[57] CLAIM

The ornamental design for a portable computer, as shown and described.

DESCRIPTION

FIG. 1 is a left side elevational view of a portable computer, the computer being shown upright with its screen in the extended, tilted viewing position and the keyboard detached and elevated, showing the new design; FIG. 2 is a right side elevational view thereof; FIG. 3 is a front elevational view thereof; FIG. 4 is a rear elevational view thereof with the screen in a stowed position; FIG. 5 is a left side elevational view thereof, with the screen in the stowed position and the keyboard detached and elevated; FIG. 6 is a right side elevational view thereof; FIG. 7 is a top plan view thereof; FIG. 8 is a bottom plan view thereof; FIG. 9 is a top, front, left side perspective view thereof, with the screen and keyboard in their stowed positions; FIG. 10 is a top plan view thereof; FIG. 11 is a top, front, left side perspective view thereof, with the screen in the stowed position and the keyboard detached and elevated; FIG. 12 is a rear elevational view of a second embodiment similar to the first embodiment of our new design with the screen in its stowed position; FIG. 13 is a right side elevational view thereof, with the screen in its stowed position and the keyboard detached and elevated; FIG. 14 is a right side elevational view thereof, with the screen in the extended, titled viewing position and the keyboard elevated.
