DESCRIPTION

FIG. 1 is a bracket associated view of a desk top telephone set showing my new design with the handset shown in side elevational view, the side opposite being a mirror image, and with the telephone base shown in top plan view, spaced apart and below the handset; FIG. 2 is also a bracket associated end, side and bottom isometric view of the handset, and a front, top and side isometric view of the telephone base, spaced apart from the handset; FIG. 3 is a bottom plan view of the handset thereof; FIG. 4 is a right side elevational view of the telephone set in cradled relationship; FIG. 5 is a left side elevational view of the telephone set in cradled relationship; and FIGS. 6 and 7 are respectively front and rear elevational views of the set in cradled relationship. The showing of electric cord in truncated form in FIGS. 1, 2, 3, 5, 6, and 7 are for clarity of illustration.
