[57] CLAIM

The ornamental design for a combined bell and lamp, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a combined bell and lamp showing my new design;
 FIG. 2 is a left side elevational view thereof;
 FIG. 3 is a top plan view thereof;
 FIG. 4 is a bottom plan view thereof;
 FIG. 5 is a rear elevational view thereof;
 FIG. 6 is a front perspective view thereof.
 It is a characteristic feature of the present ornamental design that the base of the bell is the same diameter as the gong shell, which forms the upper portion of the bell, but the base tapers upwardly, so that the upper portion of the base is of smaller diameter than the gong shell. This gives the bell an overall mushroom-like appearance.

FIG. 3

FIG. 1

FIG. 4

FIG. 2

FIG. 6

FIG. 5
