[57] **CLAIM**

The ornamental design for a battery housing for a portable telephone or similar article, substantially as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front, and right side perspective of the environment of a portable radiotelephone or similar article shown in broken line to which is attached our new design of a "battery housing for a portable telephone or similar article". The broken line material is for reference only and forms no part of the claimed design. FIG. 2 is a left side elevation view of said battery housing for a portable telephone or similar article. FIG. 3 is a rear elevational view thereof; FIG. 4 is a top plan view thereof; FIG. 5 is a bottom plan view thereof; FIG. 6 is a left elevation view of an alternative embodiment of the same inventive design concept shown in FIGS. 2-5; FIG. 7 is a rear elevation view of said alternative embodiment shown in FIG. 6; FIG. 8 is a top plan view of said alternative embodiment shown in FIG. 6; FIG. 9 is a bottom plan view of said alternative embodiment shown in FIG. 6; FIG. 10 is a left side elevation view of a second alternative embodiment of the same inventive design concept shown in FIGS. 2-5; FIG. 11 is a rear elevation view of said second alternative embodiment shown in FIG. 10; FIG. 12 is a top plan view of said second alternative embodiment shown in FIG. 10; and FIG. 13 is a bottom plan view of said second alternative embodiment shown in FIG. 10.

**FIG. 14** is a bottom, rear, right side, perspective view of said design of a battery housing for a portable telephone or similar article as shown in plan and elevation of **FIGS. 2 through 5.**

**FIG. 15** is a bottom, rear, right side, perspective view of said alternative design of a battery housing for a port-

ble telephone or similar article as shown in plan and elevation of **FIGS. 6 through 9.**

**FIG. 16** is a bottom, rear right side, perspective view of said second alternative design of a battery housing for a portable telephone or similar article as shown in plan and elevation of **FIGS. 10 through 13.**
