[57] CLAIM

The ornamental design for a spout, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view taken from the top, front and left side of a spout showing my new design; FIG. 2 is a left side elevational view thereof, the right side being a mirror image of the left shown;

FIG. 3 is a front elevational view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a perspective view taken from the top, front and left side of a modified form of the spout shown in FIG. 1;

FIG. 6 is a fragmentary left side elevational view of FIG. 5, the right side being the same as the left side shown;

FIG. 7 is a fragmentary front elevational view of FIG. 5, the rear being the same as the front shown;

FIG. 8 is a perspective view taken from the top, front and left side of a second modified form of the spout shown in FIG. 1;

FIG. 9 is a perspective view taken from the top, front and left side of a third modified form of the spout shown in FIG. 1;

FIG. 10 is a left side elevational view of a fourth modified form of the spout shown in FIG. 1, the right side being a mirror image of the left side shown;

FIG. 11 is a front elevational view of FIG. 10;

FIG. 12 is a bottom plan view of FIG. 10;

FIG. 13 is a left side elevational view of a fifth modified form of the spout shown in FIG. 1, the right side being the same as the left side shown;

FIG. 14 is a fragmentary front elevational view of FIG. 13, the rear being the same as the front shown;

FIG. 15 is a perspective view taken from the top, front and left side of a sixth modified form of the spout shown in FIG. 1:

FIG. 16 is a left side elevational view of FIG. 15, the right side being a mirror image of the left side shown;

