[57] CLAIM

The ornamental design for a combined container/bottle and cosmetic wand applicators or the like, as shown and described.

DESCRIPTION

FIG. 1 is an exploded front elevational view of a combined container/bottle and cosmetic wand applicators or the like showing our new design;

FIG. 2 is a partially exploded rear elevational view thereof;

FIG. 3 is a side elevational view of FIG. 1;

FIG. 4 is another side elevational view showing a second embodiment of our new design wherein the caps have been modified;

FIG. 5 is a top plan view of FIG. 1, with caps removed; FIG. 6 is a bottom plan view thereof, with cap removed;

FIG. 7 is another top plan view showing a third embodiment of our new design; with caps removed;

FIG. 8 is a bottom plan view thereof, with cap removed;

FIG. 9 is another exploded front elevational view showing a fourth embodiment of our new design;

FIG. 10 is a partially exploded rear elevational view thereof;

FIG. 11 is a side elevational view of FIG. 9, the opposite side being the same;

FIG. 12 is another side elevational view showing a fifth embodiment of our new design wherein the caps have been modified;

FIG. 13 is a top plan view of FIG. 9, with caps removed;

FIG. 14 is a bottom plan view thereof, with cap removed;

FIG. 15 is another plan view with caps removed, showing a sixth embodiment of our new design;

FIG. 16 is a bottom plan view thereof, with cap removed;

FIG. 17 is a partially exploded front elevational view showing a seventh embodiment of our new design;

FIG. 18 is an exploded rear elevational view thereof;

FIG. 19 is a side elevational view of FIG. 17, the opposite side being the same;

FIG. 20 is another side elevational view showing an eighth embodiment of our new design wherein the caps

