[57] CLAIM

The ornamental design for a portable handset radio telephone, substantially as shown.

DESCRIPTION

FIGS. 1 and 2 are respectively front and rear elevational views of a portable handset radio telephone showing my new design in opened position;

FIG. 3 is a right side elevational view thereof, the side opposite being a mirror image;

FIGS. 4 and 5 are respectively top and bottom plan views thereof;

FIG. 6 is a cross-sectional view taken on line VI in FIG. 1 with interior construction omitted;

FIG. 7 is a front, top and right side perspective view thereof in opened position;

FIG. 8 is a front and right side perspective view thereof with the ear piece receiver shown halfway between opened position in FIG. 7 and closed position in FIG. 9;

FIG. 9 is a front, top and right side perspective view thereof in closed position; and,

FIG. 10 is a front, top and right side perspective view in opened position of a second embodiment thereof corresponding to FIG. 7, with the differences in this embodiment, vis-a-vis the first, being display of the antenna in extended position, and with the display panel and sundry pushbuttons bearing typical operative indicia.

The broken line showing of numbers in the display panel in FIG. 10 is for illustrative purposes only and forms no part of the claimed design.