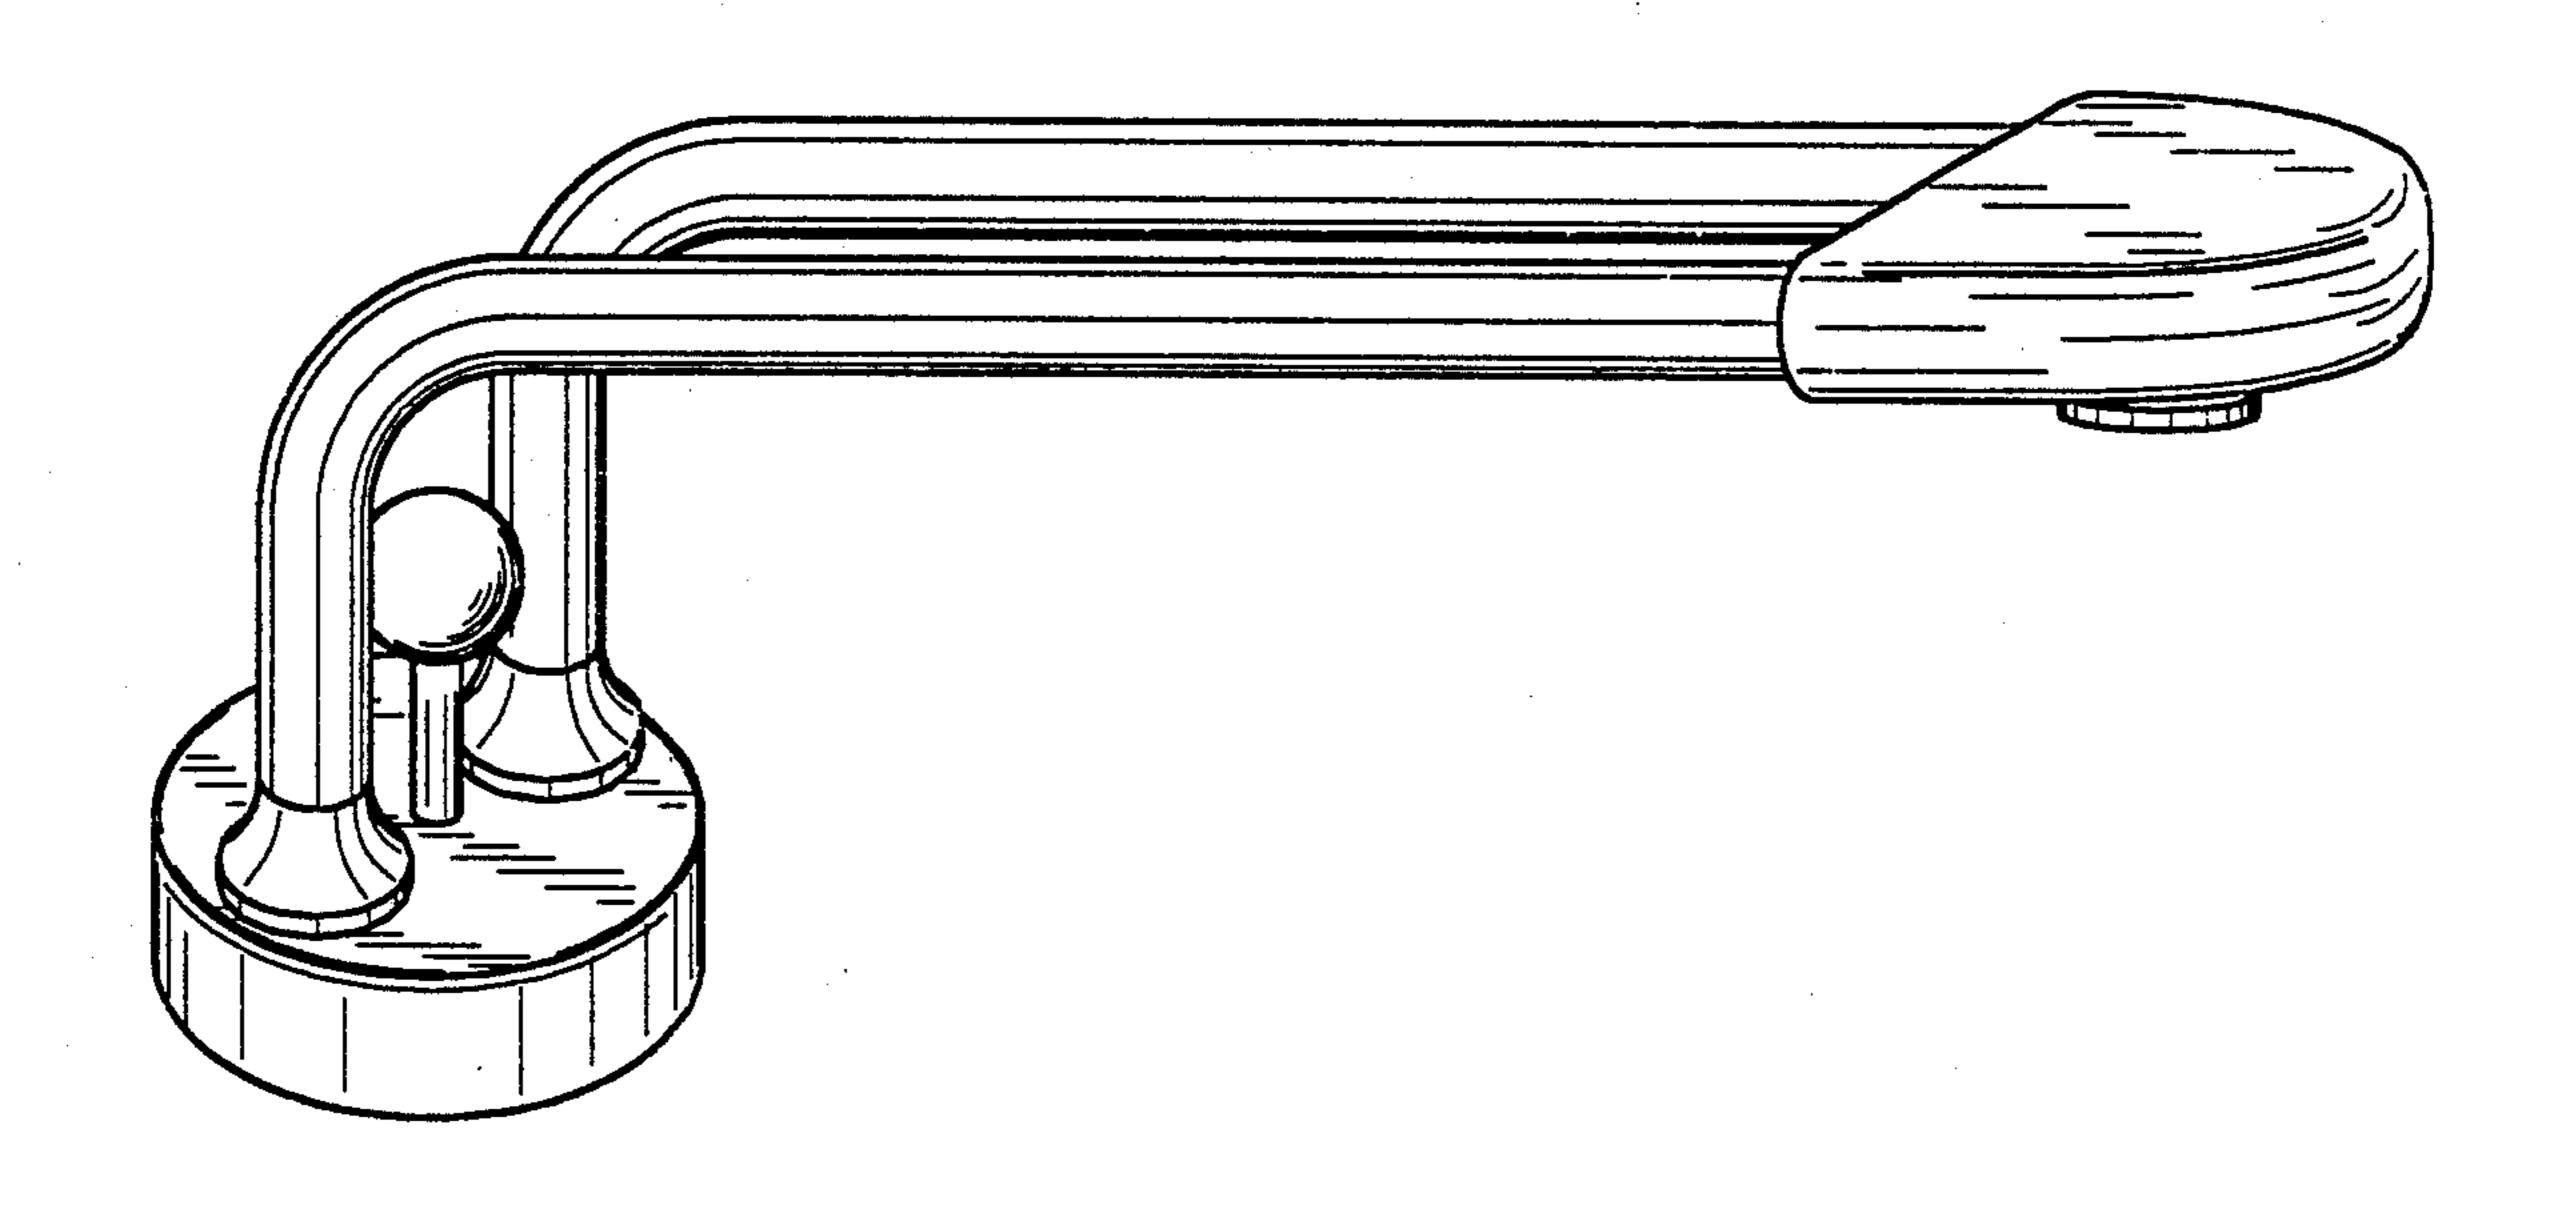

FIG. 17 is a front elevational view of FIG. 15;

FIG. 18 is a bottom plan view of FIG. 15;