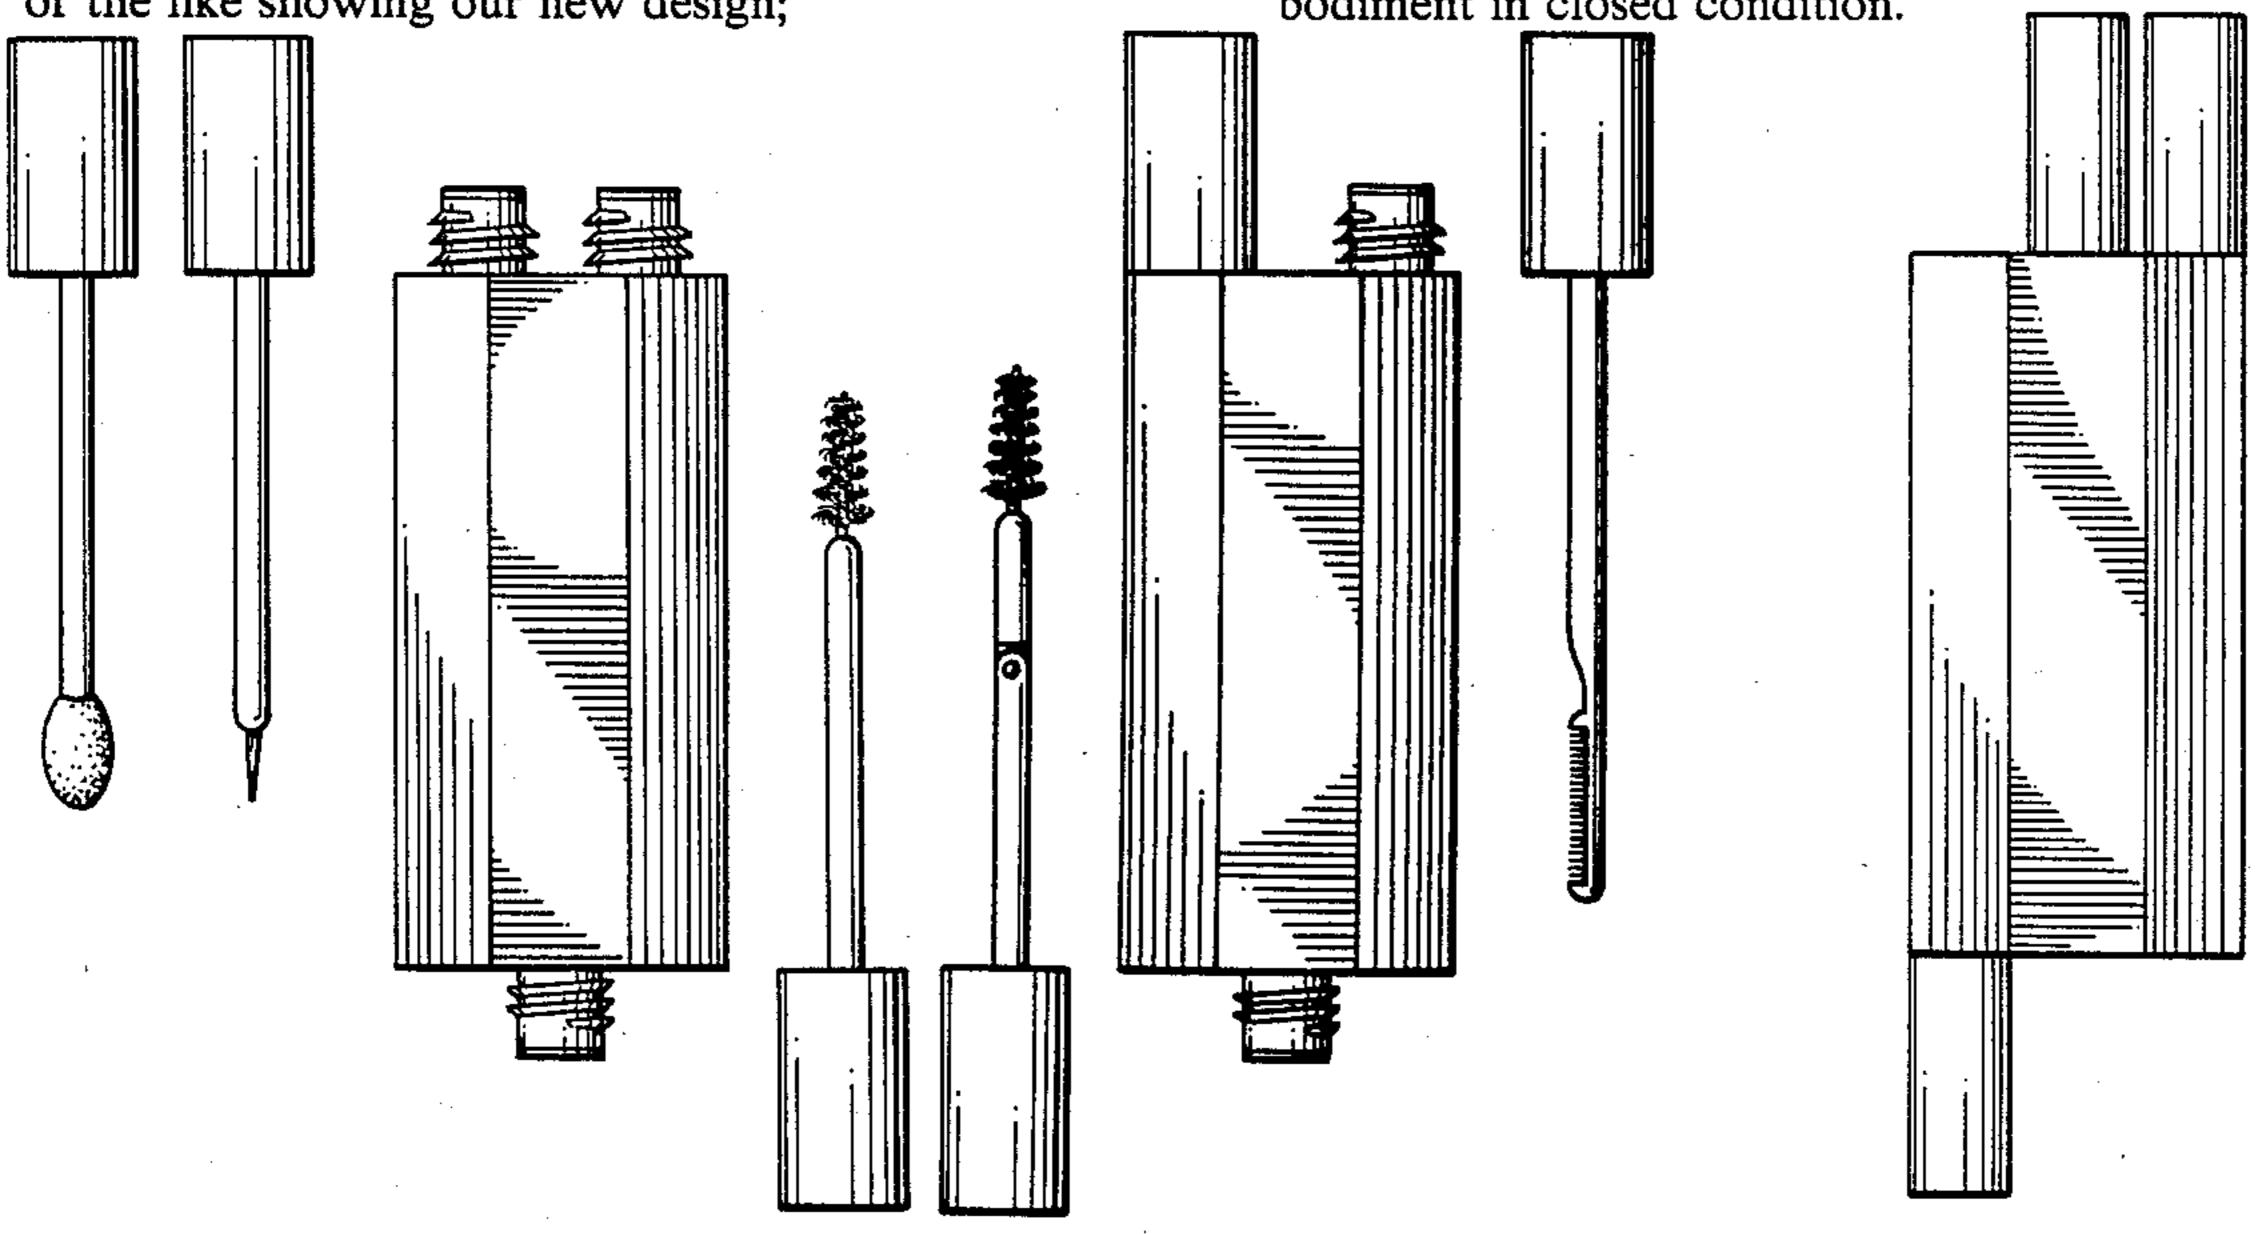

have been modified; FIG. 21 is a top plan view of FIG. 17, with caps removed;

FIG. 22 is a bottom plan view thereof, with cap removed;

FIG. 23 is a front elevational view of the first embodiment in closed condition;

