[57] CLAIM

The ornamental design for a hair treatment ear guard, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a hair treatment ear guard showing my new design, the broken lines representing the human form are shown for illustrative purposes only;

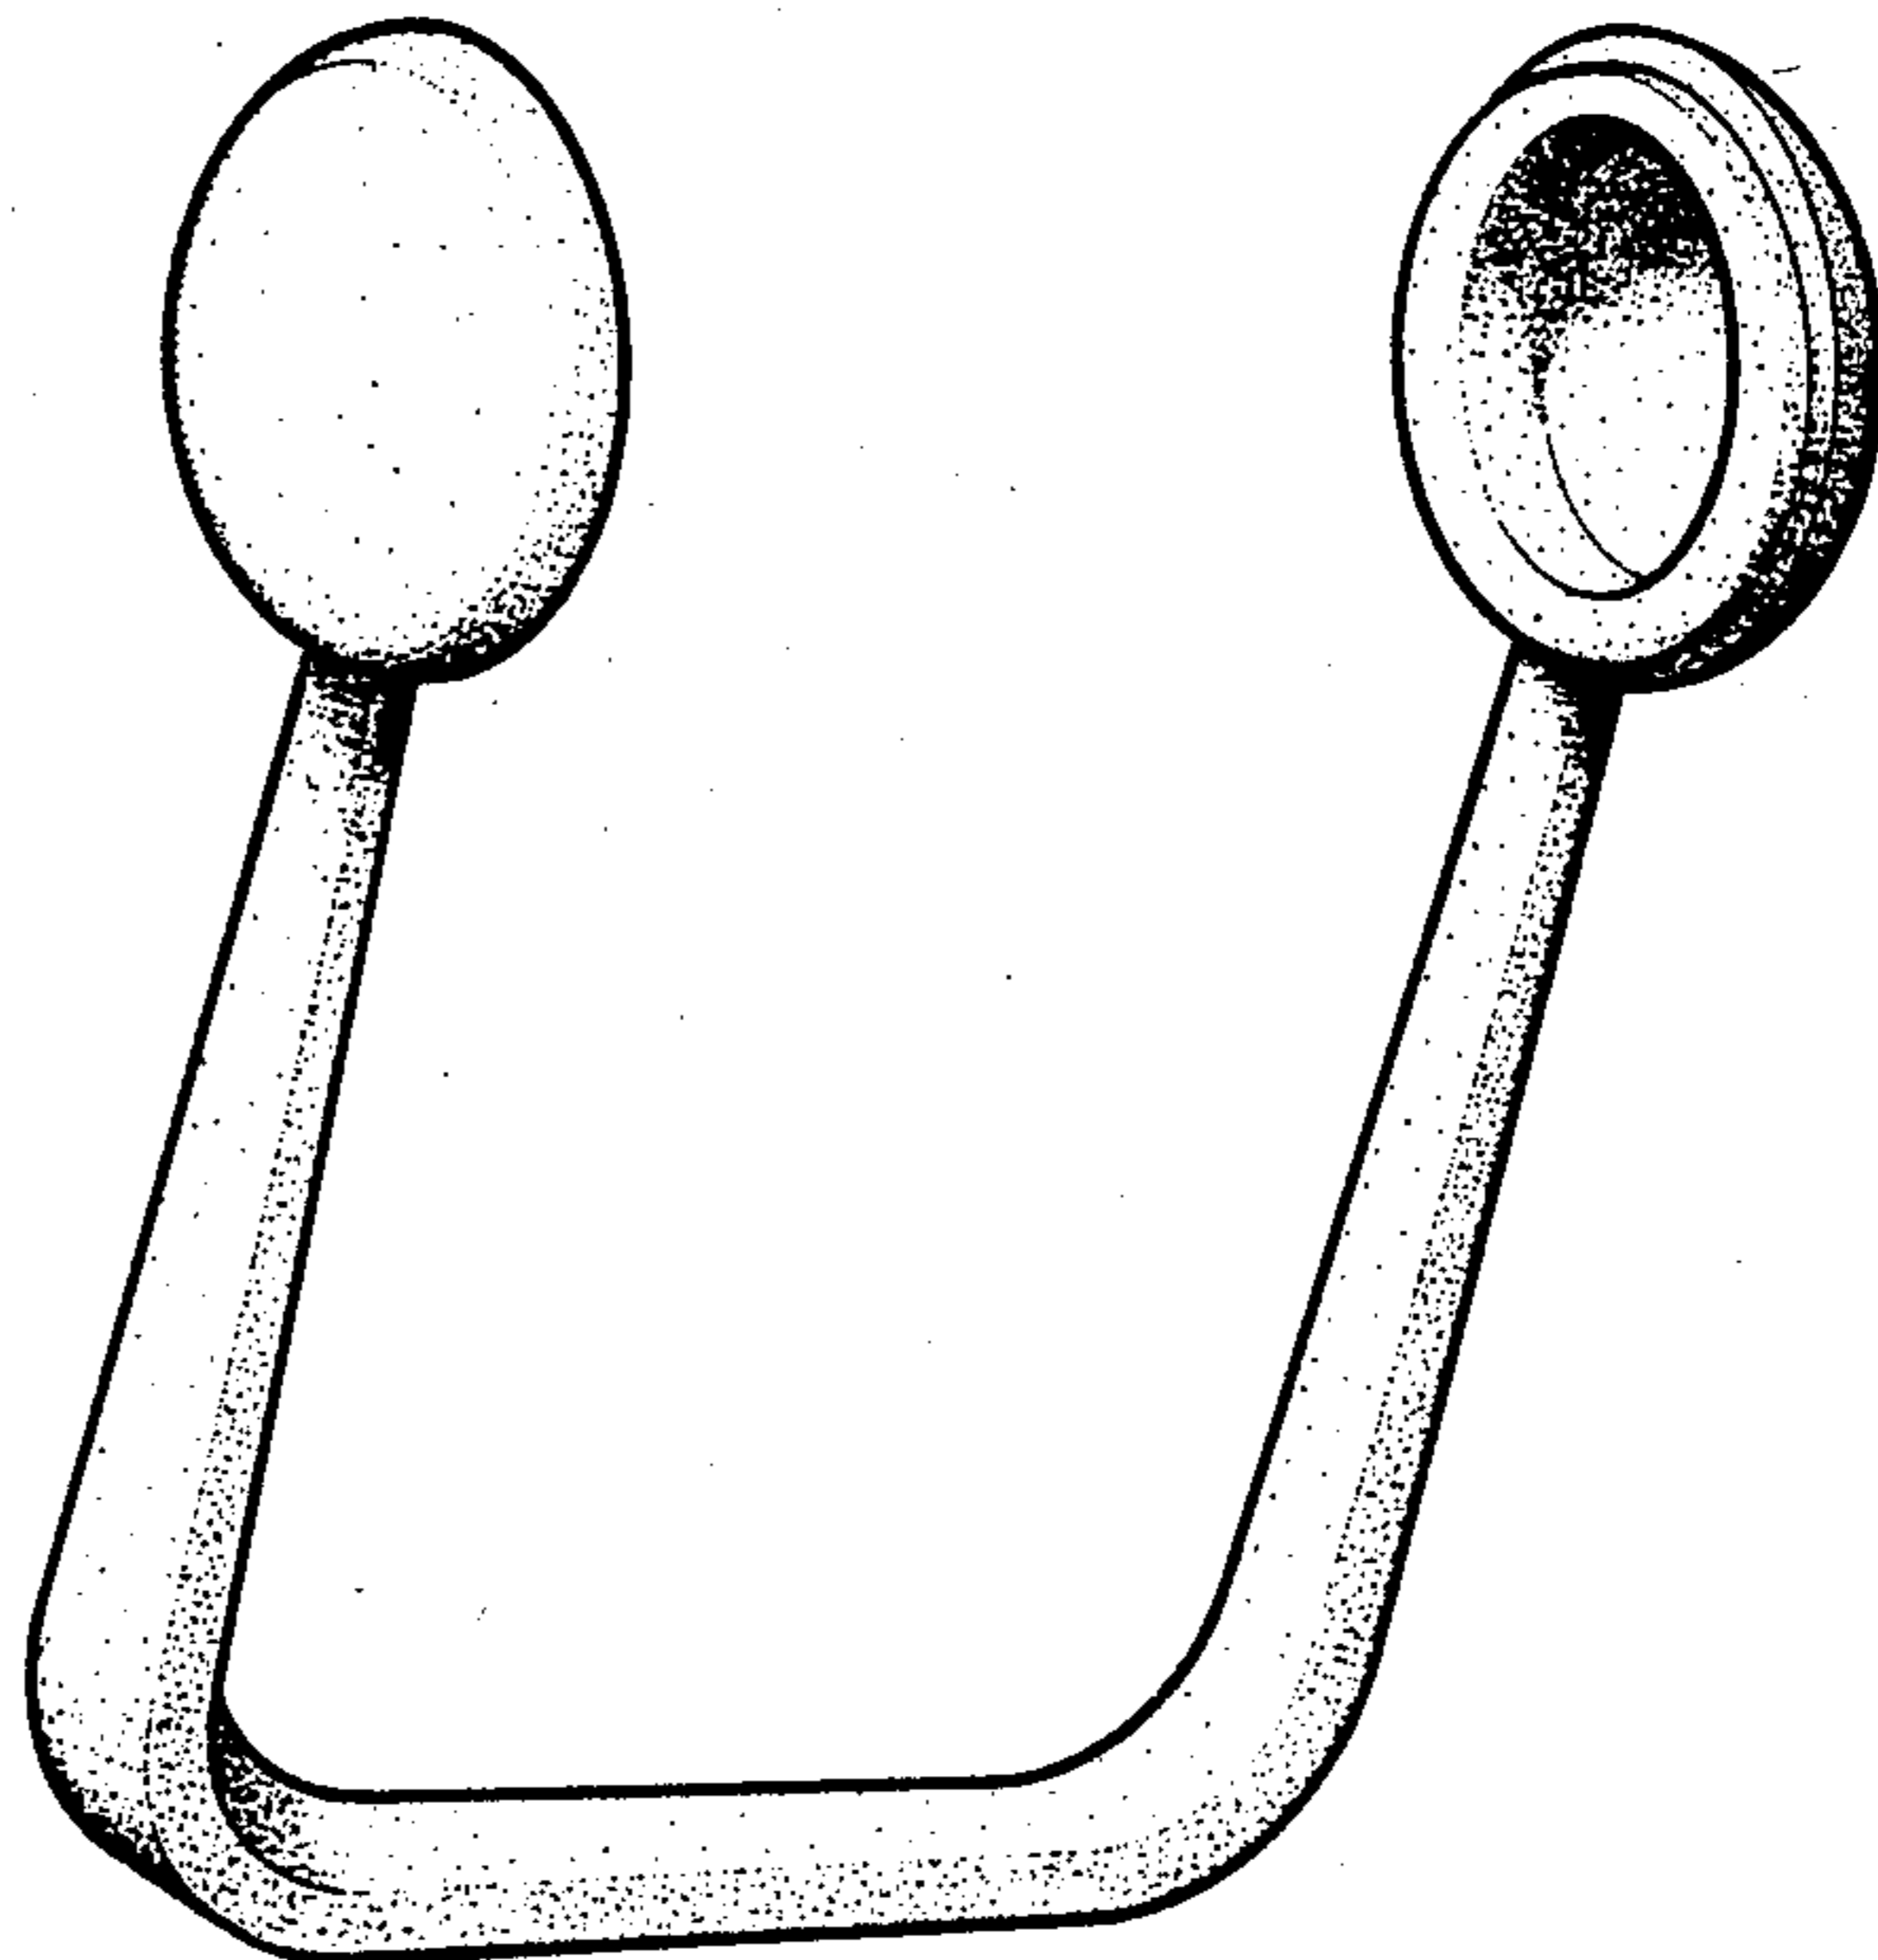

