[57] CLAIM

The ornamental design for a heat energizable identification label for toys, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a heat energizable identification label for toys showing our new design, shown in its energized mode;

FIG. 2 is a side elevational view thereof, the opposite side being identical;

FIG. 3 is a top plan view thereof, the bottom being identical;

FIG. 4 is a rear elevational view thereof;

FIG. 5 is a reduced front elevational view thereof, shown in its unenergized mode;

FIG. 6 is a front elevational view of a second embodiment of the label illustrated in FIG. 1, shown in its energized mode;

FIG. 7 is a side elevational view of the embodiment disclosed in FIG. 6, the opposite side being identical;

FIG. 8 is a top plan view of the embodiment disclosed in FIG. 6, the bottom being identical;

FIG. 9 is a rear elevational view of the embodiment disclosed in FIG. 6; and,

FIG. 10 is a reduced front elevational view of the embodiment disclosed in FIG. 6, shown in its unenergized mode.