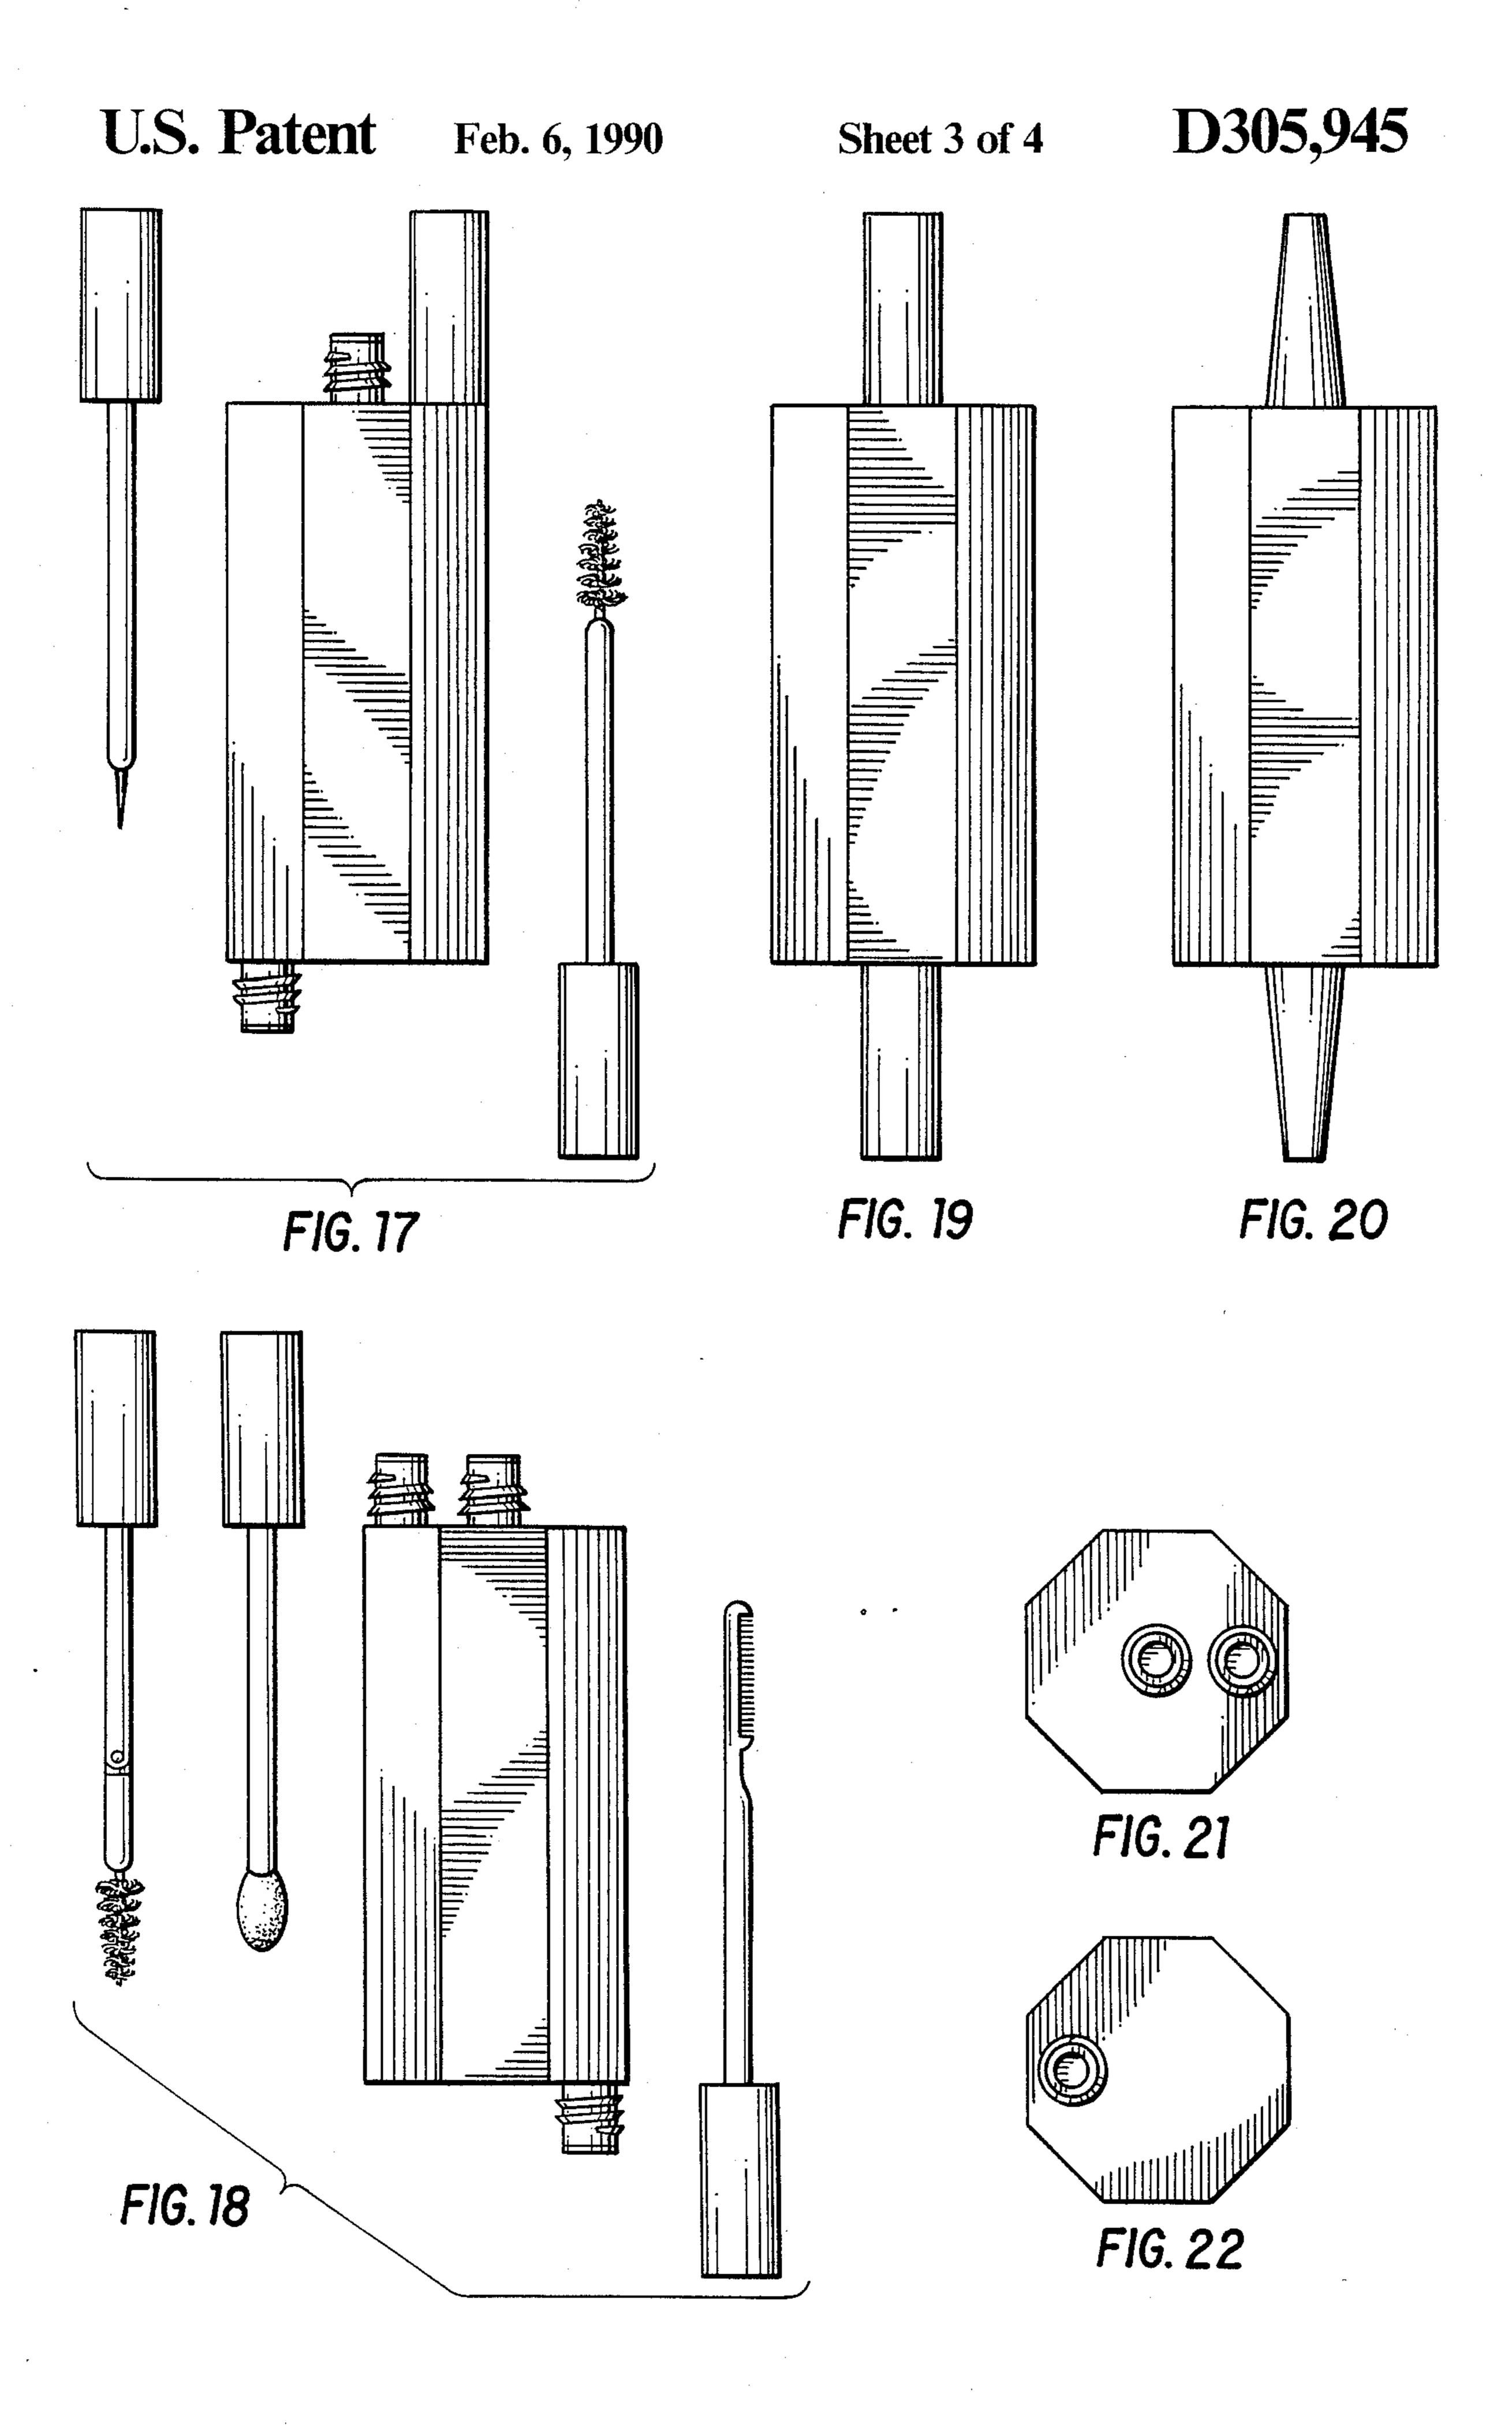

FIG. 24 is a front elevational view of the fourth embodiment in closed condition; and

FIG. 25 is a front elevational view of the seventh embodiment in closed condition.
