[57] CLAIM

The ornamental design for a visual display monitor, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a visual display monitor showing our new design;
 FIG. 2 is a rear elevational view thereof;
 FIG. 3 is a right hand side elevational view thereof;
 FIG. 4 is a left hand side elevational view thereof;
 FIG. 5 is a bottom plan view thereof;
 FIG. 6 is a bottom plan view thereof;
 FIG. 7 is a top, front, and right hand side perspective view thereof; contrasting shading is omitted for convenience of illustration to clearly show the contour lines of the monitor.

FIG. 1.

FIG. 2.

FIG. 5.

FIG. 6.

FIG-7
