[57] CLAIM

The ornamental design for a combined rollable vehicle cabinet and support rails therefore, as shown and described.

DESCRIPTION

FIG. 1 is a top, left, front perspective view of a combined rollable vehicle cabinet and support rails therefor showing my new design with a portion of the left support rail broken away in the middle for clarity of illustration, it being understood that said support rail is of a uniform height throughout its length; FIG. 2 is a top plan view thereof; FIG. 3 is a front elevation view thereof; and FIG. 4 is a left side elevation view thereof with the left support rail omitted for clarity of illustration and a portion of the right support rail broken away for convenience of illustration, it being understood that the right side is a mirror image of that shown. The rear of the rollable vehicle cabinet is substantially flat and unornamented and the support rails therefor have been omitted in FIGS. 2 and 3 of the drawing for convenience of illustration.