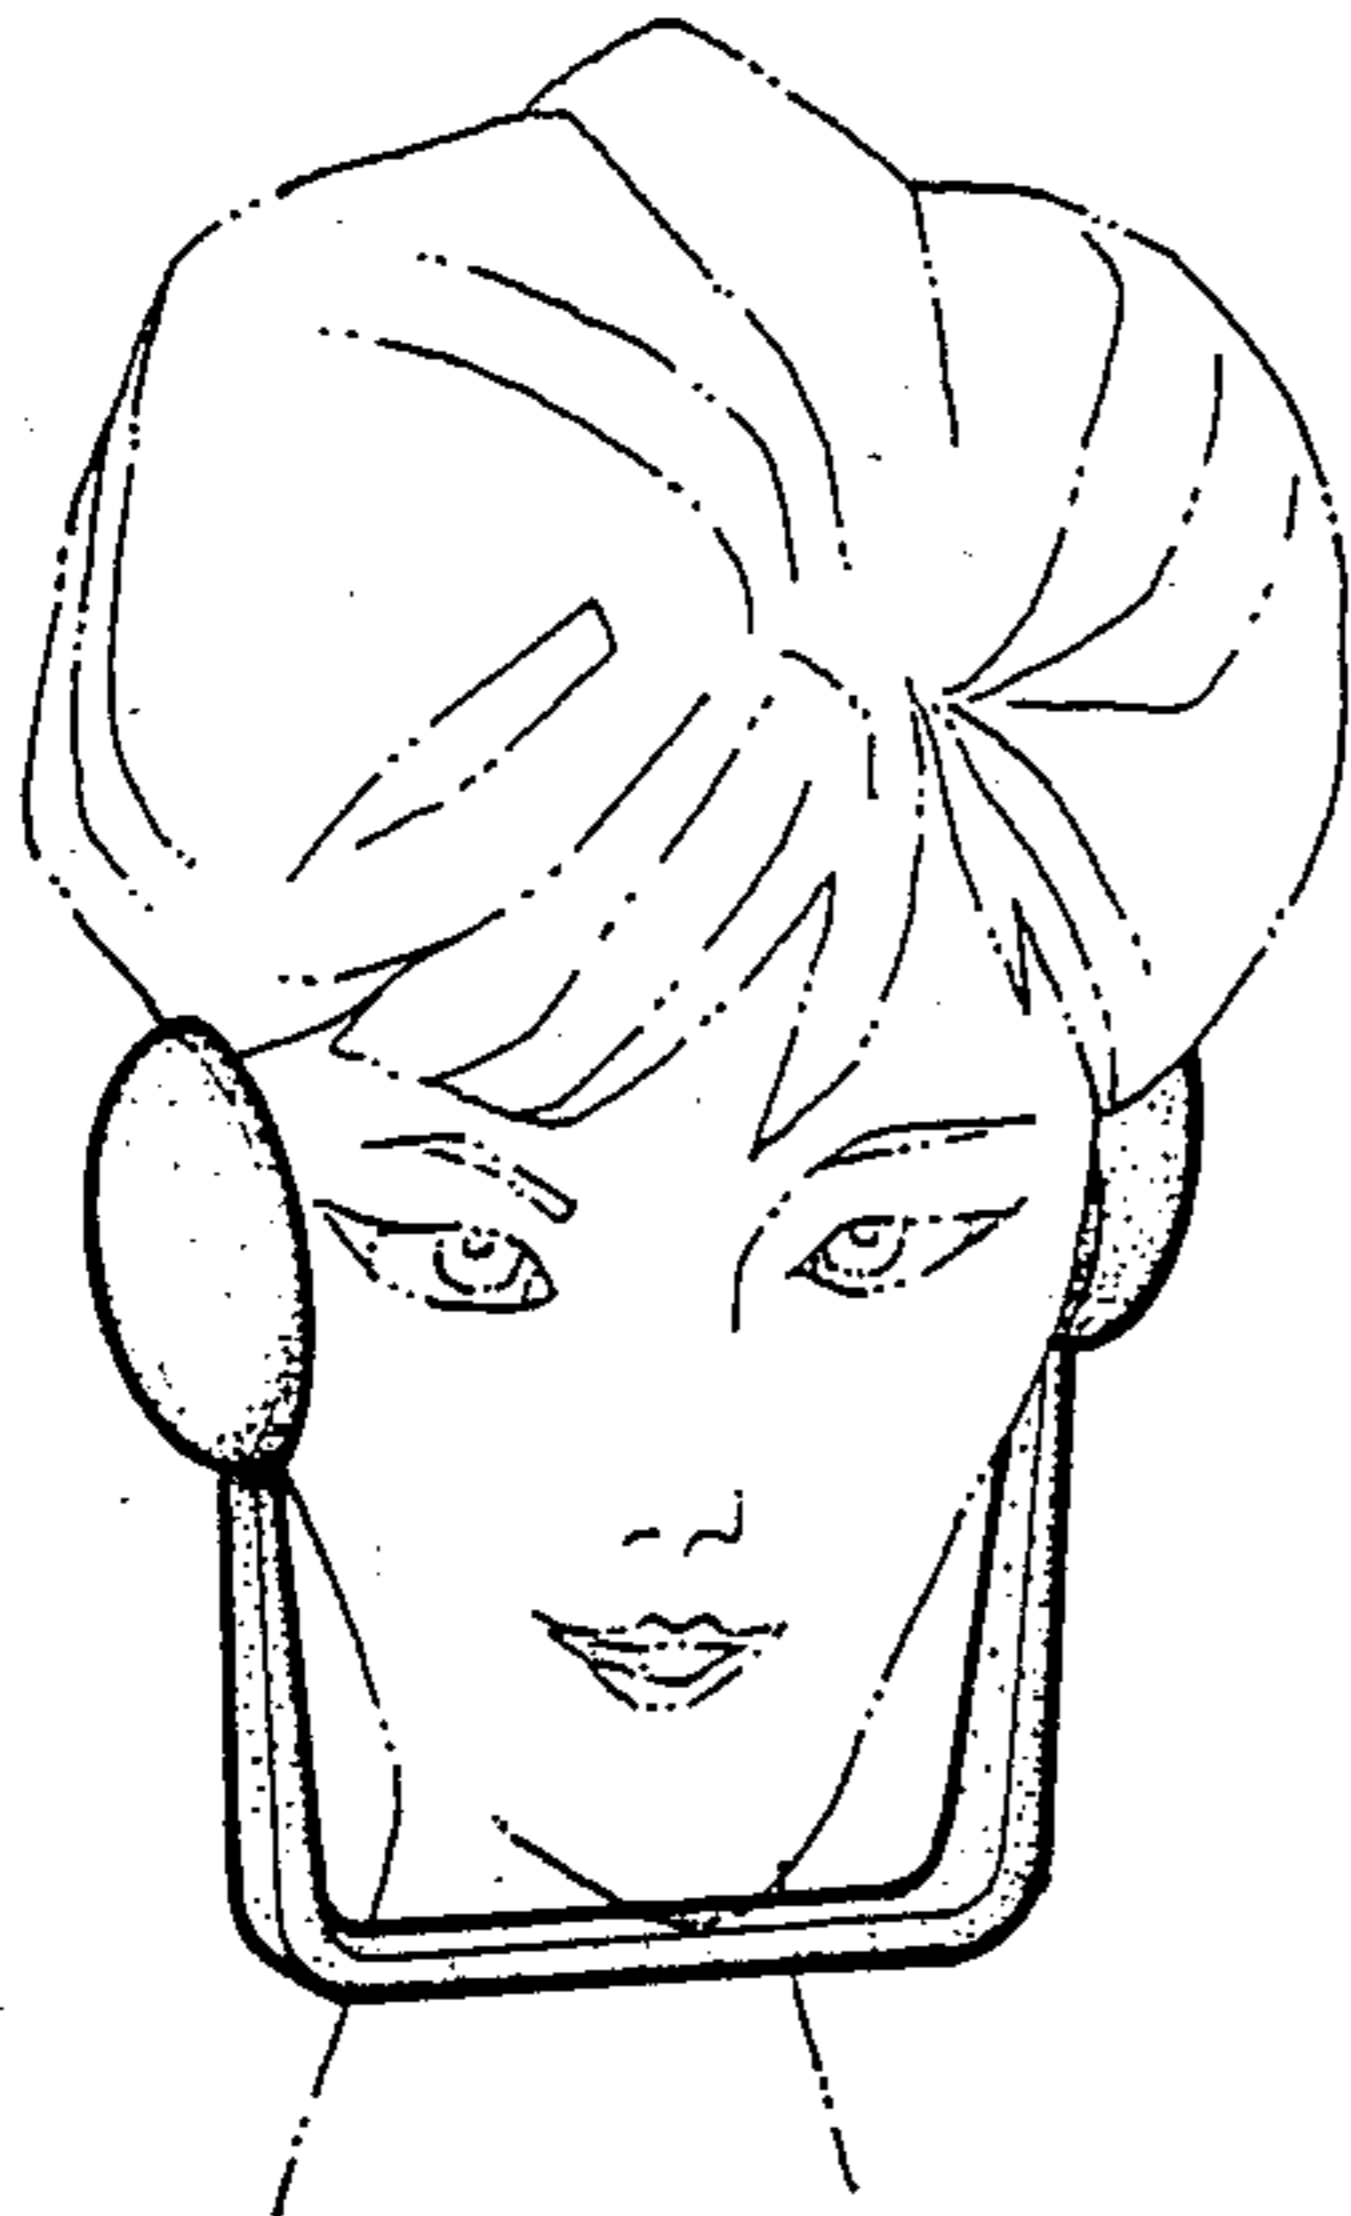

FIG. 2 is a front elevation taken at an enlarged scale, in the contracted condition;

FIG. 3 is an enlarged top plan view in an open condition;

FIG. 4 is an enlarged front perspective view of the ear guard;

FIG. 5 is a front elevational view of the guard, in an open condition, taken on the same scale as FIG. 2; and FIG. 6 is a left side elevational view thereof.

The end not shown is asymmetrical with the end shown.
