is an elevation view thereof of the end toward the caliper brake;

FIG. 4 is an elevation view thereof of the end toward the brake handle; and,

FIG. 5 is a longitudinal sectional view thereof, taken along line 5—5 in FIG. 3 it being understood that the broken lines are for illustrative purposes only and form no part of the claimed design.
