[57] CLAIM

The ornamental design for a telephone stand, substantially as shown and described.

DESCRIPTION

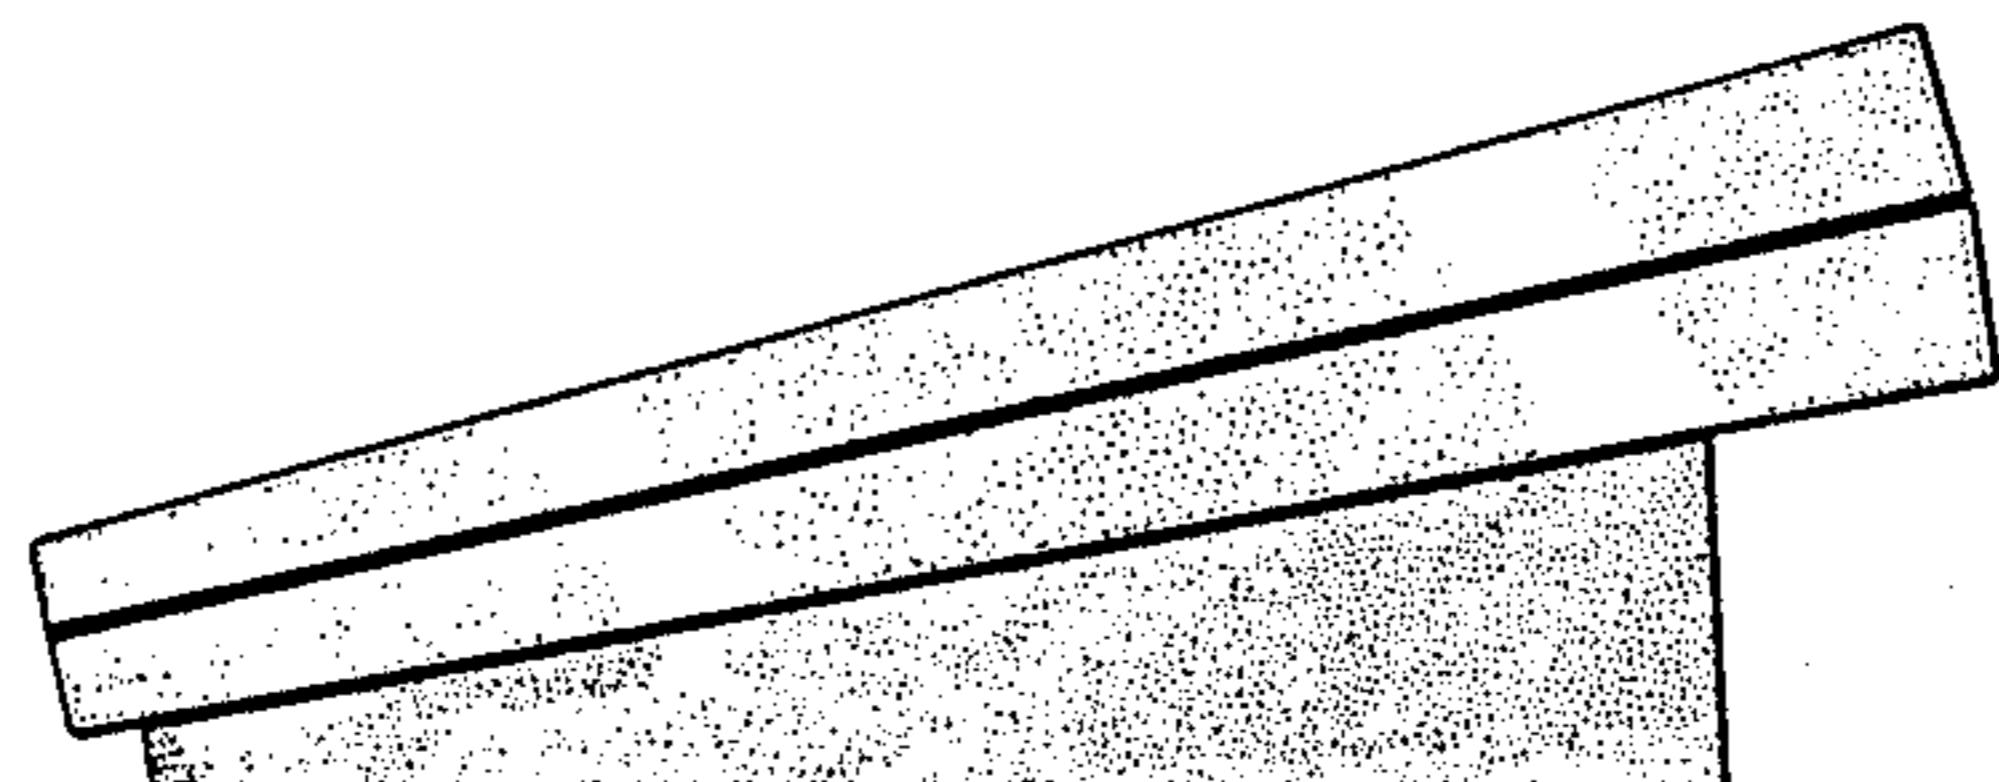

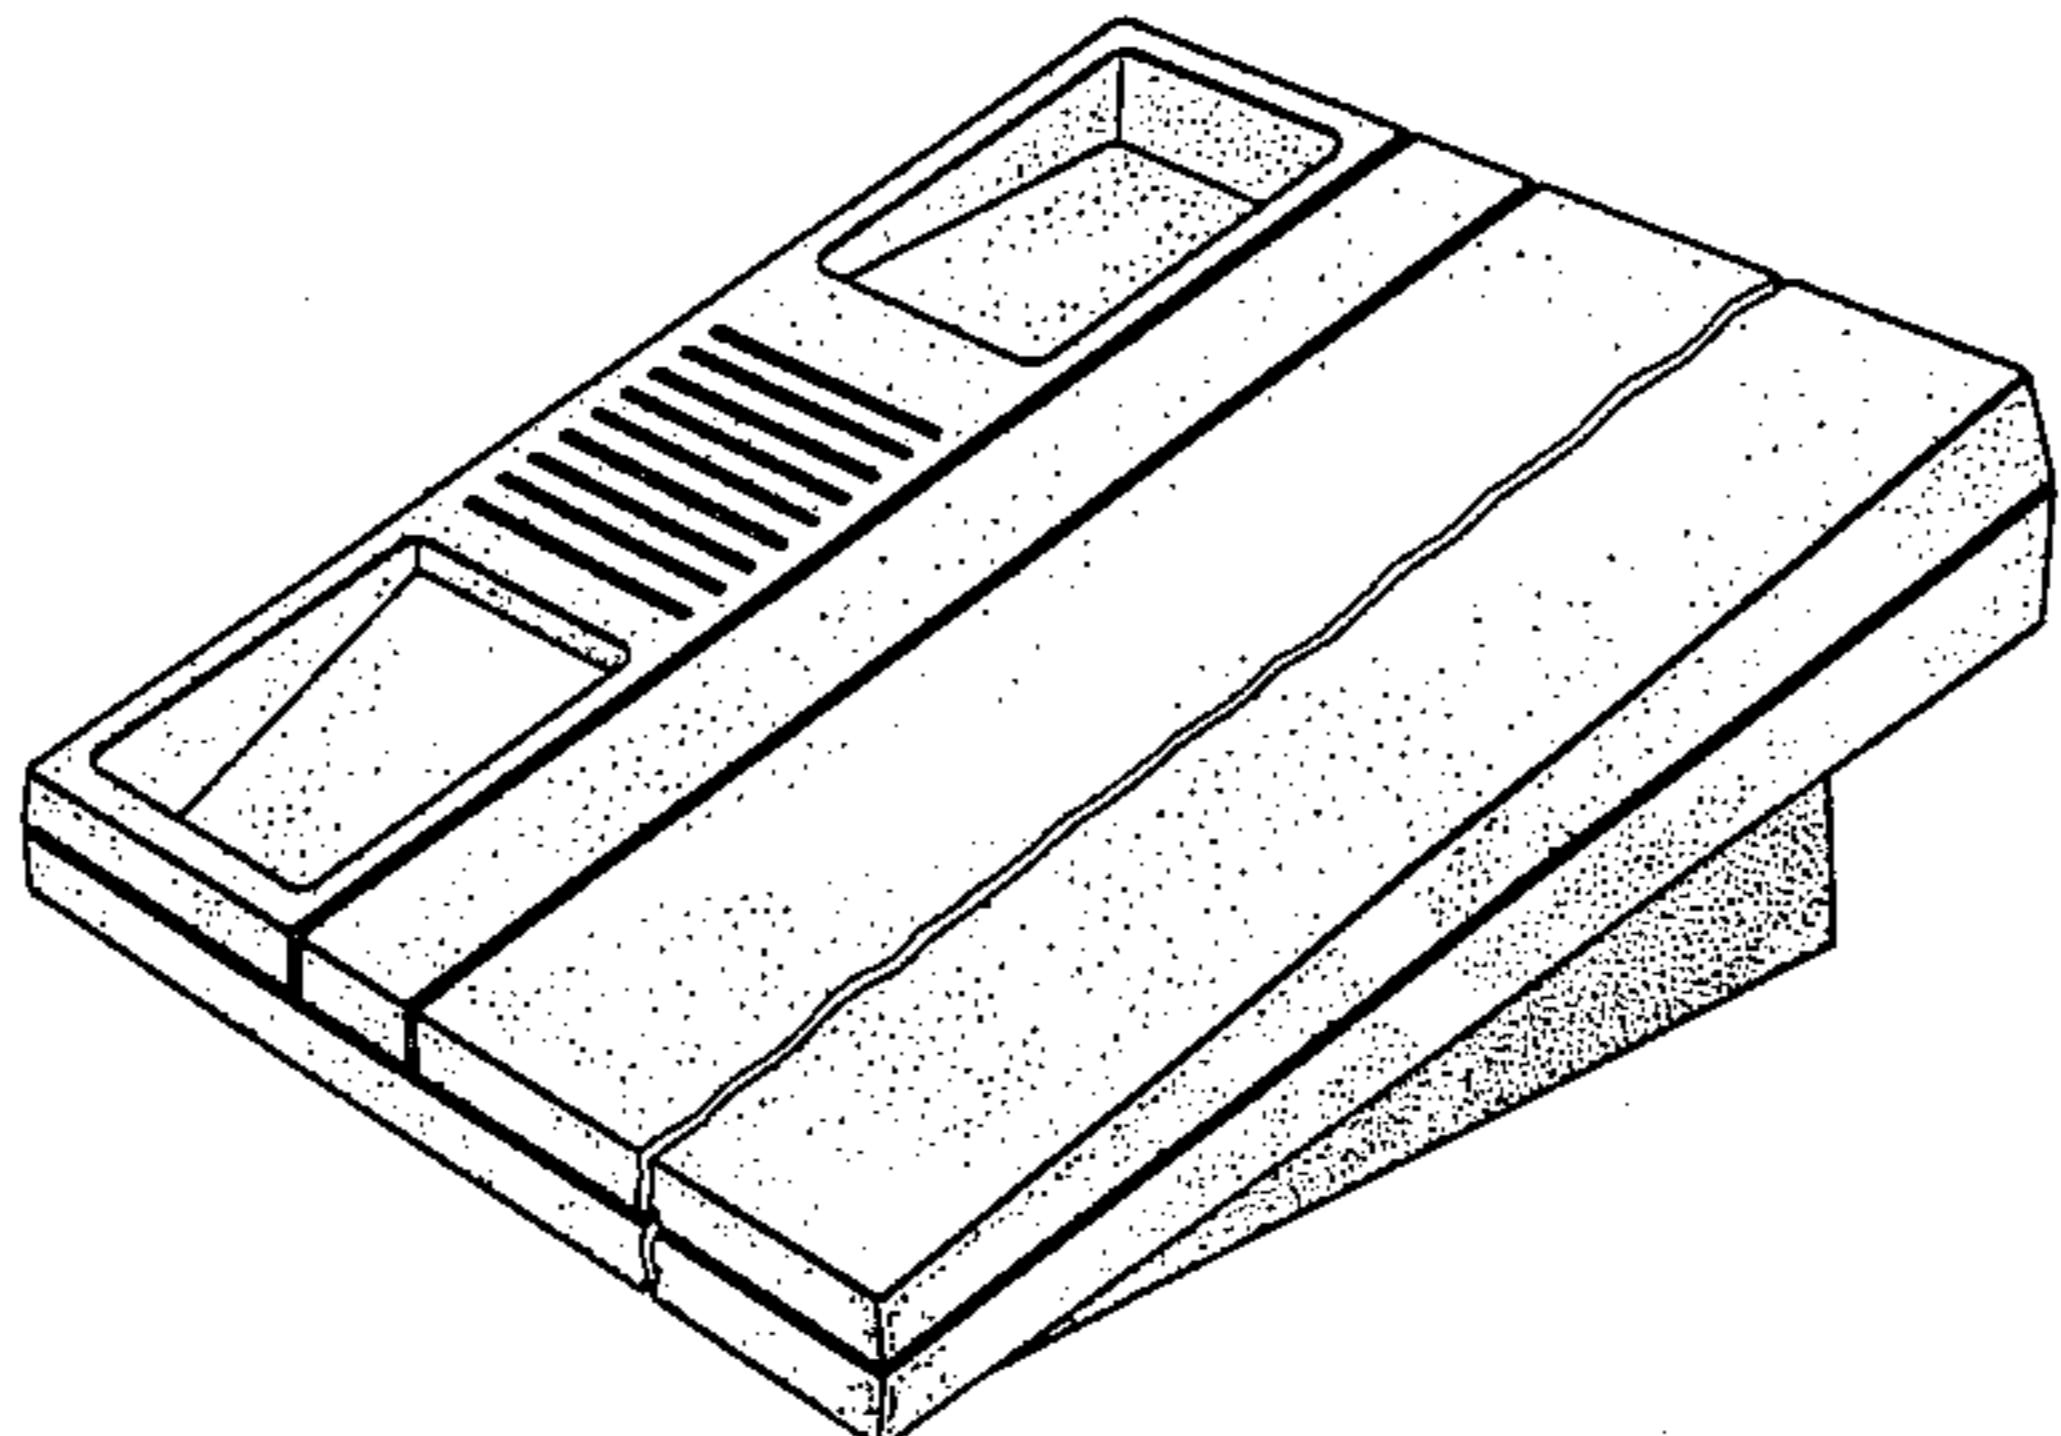

FIG. 1 is a top, front and right side perspective view of a telephone stand showing our new design intended to be common for all embodiments; the stand being broken away to indicate that the only difference between the embodiments resides in variations in the width of the stand, as disclosed in FIGS. 3 and 6;

FIG. 2 is a right side elevational view, the left side being substantially a mirror image thereof;

FIG. 3 is a top plan view of a first embodiment thereof; FIGS. 4 and 5 are respectively front and rear elevational views thereof;

FIG. 6 is a top plan view of a second embodiment thereof; and

FIGS. 7 and 8 are respectively front and rear elevational views thereof.
