[57] CLAIM

The ornamental design for an electronic article surveillance sensing screen for a theft detection system, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an electronic article surveillance sensing screen for a theft detection system showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a left side elevational view thereof; and

FIG. 4 is a top plan view thereof;

The rear and right side elevational views of our new design would be identical, respectively, to FIGS. 2 and 3.

FIG. 1

FIG. 2

FIG. 4

FIG. 3