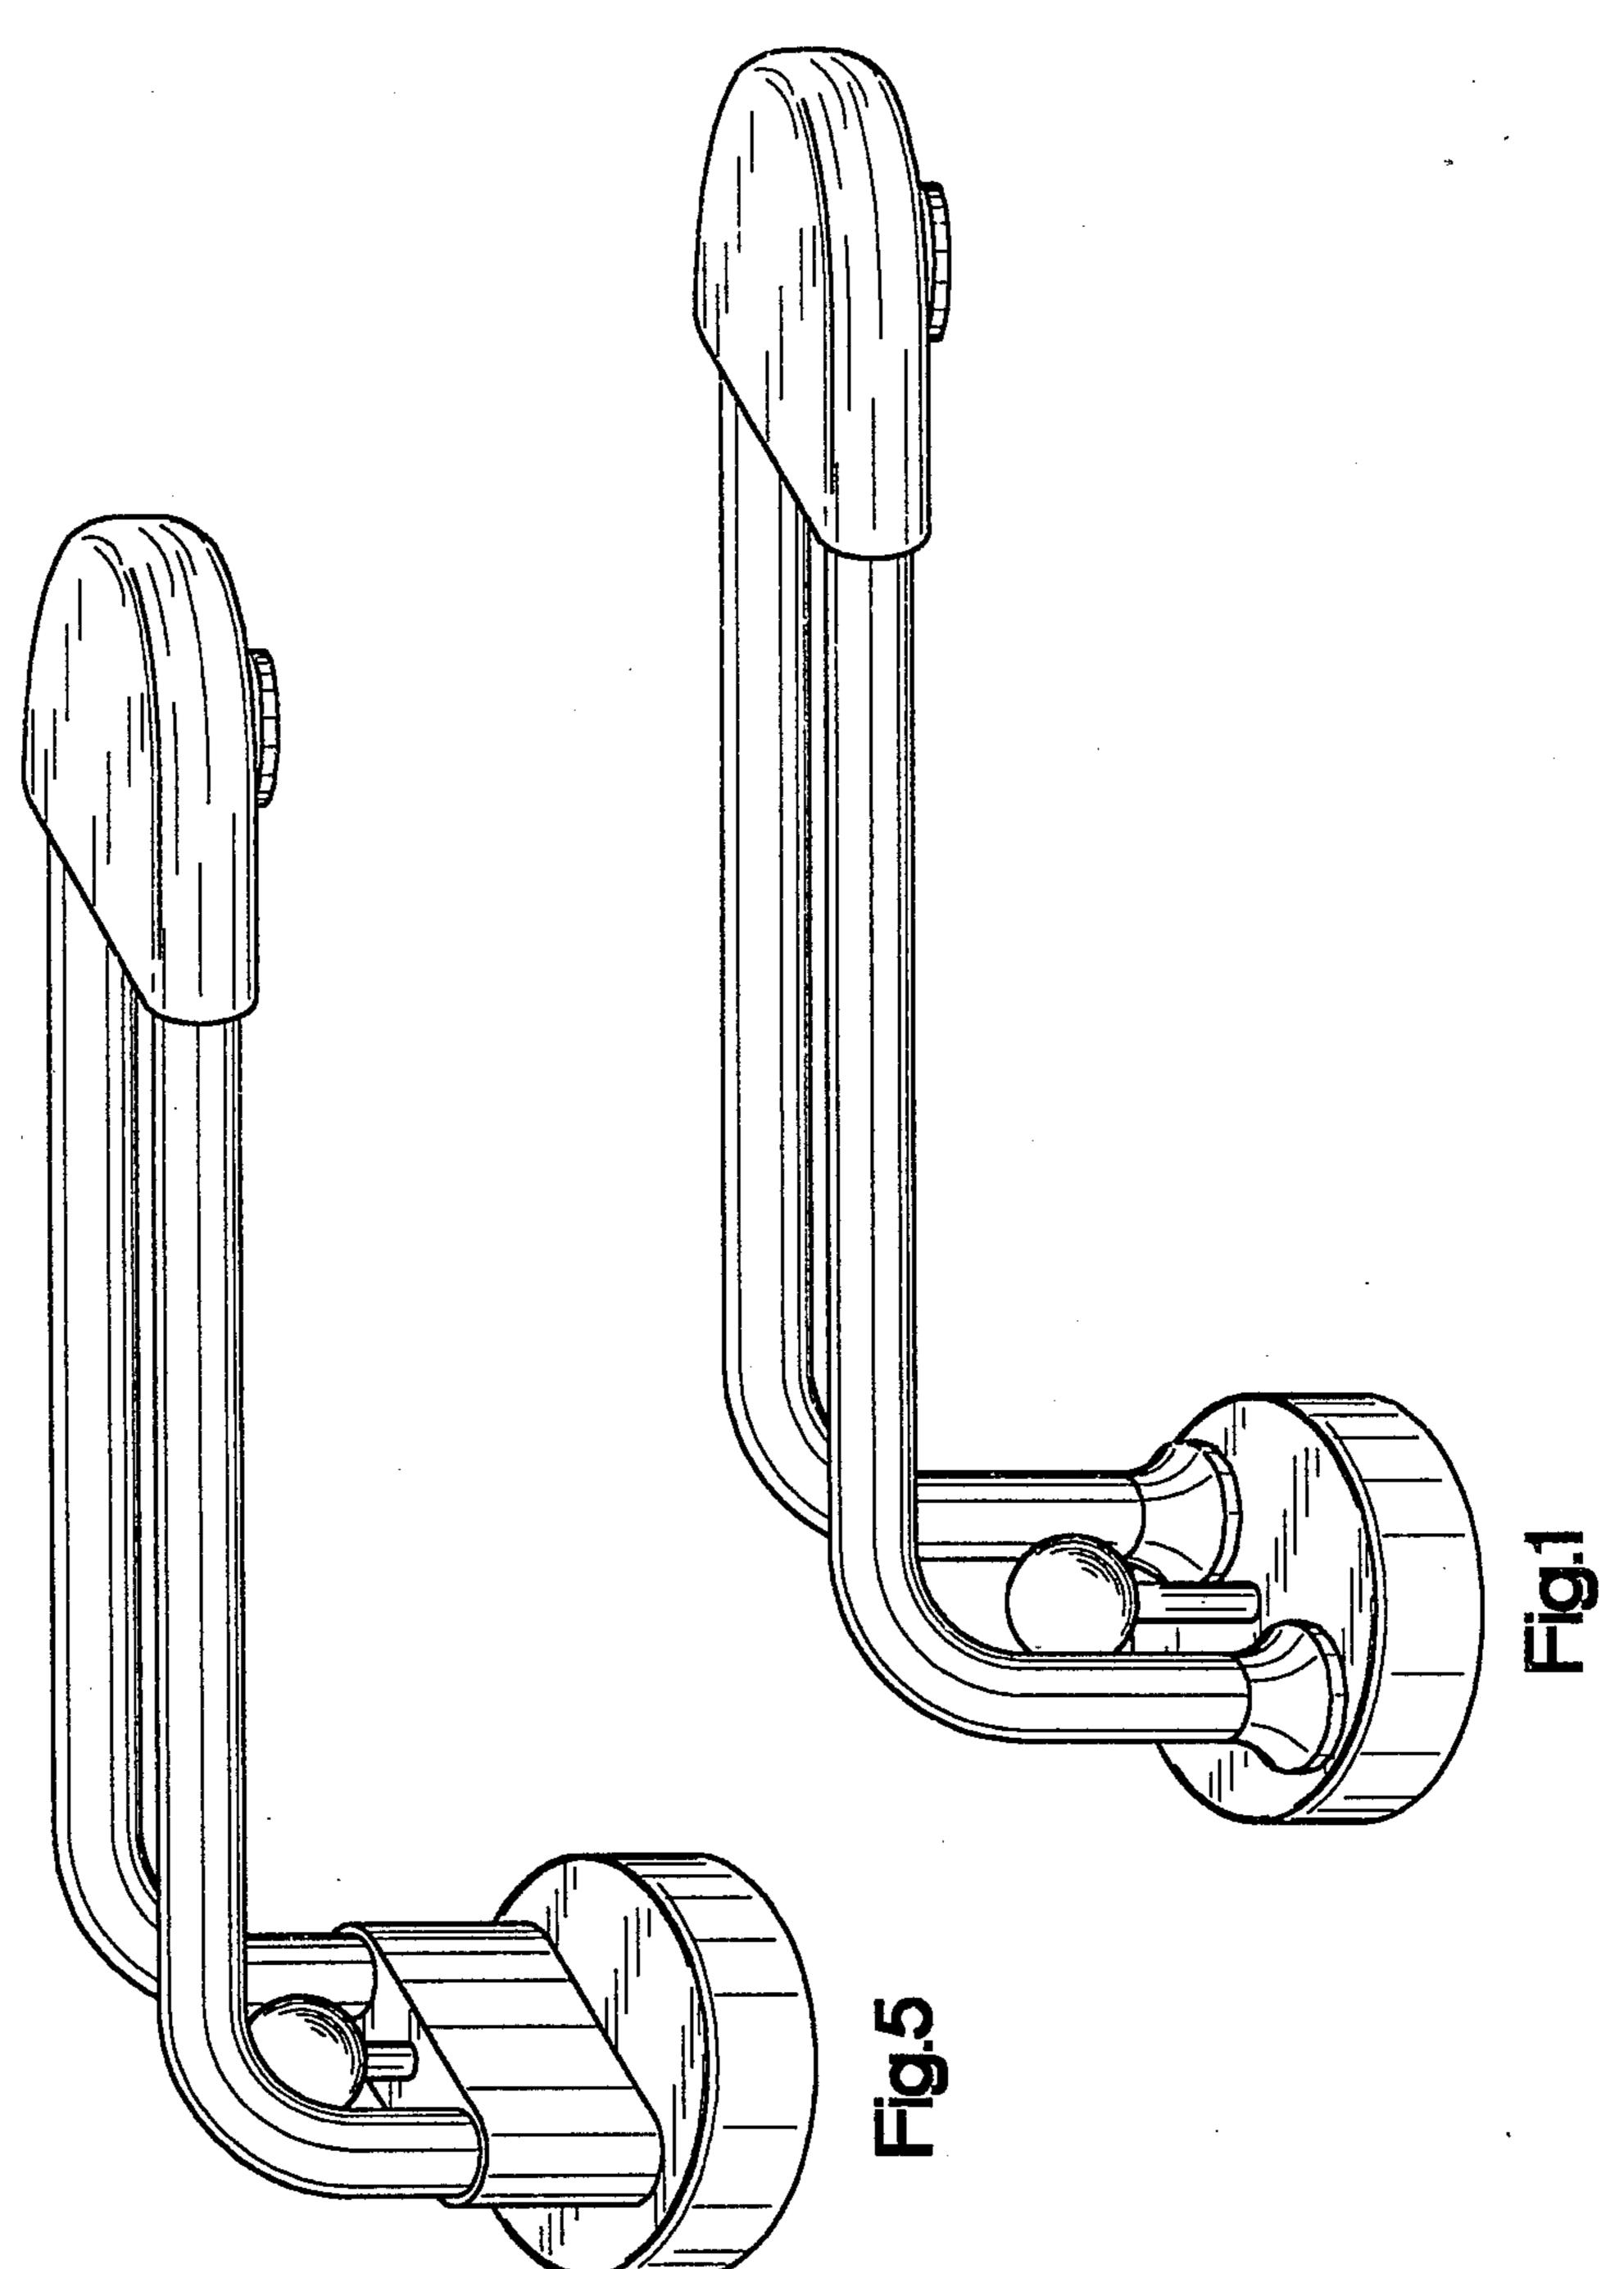

FIG. 19 is a perspective view of a seventh modified form of the spout shown in FIG. 1;

