[57] CLAIM

The ornamental design for bottle carrier, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a bottle carrier, in unfolded position, showing our new design;

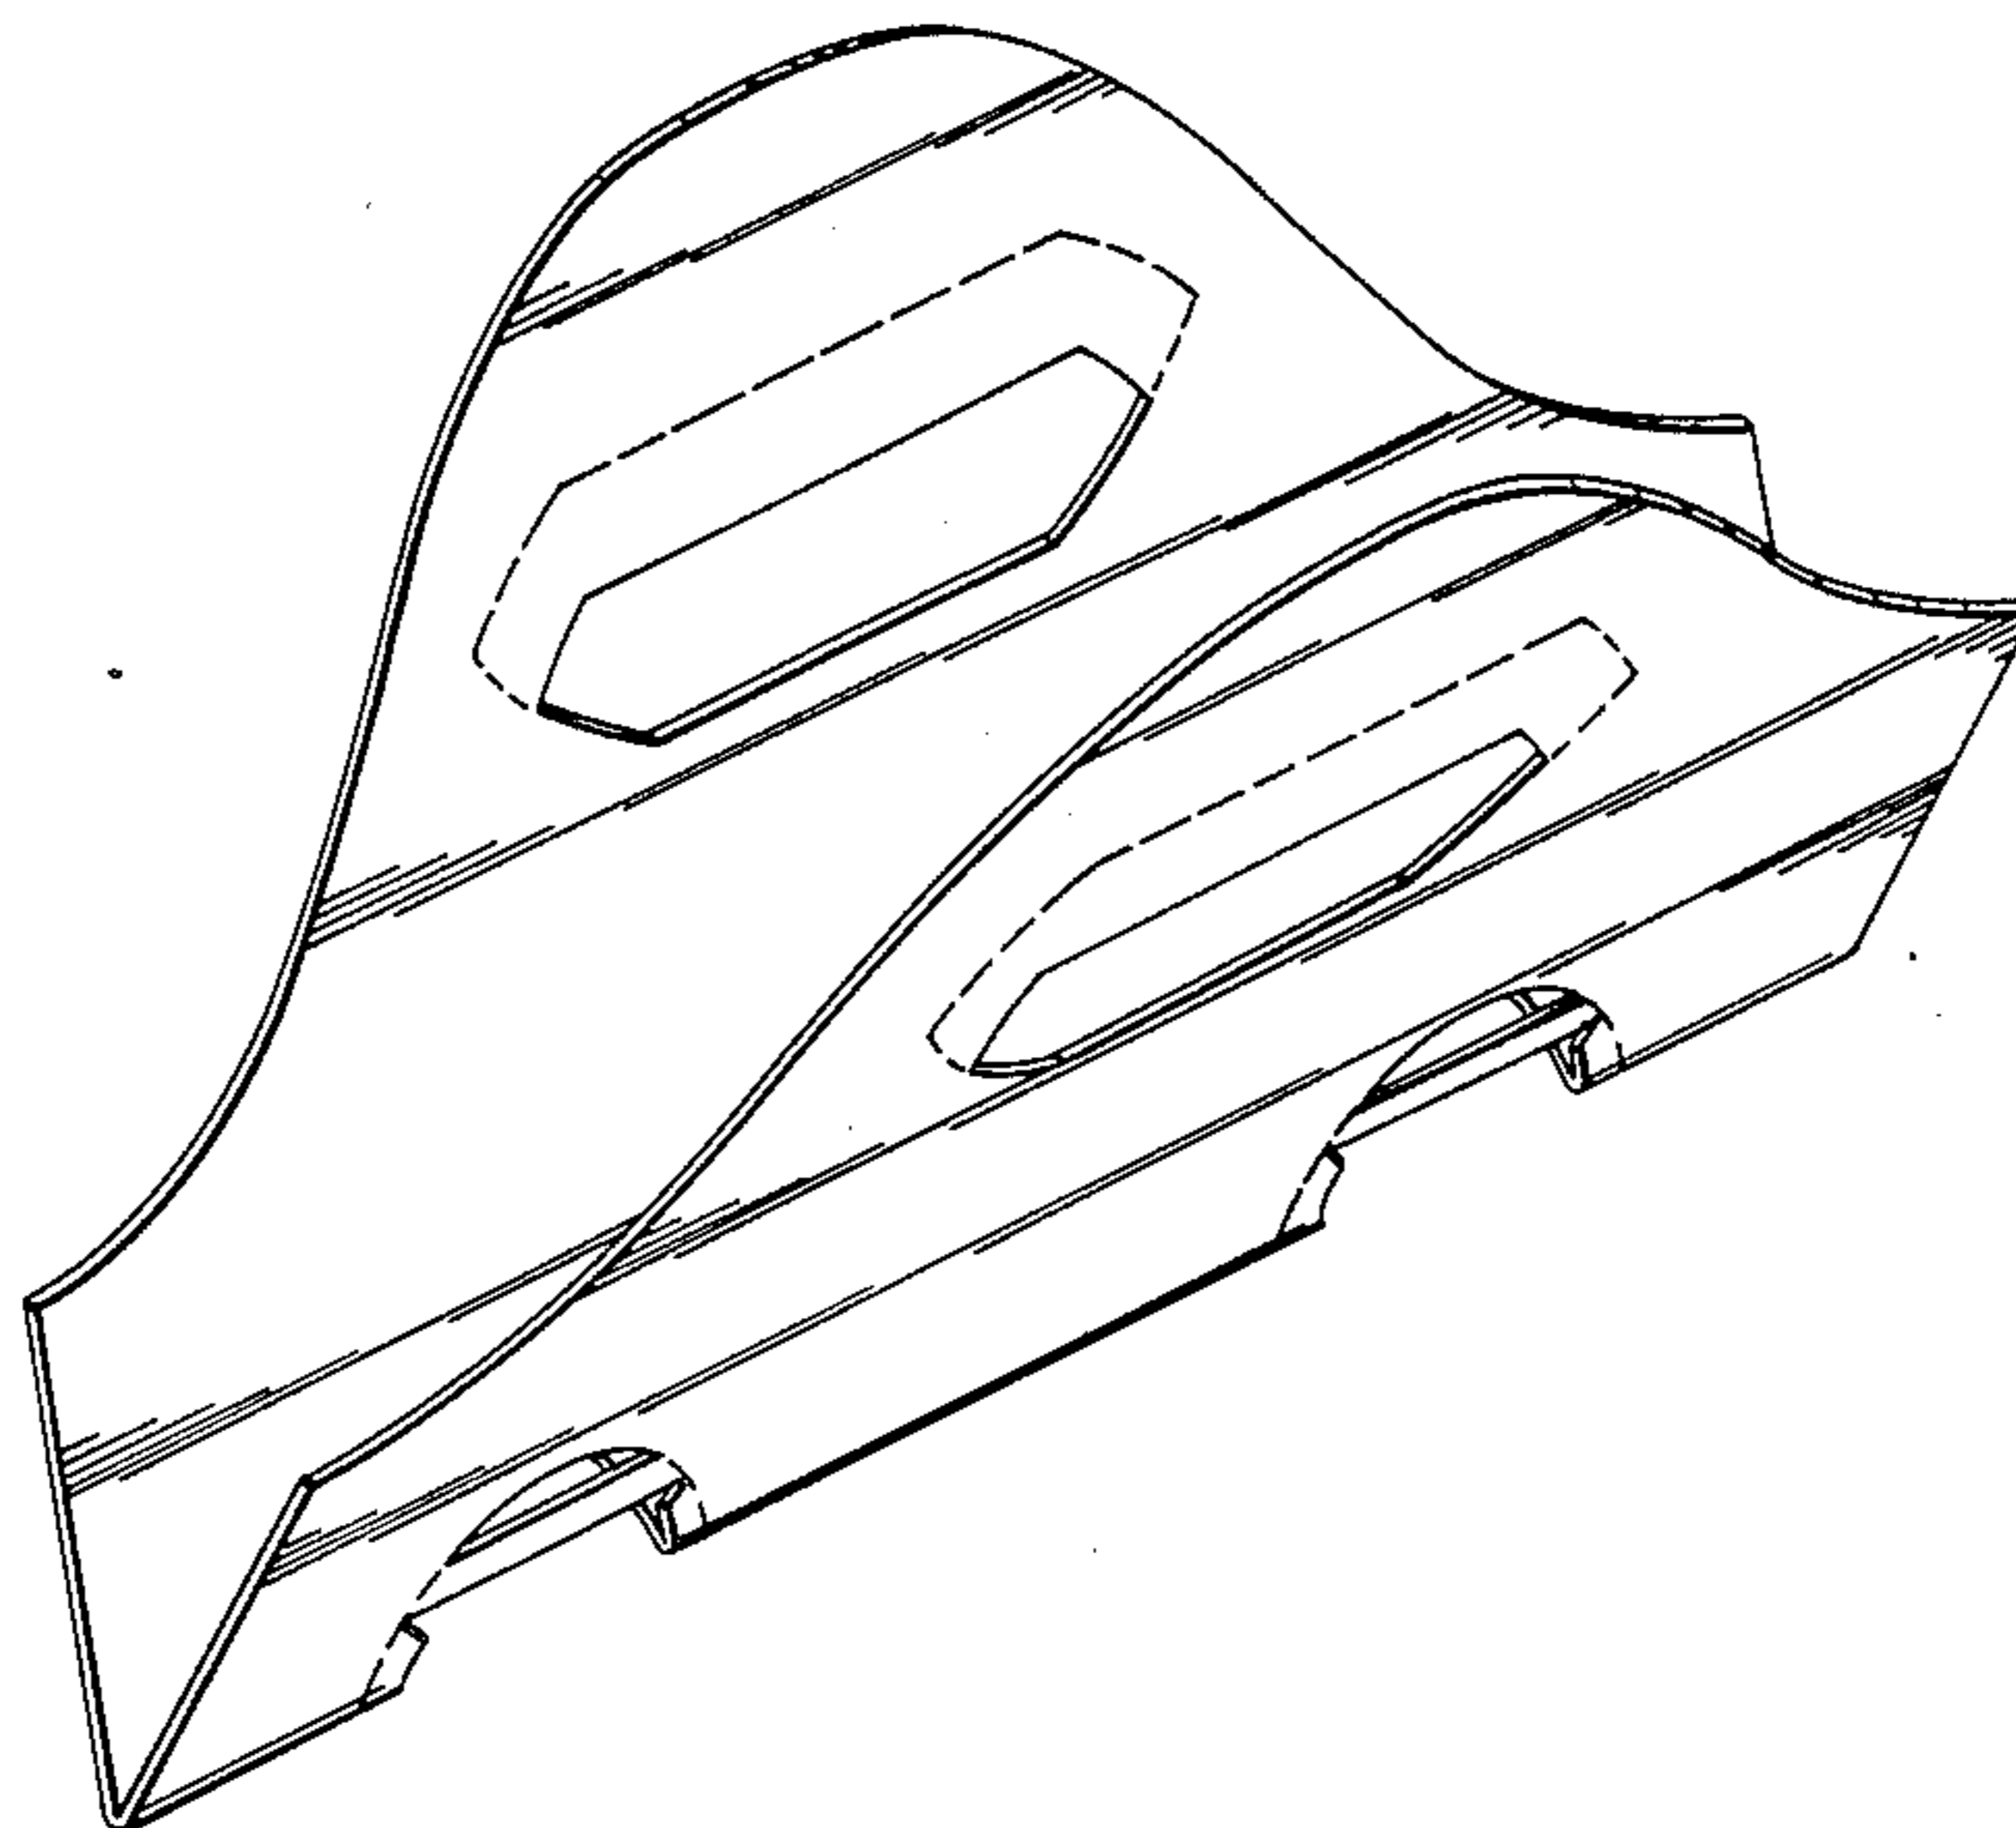

FIG. 2 is a front elevation thereof, the rear side elevation being a mirror image;

FIG. 3 is a left side elevation thereof, the right side elevation being a mirror image;

FIG. 4 is a perspective view thereof, in semifolded upright position; and

FIG. 5 is a left side elevation of FIG. 4 in completely folded position; the right side elevation being a mirror image.

The broken lines in FIGS. 1 and 4 are perforation lines. The broken lines showing of a bottle in FIG. 5 are for illustrative purposes only and form no part of the claimed article.
