[57] **CLAIM**

The ornamental design for a telephone handset and stand therefor, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a telephone handset and stand therefor showing my new design in cradled relationship;

FIG. 2 is a left side cradled relationship, elevational view thereof, the view of the side opposite being substantially a mirror image;

FIG. 3 is a right side, elevational view of a second embodiment thereof, the elevational view of the side opposite being substantially a mirror image;

FIG. 4 is a bottom plan view of the second embodiment thereof;

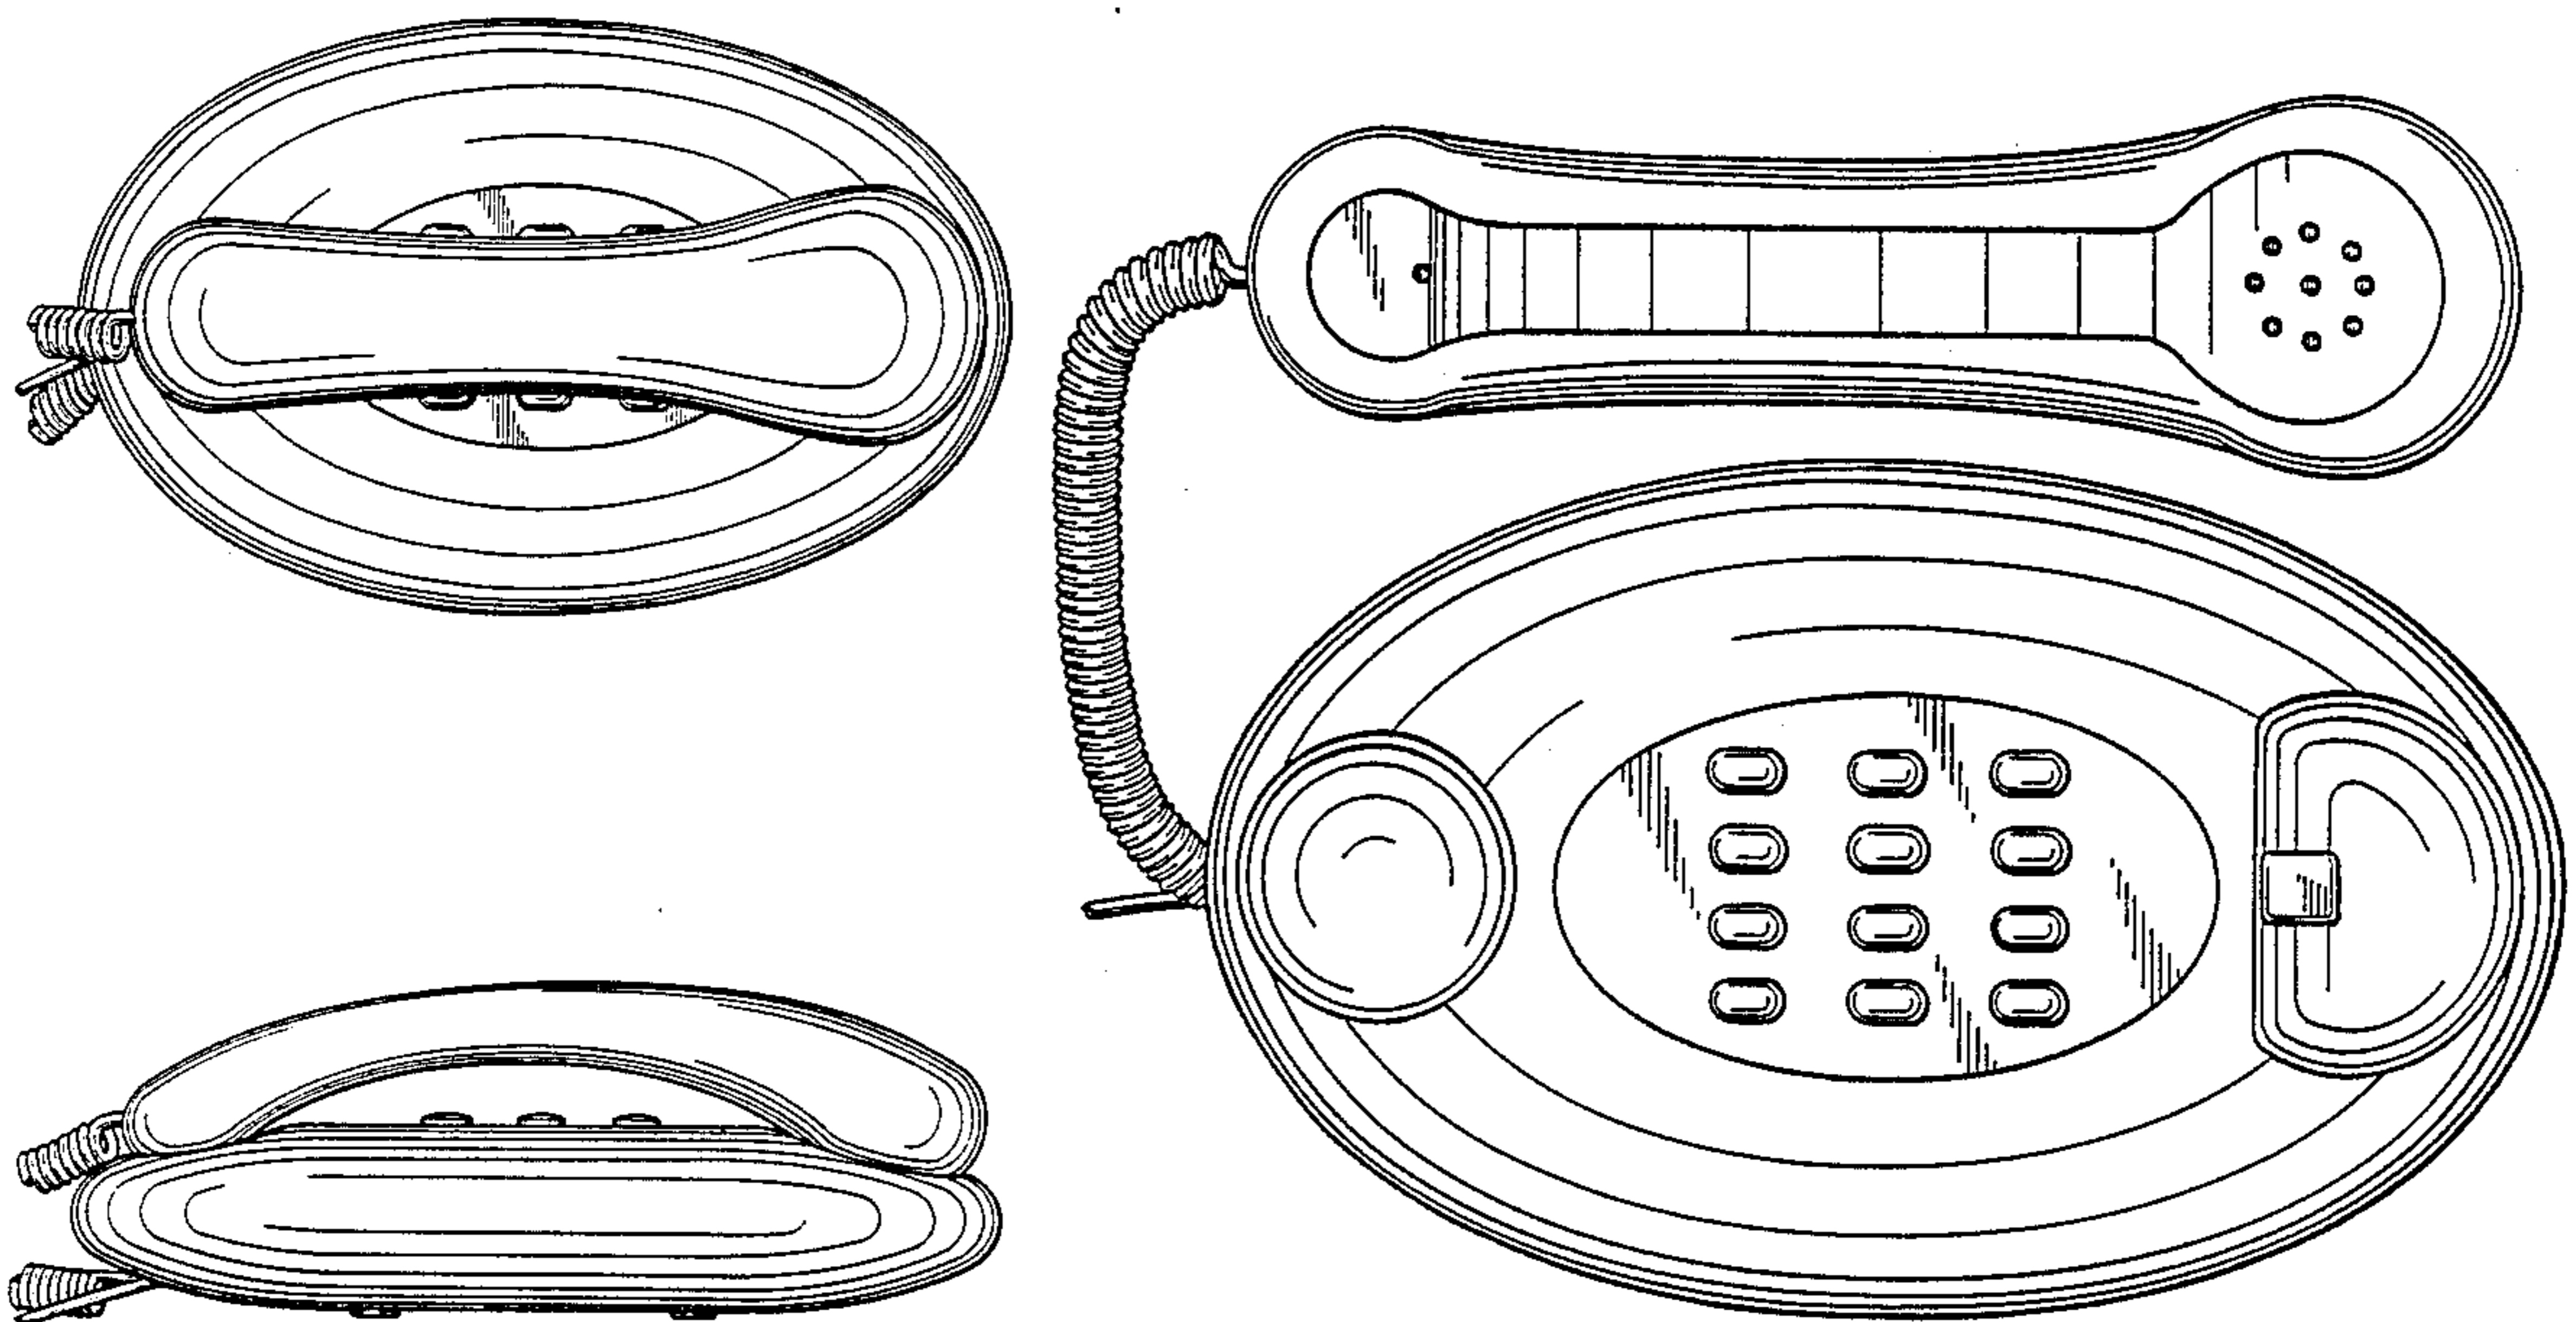

FIGS. 5 and 6 are respectively rear and front elevational views of the second embodiment thereof;

FIG. 7 in an associated, opened position of the second embodiment telephone components presenting in spaced apart relationship, a top plan view of the stand, and a bottom plan view of the inverted handset;

FIG. 8 is an associated opened position of the first embodiment telephone components presenting in spaced apart relationship a top plan view of the stand and a bottom plan view of the inverted handset; and

FIGS. 9 and 10 are respectively first and second embodiment rear, top and right side perspective views of the handset and stand in cradled relationship.

The showing of cord in abbreviated form in several views is for facility and clarity of illustration.
