[57] CLAIM

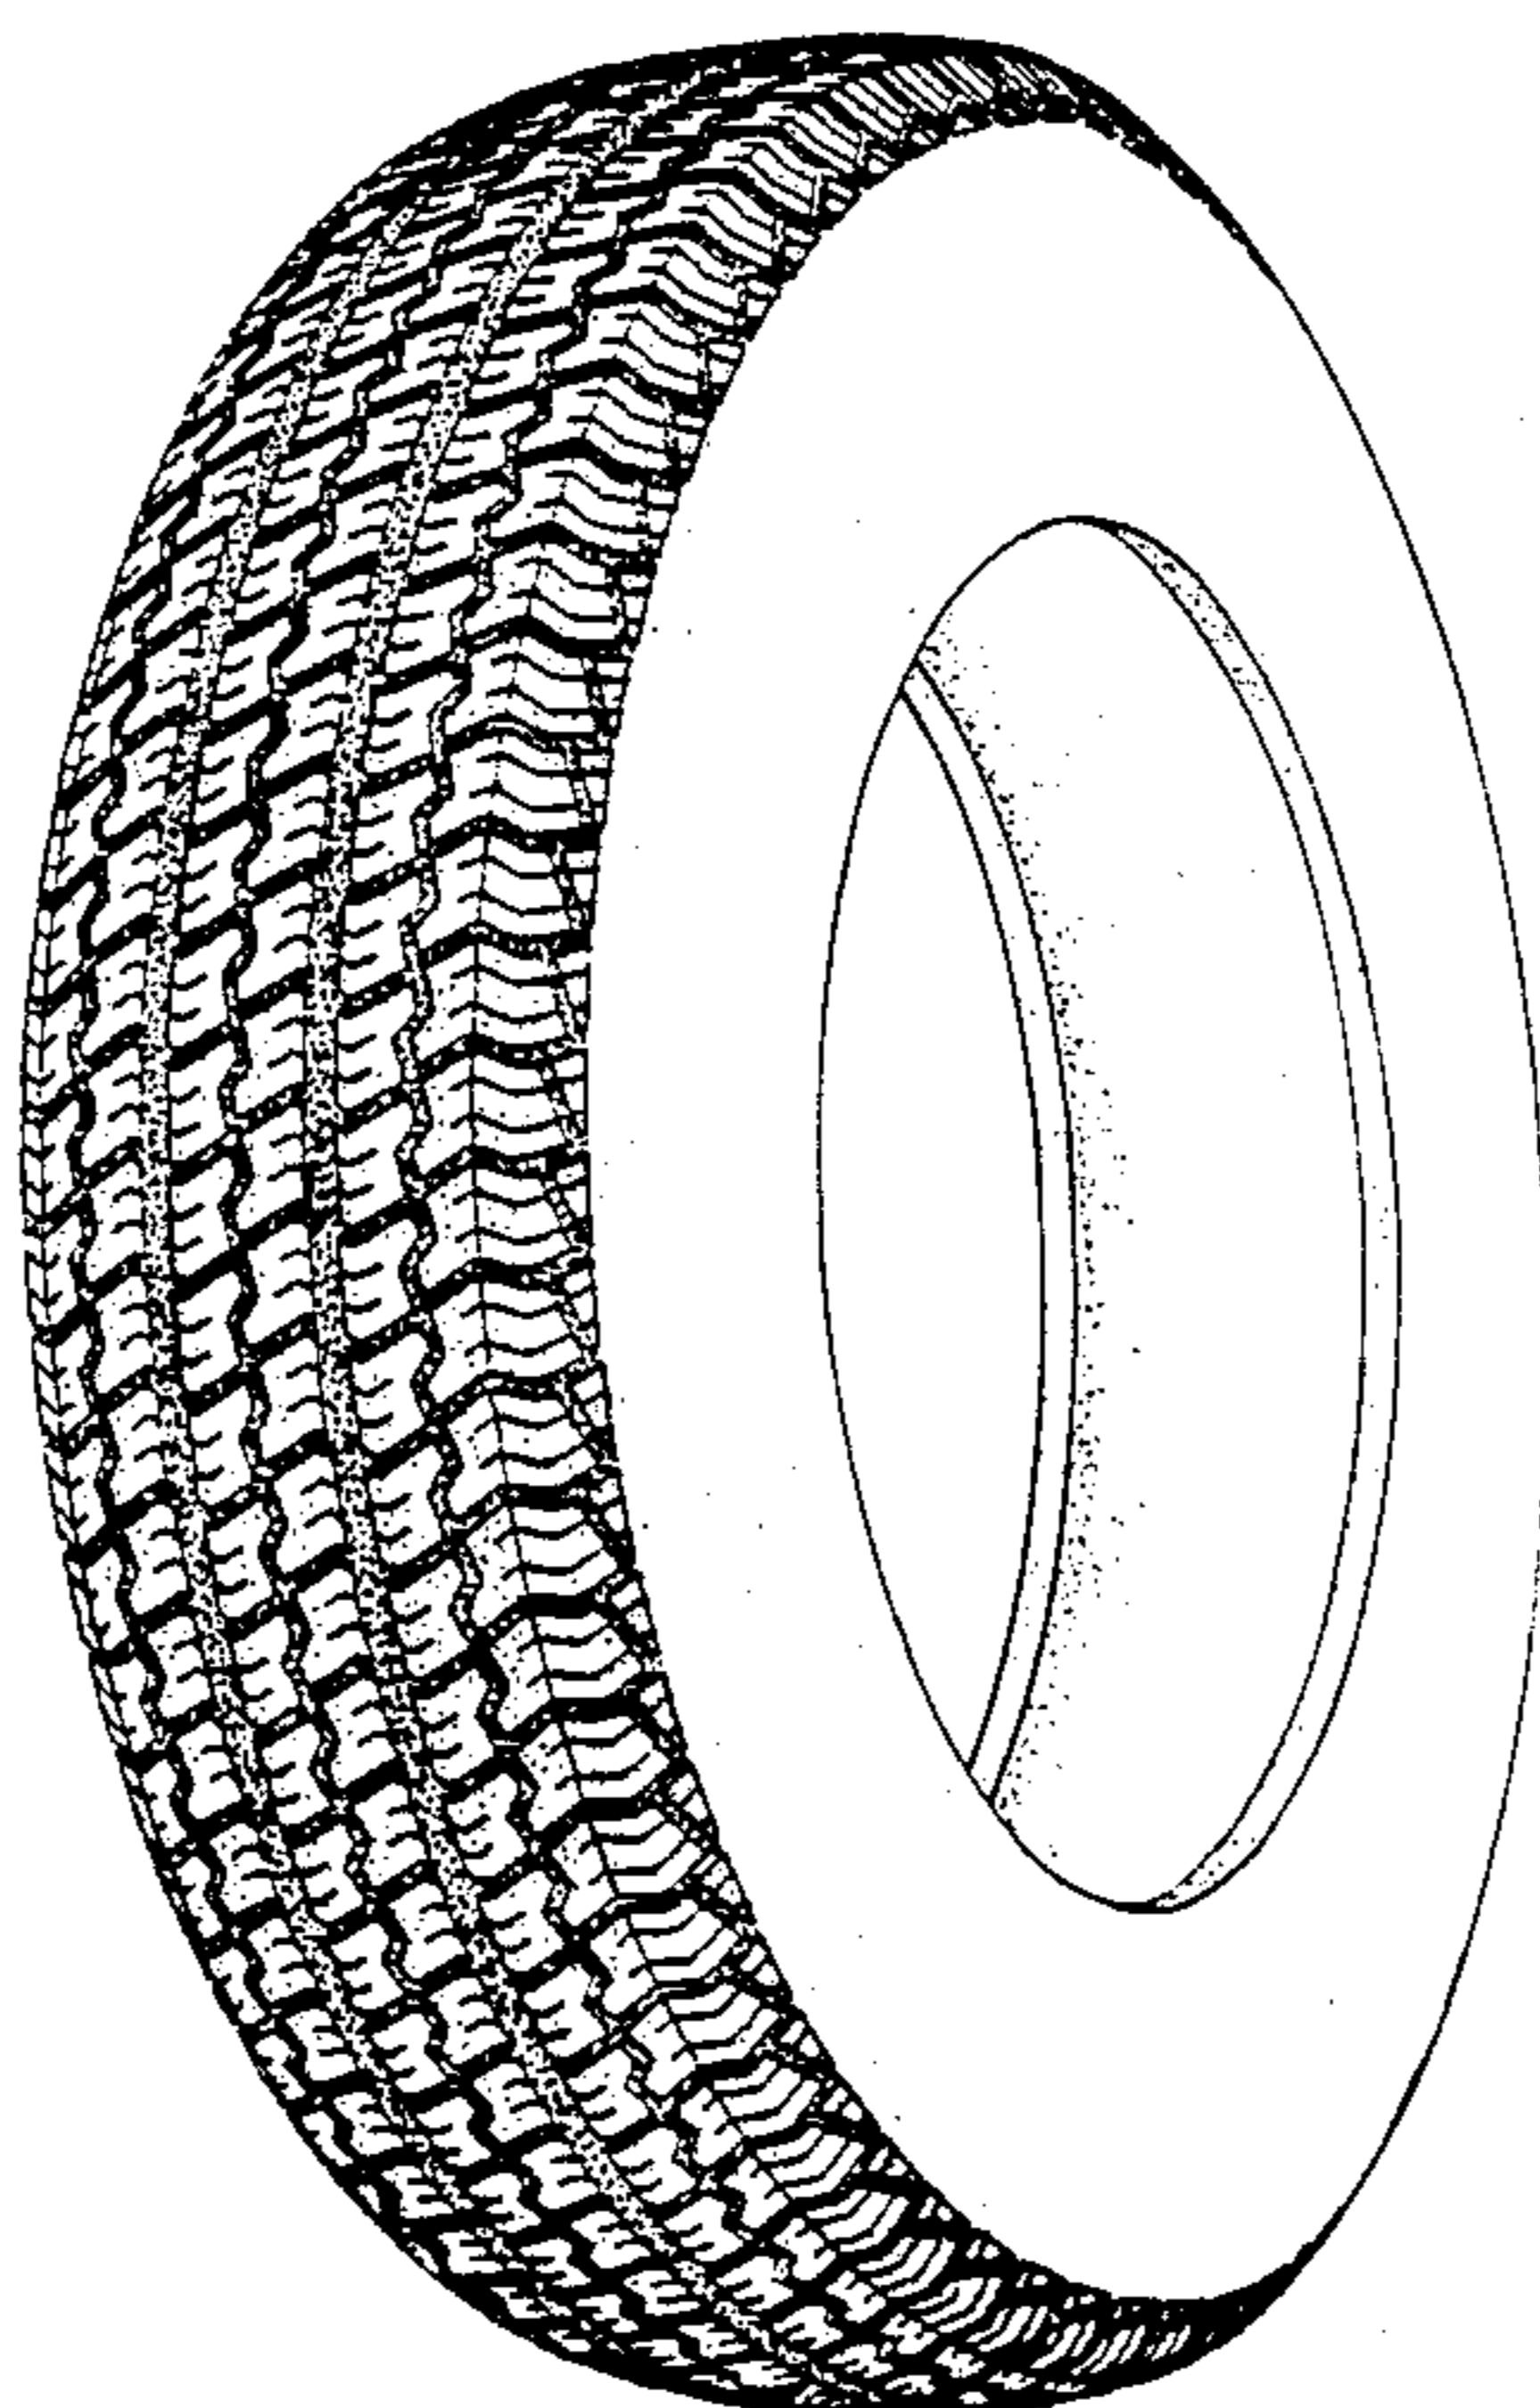

The ornamental design for a tire, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a