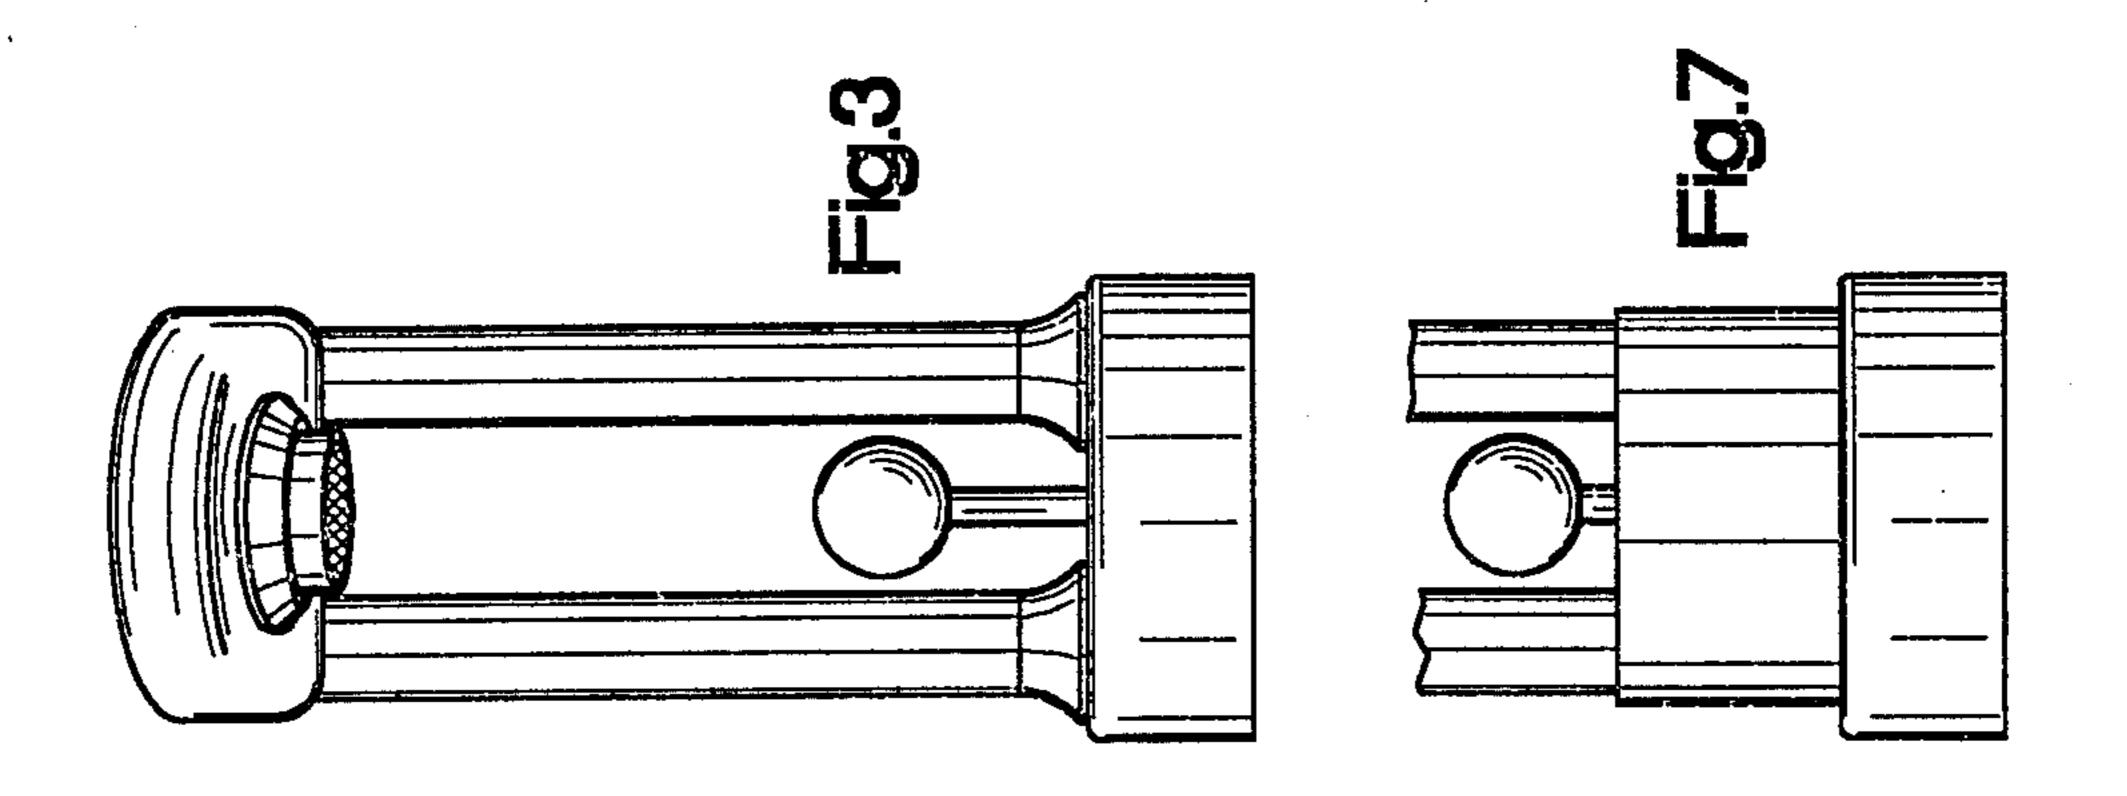

FIG. 20 is a fragmentary left side elevational view of FIG. 19, the right side being a mirror image of the left side shown; and,

