[57] **CLAIM**

The ornamental design for a housing for a portable cellular handset telephone or a similar article, as shown and described.

**DESCRIPTION**

FIG. 1 is a front, top and right side perspective view of a housing for a portable cellular handset telephone or similar article showing our new design; FIG. 2 is a rear elevation view thereof; FIG. 3 is a left side elevational view thereof; FIG. 4 is a bottom plan view thereof; and FIG. 5 is a rear, top and left side perspective view, the right side being a mirror image, of a second embodiment of the same inventive concept disclosed in full lines in

FIGS. 1-4. The sole difference between the embodiments being the addition of a battery pack or similar article integrally mounted to and below the bottom of the housing of the handset telephone, it being understood that a perspective view taken 180° from FIG. 5

would be the same as shown in FIG. 1, except for the battery pack.

The broken line showing of a broken line keyboard area showing in FIG. 1 is for illustrative purposes only and forms no part of the claimed design.
