[57] CLAIM

The ornamental design for automotive telephone control unit, as shown and described.

DESCRIPTION

FIG. 1 is a front and right perspective view of an automotive telephone control unit showing my new design; FIG. 2 is a front elevational view thereof; FIG. 3 is a rear elevational view thereof; FIG. 4 is a plan view thereof; FIG. 5 is a bottom view thereof; FIG. 6 is a left side elevational view thereof; FIG. 7 is a right side elevational view thereof; FIG. 8 is a sectional view taken on line VIII—VIII in FIG. 2 with the interior construction omitted; FIG. 9 is a second embodiment thereof, the difference in this embodiment, in contrast to the first, being the showing of the control unit in electrified operative state with the display panel and sundry buttons presenting conventional operative indicia. The broken line showing in FIG. 10 is for illustrative purposes only and forms no part of the claimed design.