tire showing one embodiment of our new design, it being understood that the tread pattern is repeated throughout the circumference of the tire, the opposite side being substantially the same as that shown;

FIG. 2 is a front elevational view of the tire of FIG. 1; FIG. 3 is a perspective view of a tire showing another embodiment of our new design, it being understood that the tread pattern is repeated throughout the circumference of the tire, the opposite side being substantially the same as that shown;

FIG. 4 is a front elevational view of the tire of FIG. 3; FIG. 5 is a side elevational view of the tires shown in FIGS. 1 through 4 on a reduced scale.

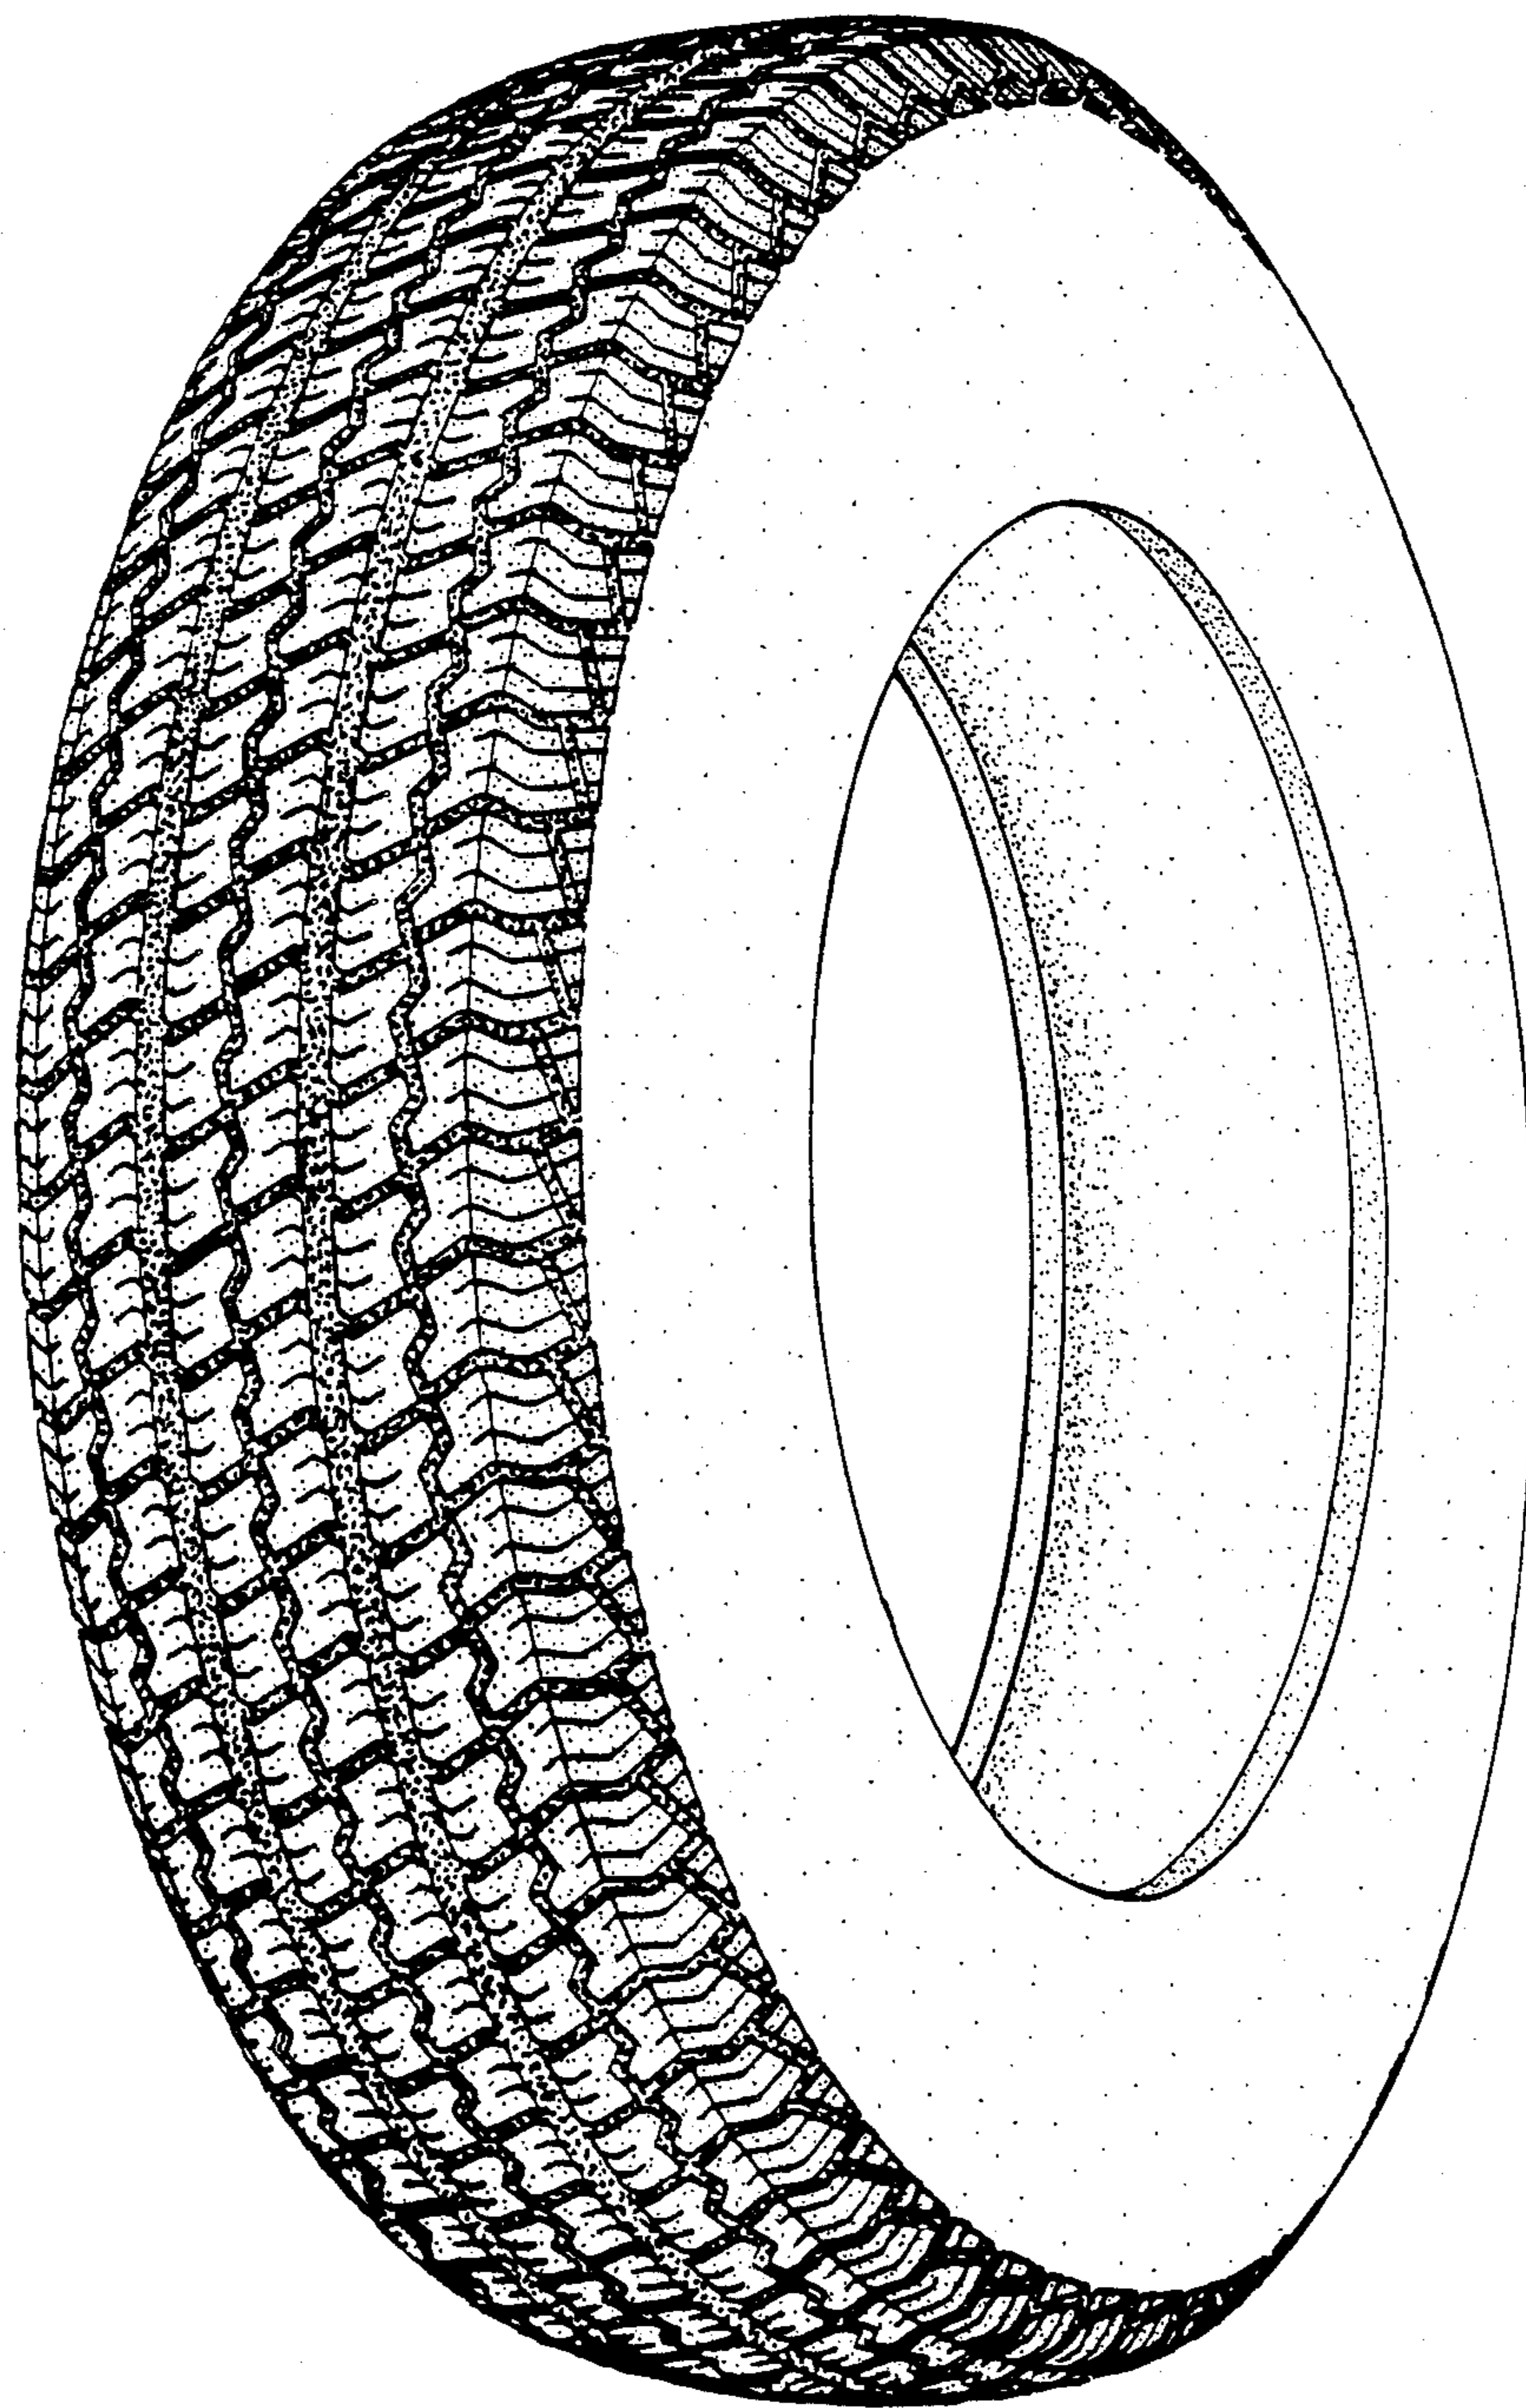

FIG. 1

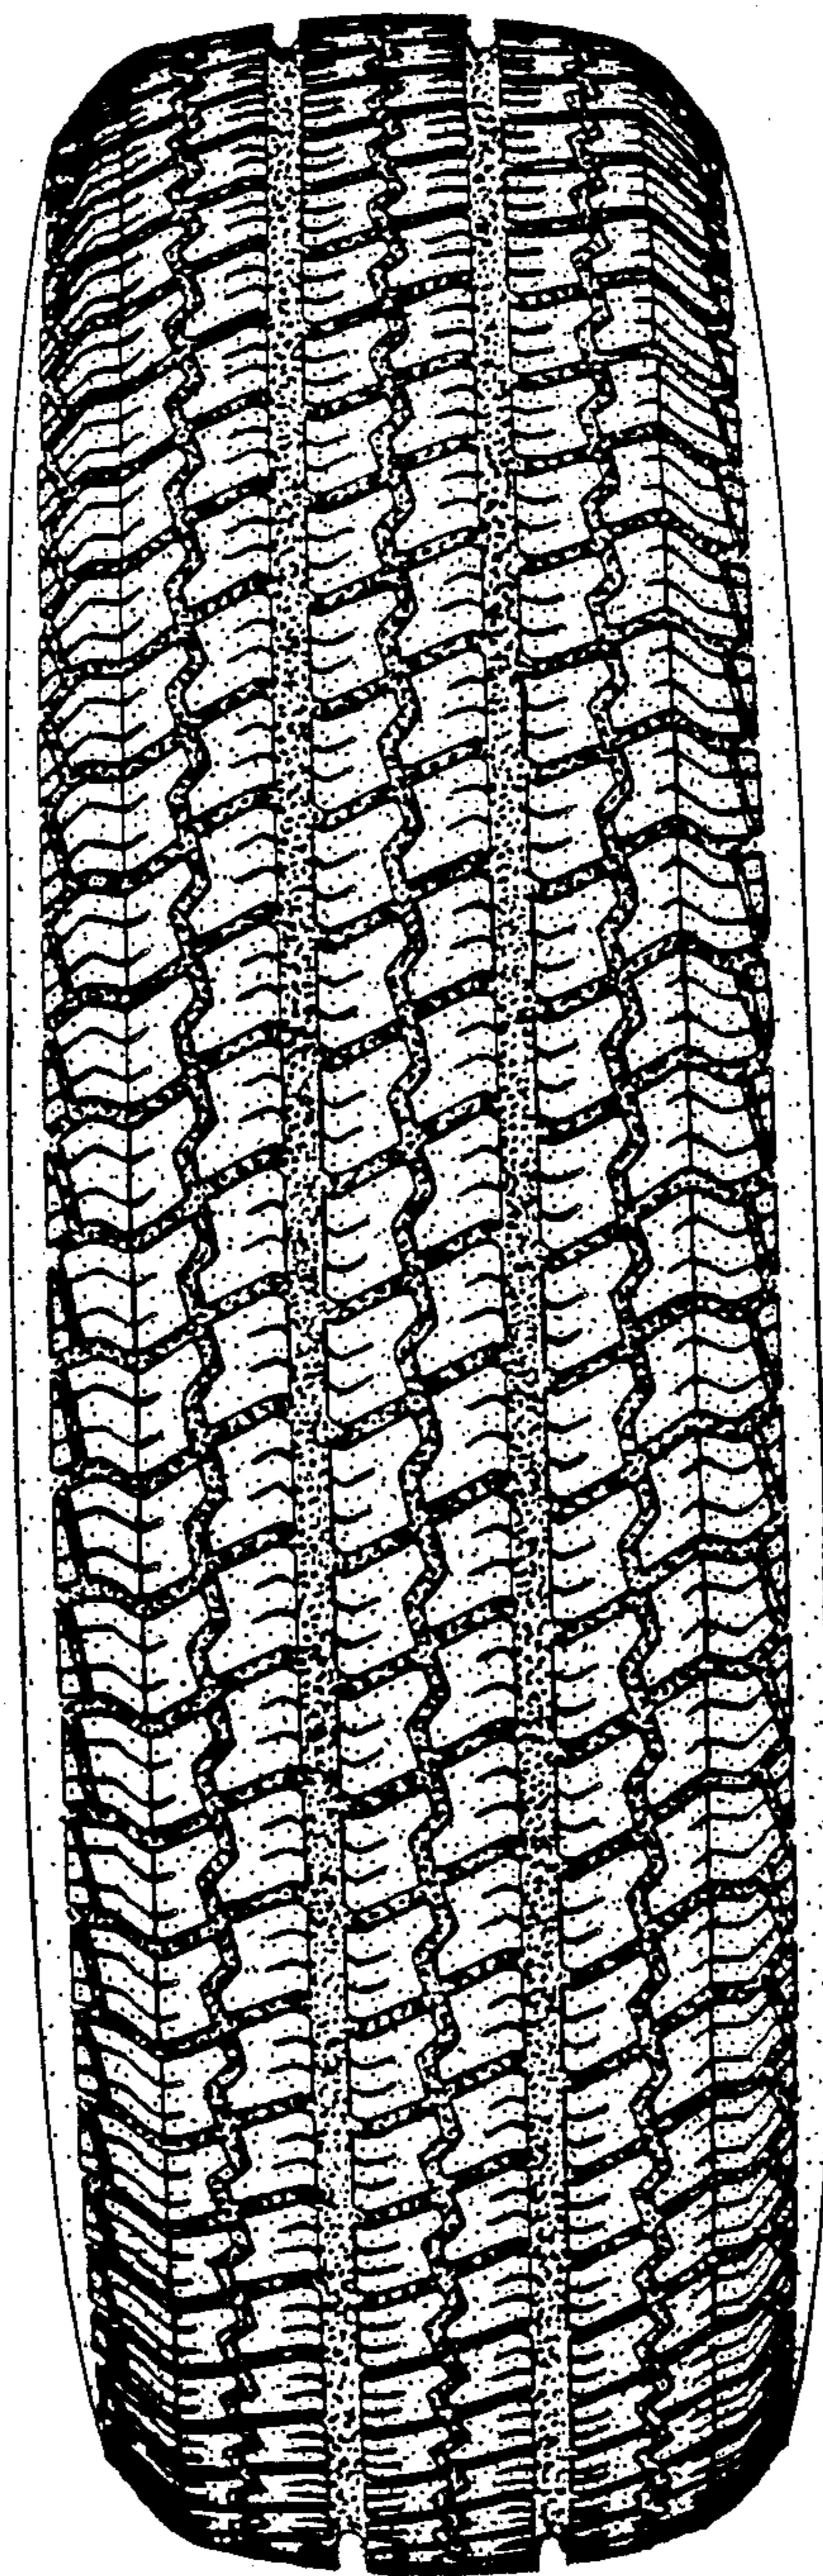

FIG. 2

