The ornamental design of a confection, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a confection showing my new design; and
FIG. 2 is a top, front, right side perspective view thereof.

The rear view of the design is a mirror image of the front view. The left side of the design corresponds to the right side. The bottom view is plain, since it is the surface on which the product is supported during its manufacture.
