[57] CLAIM

The ornamental design for a simulated computer system, as shown and described.

DESCRIPTION

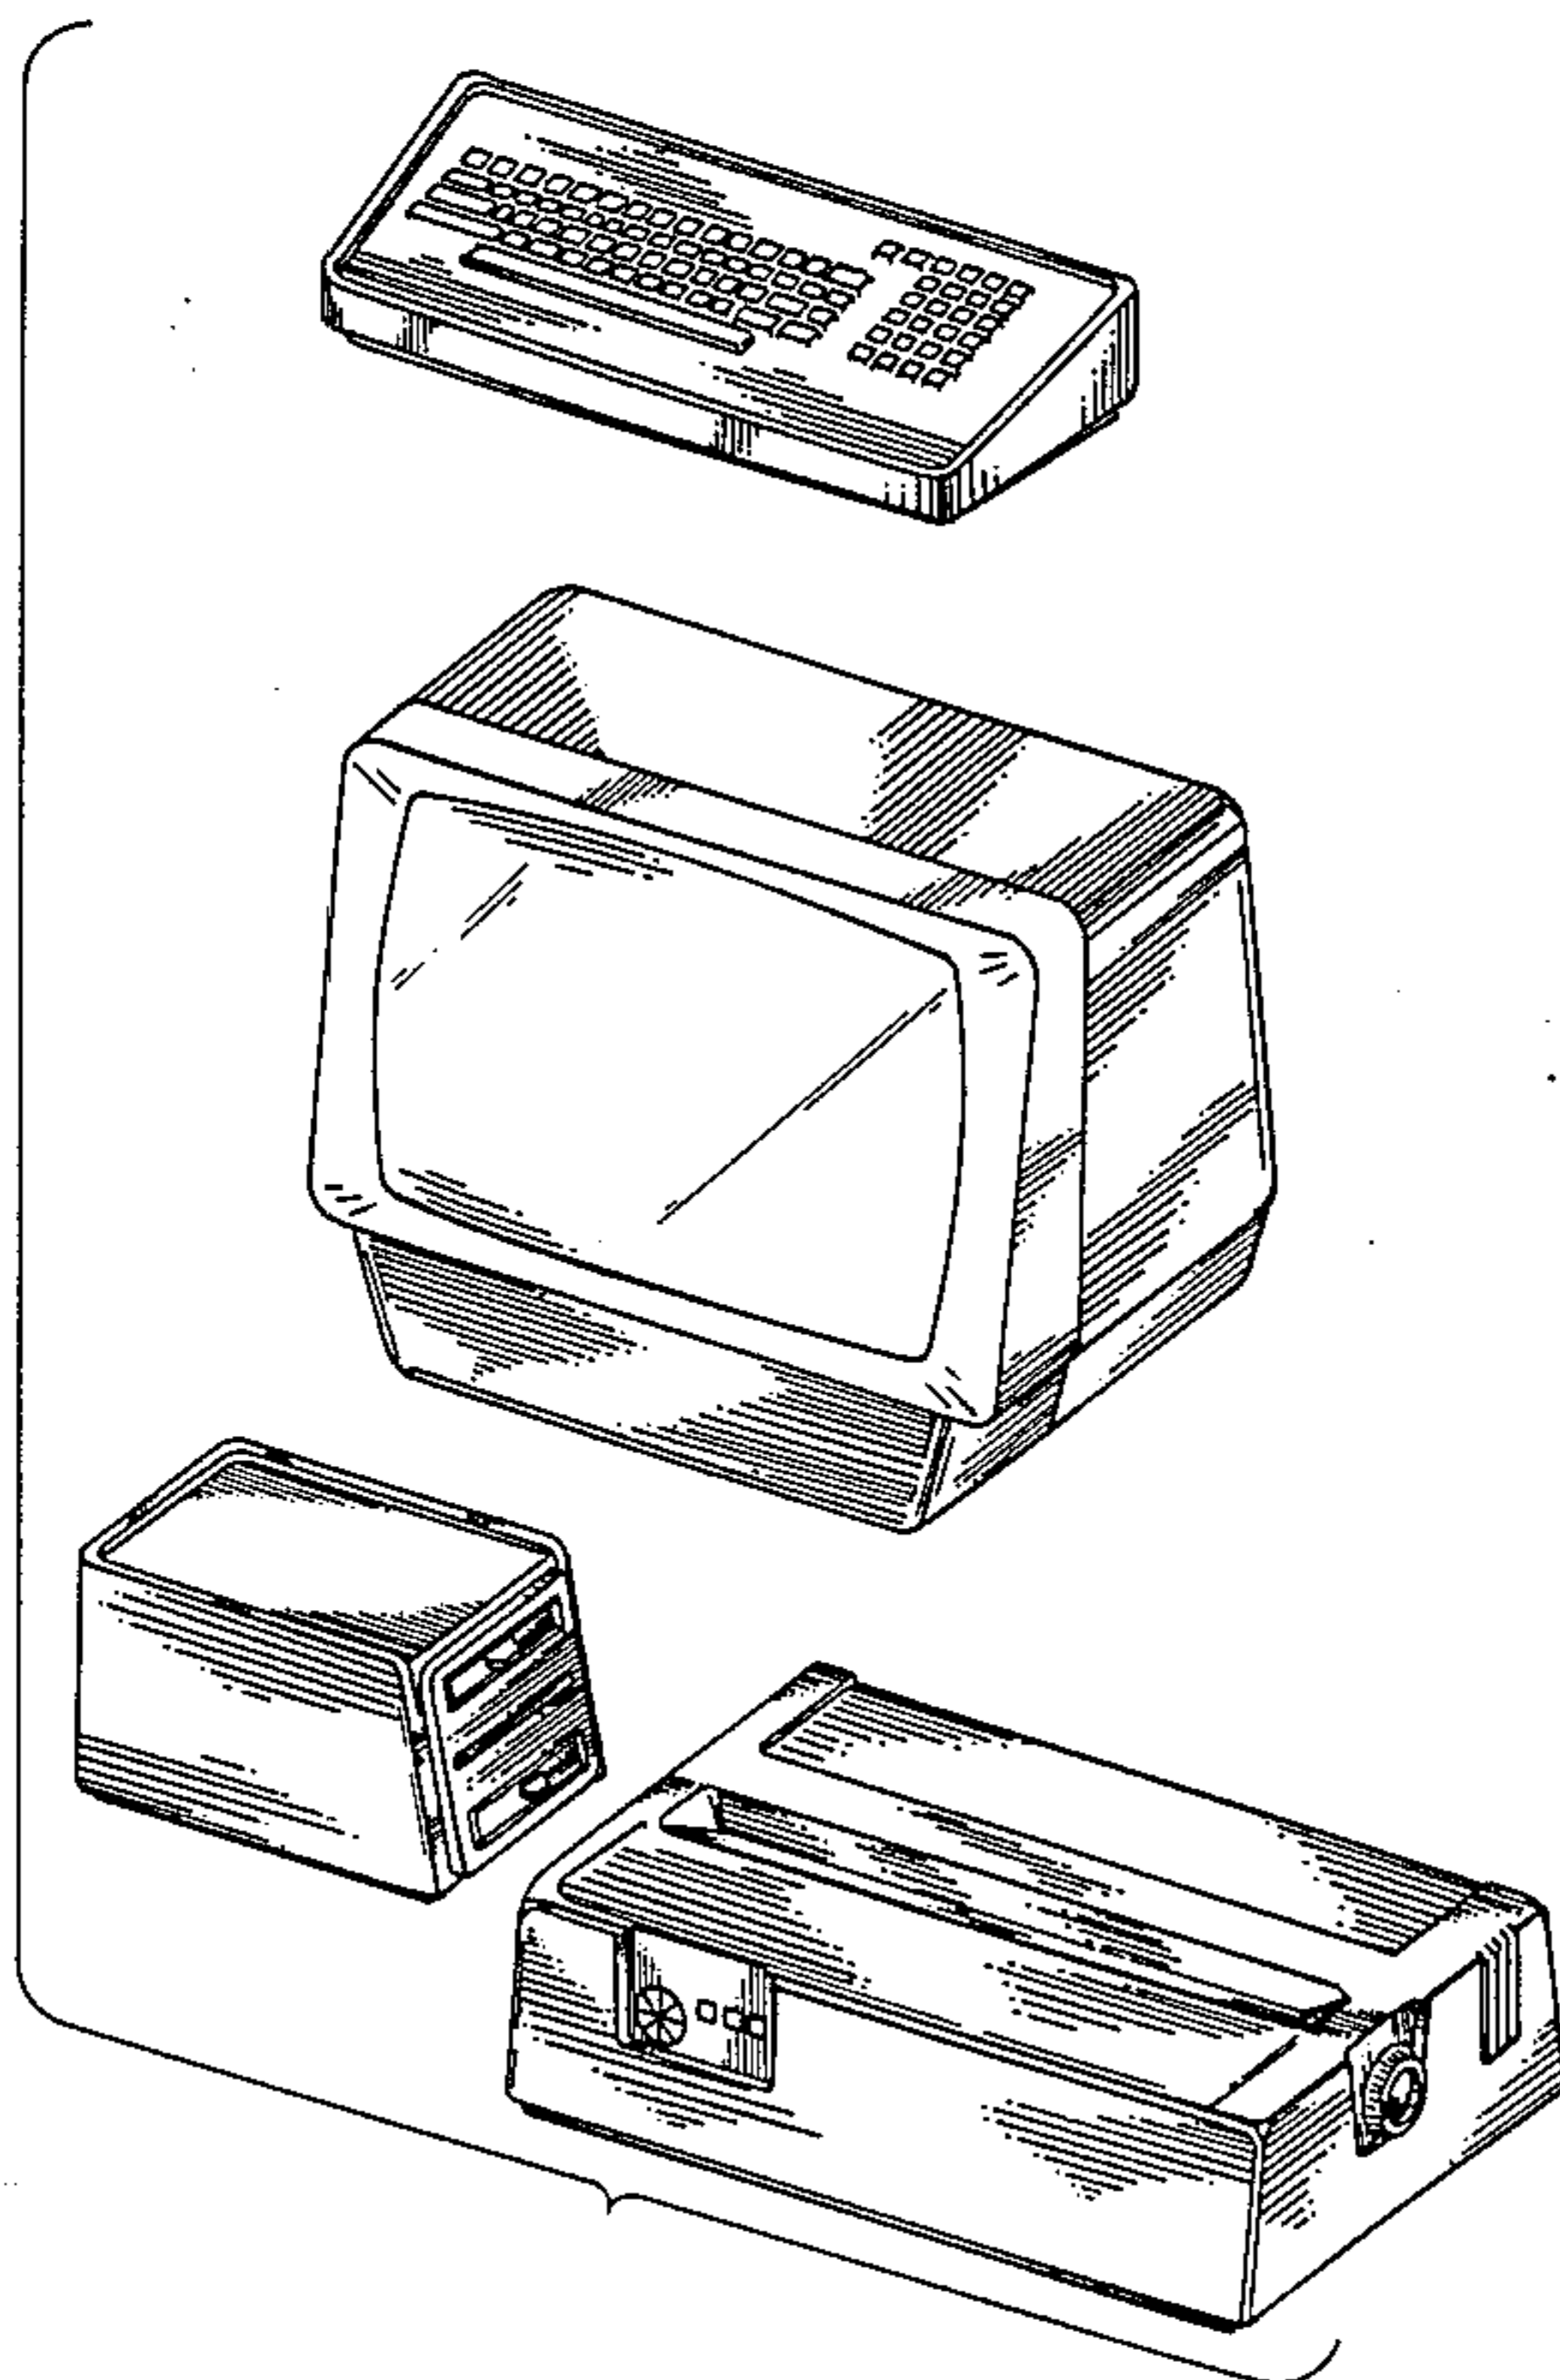

FIG. 1 is a front three-quarter perspective view of the simulated electronic computer components embodying my design, comprising from top to bottom a simulated keyboard, a simulated CRT, a simulated diskette drive, and a simulated printer.

FIGS. 2-6 are, respectively, top, side elevation, front elevation, bottom, and rear elevation views on an enlarged scale of the keyboard portion of the simulated computer system design;

FIGS. 7-11 are, respectively, top, front elevation, side elevation, bottom, and rear elevation views of the CRT portion of the simulated computer system design;

FIGS. 12-16 are, respectively, top, front elevation, side elevation, rear elevation, and bottom views on an enlarged scale of the diskette drive portion of the simulated computer system design;

FIGS. 17-21 are, respectively, rear elevation, bottom, top, front elevation, and right side elevation views of the printer portion of the simulated computer system design.