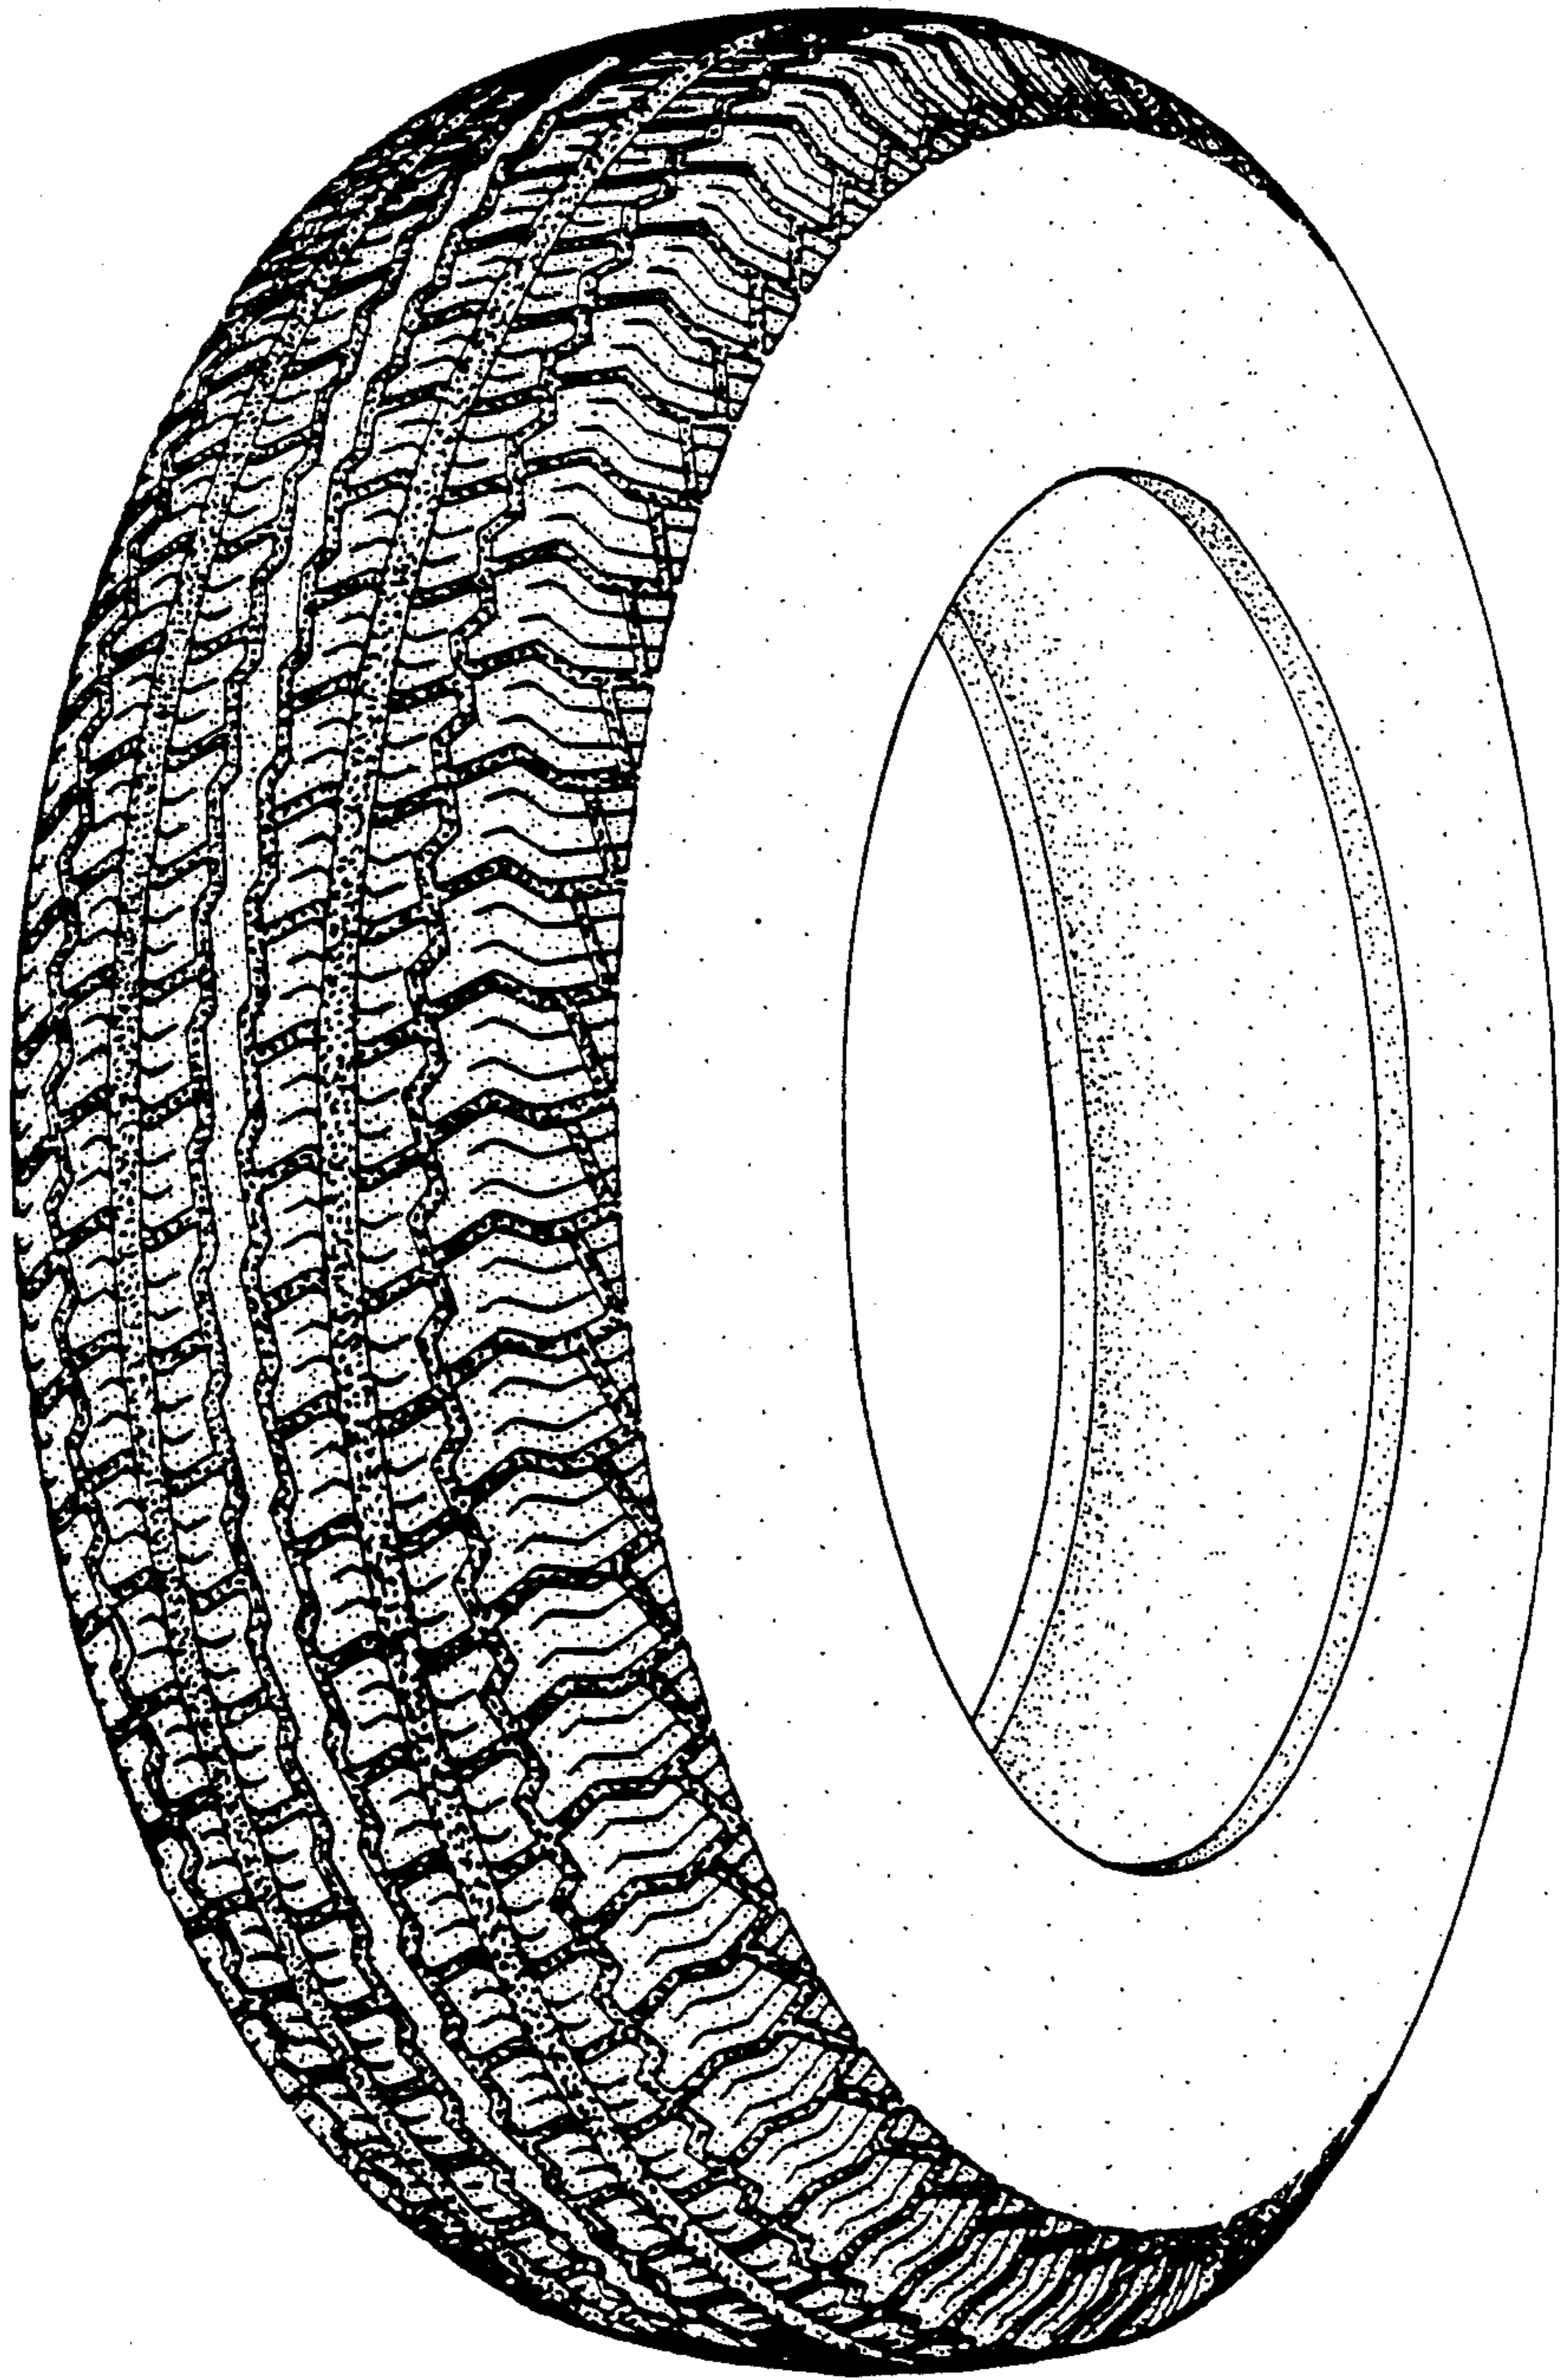

FIG. 3

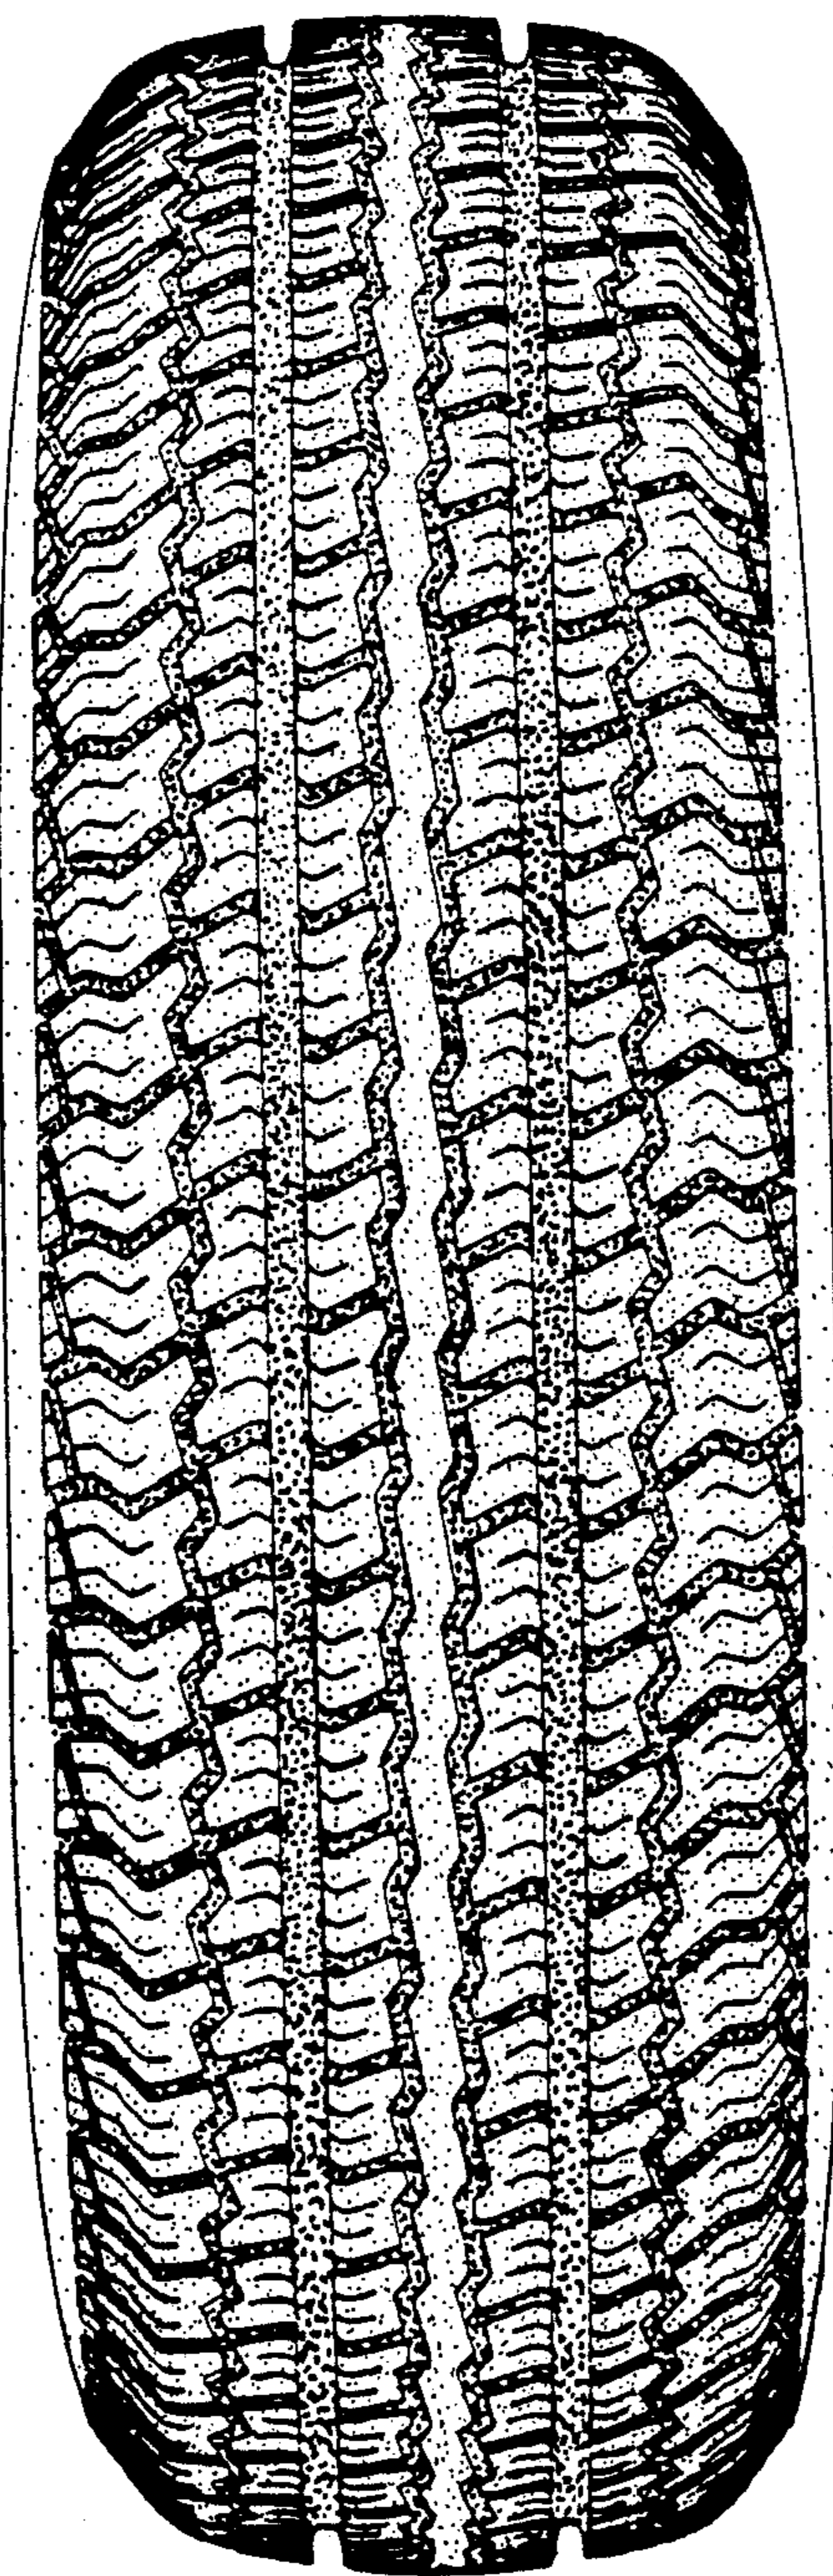

FIG. 4

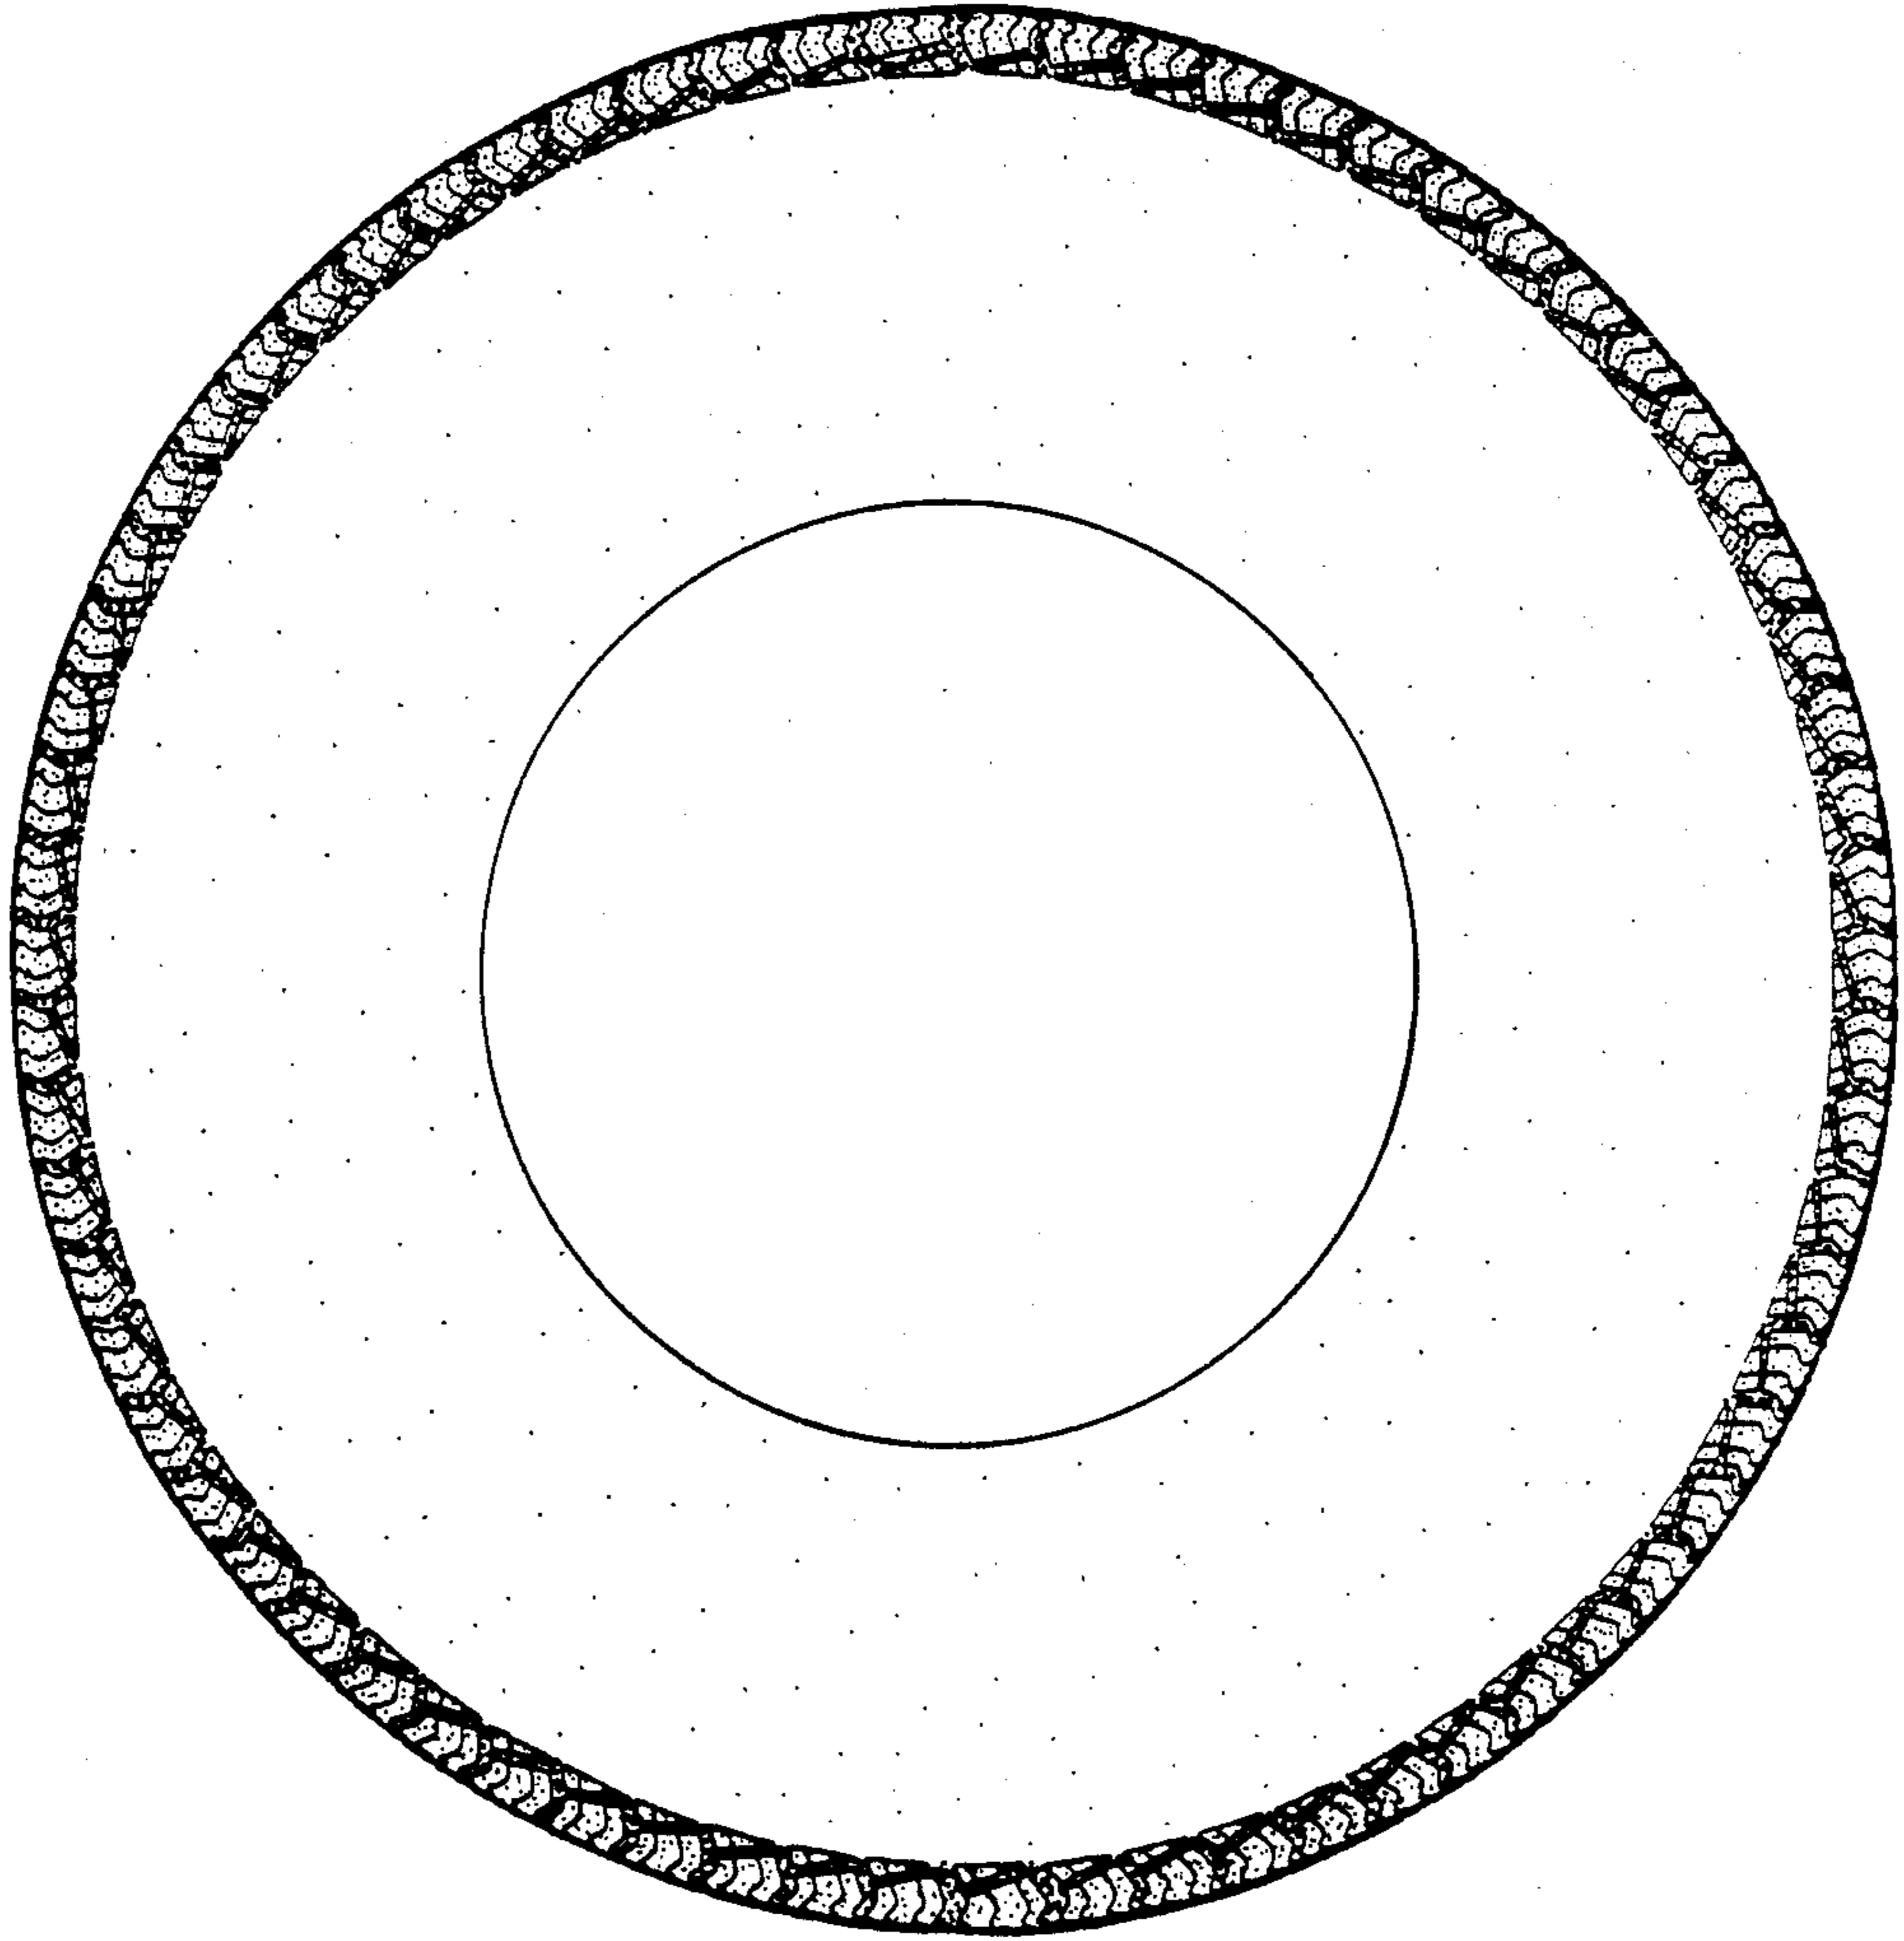

FIG. 5
