[57] CLAIM

The ornamental design for a combined credit card authorization terminal and raised credit card imprinter, as shown.

DESCRIPTION

FIG. 1 is a top front and left side perspective view of a combined credit card authorizational terminal and raised credit card imprinter showing our new design; FIG. 2 is a left side elevational view thereof on an enlarged scale.

FIG. 3 is a front elevational view thereof on an enlarged scale;

FIG. 4 is a top plan view thereof on an enlarged scale; FIG. 5 is a right side elevational view thereof on an enlarged scale;

FIG. 6 is a top, front, and left side perspective view of a second embodiment of our new design;

FIG. 7 is a front elevational view thereof on an enlarged scale;

FIG. 8 is a top plan view thereof on an enlarged scale;

FIG. 9 is a top, front, and left side perspective view of a third embodiment of our new design;

FIG. 10 is a left side elevational view thereof on an enlarged scale;

FIG. 11 is a front elevational view thereof on an enlarged scale;

FIG. 12 is a top plan view thereof on an enlarged scale;

FIG. 13 is a right side elevational view thereof on an enlarged scale.

The rear and bottom surfaces of the three embodiments are unornamented. The left and right sides of the second embodiment are identical to those of the first embodiment as shown in FIGS. 2 and 5.