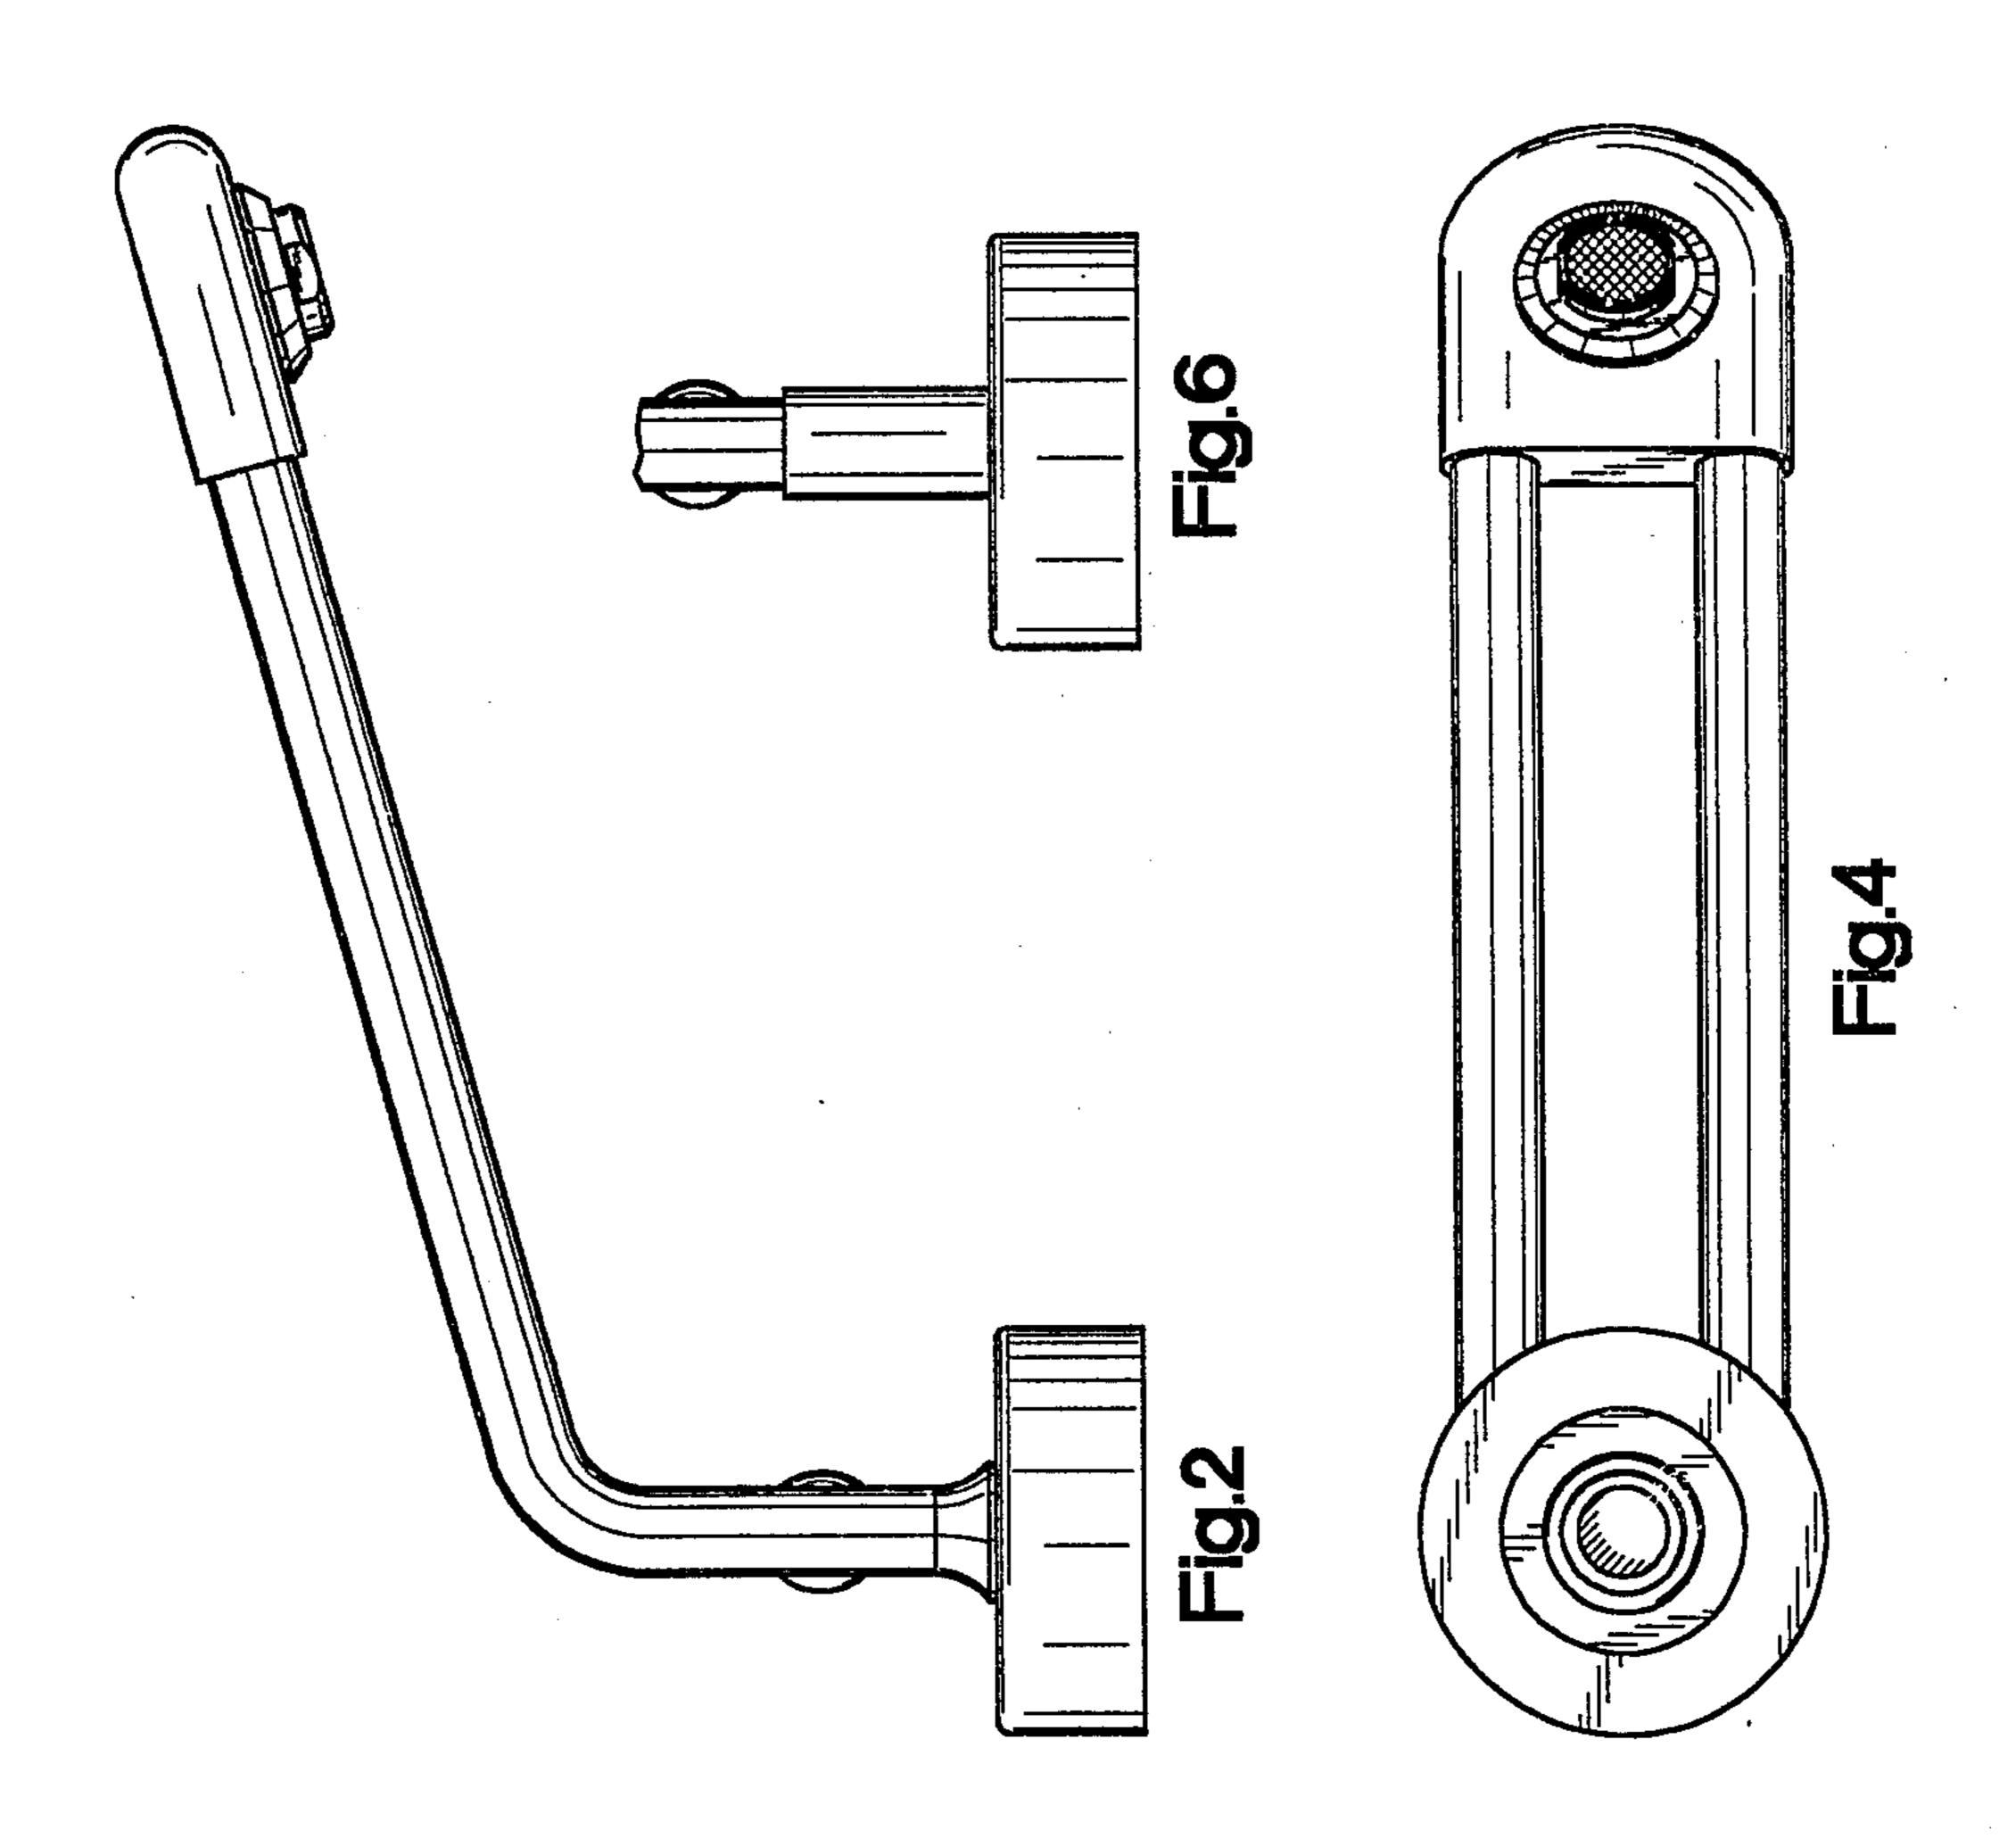

FIG. 21 is a fragmentary top plan view of FIG. 19, the bottom being the same as the top shown.
