[57] CLAIM

The ornamental design for a recloseable flexible pouring spout for a container, as shown and described.

DESCRIPTION

FIG. 1 is an exploded perspective view of a recloseable flexible pouring spout for a container showing our new design;

FIG. 2 is an exploded perspective view from the cap end;

FIG. 3 is an elevational view with the cap in place;

FIG. 4 is a view looking from the left of FIG. 3;

FIG. 5 is a view looking from the right of FIG. 3;

FIG. 6 is an elevational view in an alternate position;

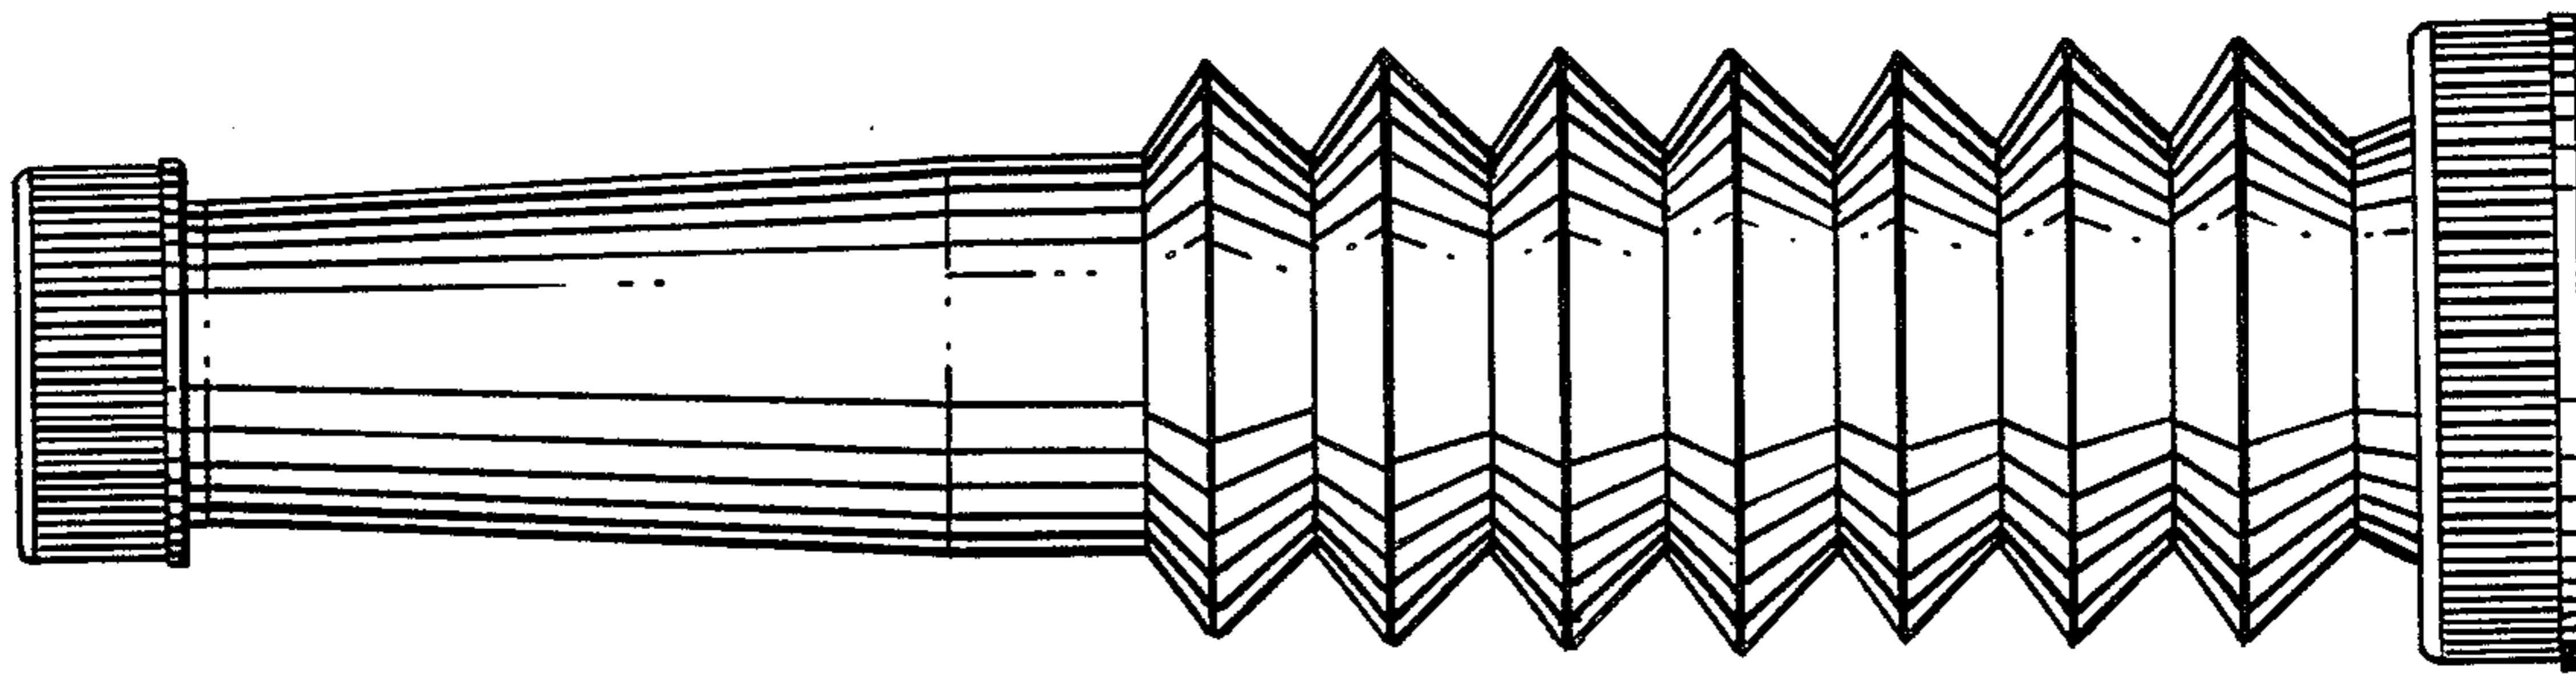

FIG. 7 is a fragmentary sectional view of the right end of FIG. 3;

FIG. 8 is a fragmentary exploded view of our new design the remaining portions of the pouring spout being the same in appearance as the first embodiment;

FIG. 9 is a fragmentary exploded view taken from the side opposite that seen in FIG. 8;

FIG. 10 is a view similar to FIG. 8 but showing another modified form of our new design; and

FIG. 11 is a view showing the side opposite that seen in FIG. 10.
