[57] CLAIM

The ornamental design for an air conditioner support, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of an air conditioner support showing my new design;

FIG. 2 is a side elevation view thereof, it being understood that the remaining three sides are the same as that shown;

FIG. 3 is a bottom plan view thereof;

FIG. 4 is an enlarged top plan view of one of the corner components of the air conditioner support, shown separately, for convenience of illustration, it being understood that the remaining three corner components are the same as that shown;

FIG. 5 is a bottom plan view of FIG. 4;

FIG. 6 is a front elevation view of FIG. 4, it being understood that the right end is a mirror image thereof;

FIG. 7 is a left end elevation view of FIG. 4, it being understood that the rear is a mirror image thereof;

FIG. 8 is a top plan view of one of the center components of the air conditioner support, shown separately for convenience of illustration, it being understood that the remaining three center components are the same as that shown;

FIG. 9 is a bottom plan view of FIG. 8;

FIG. 10 is a side elevation view of FIG. 8, it being understood that the remaining three sides are the same as that shown;

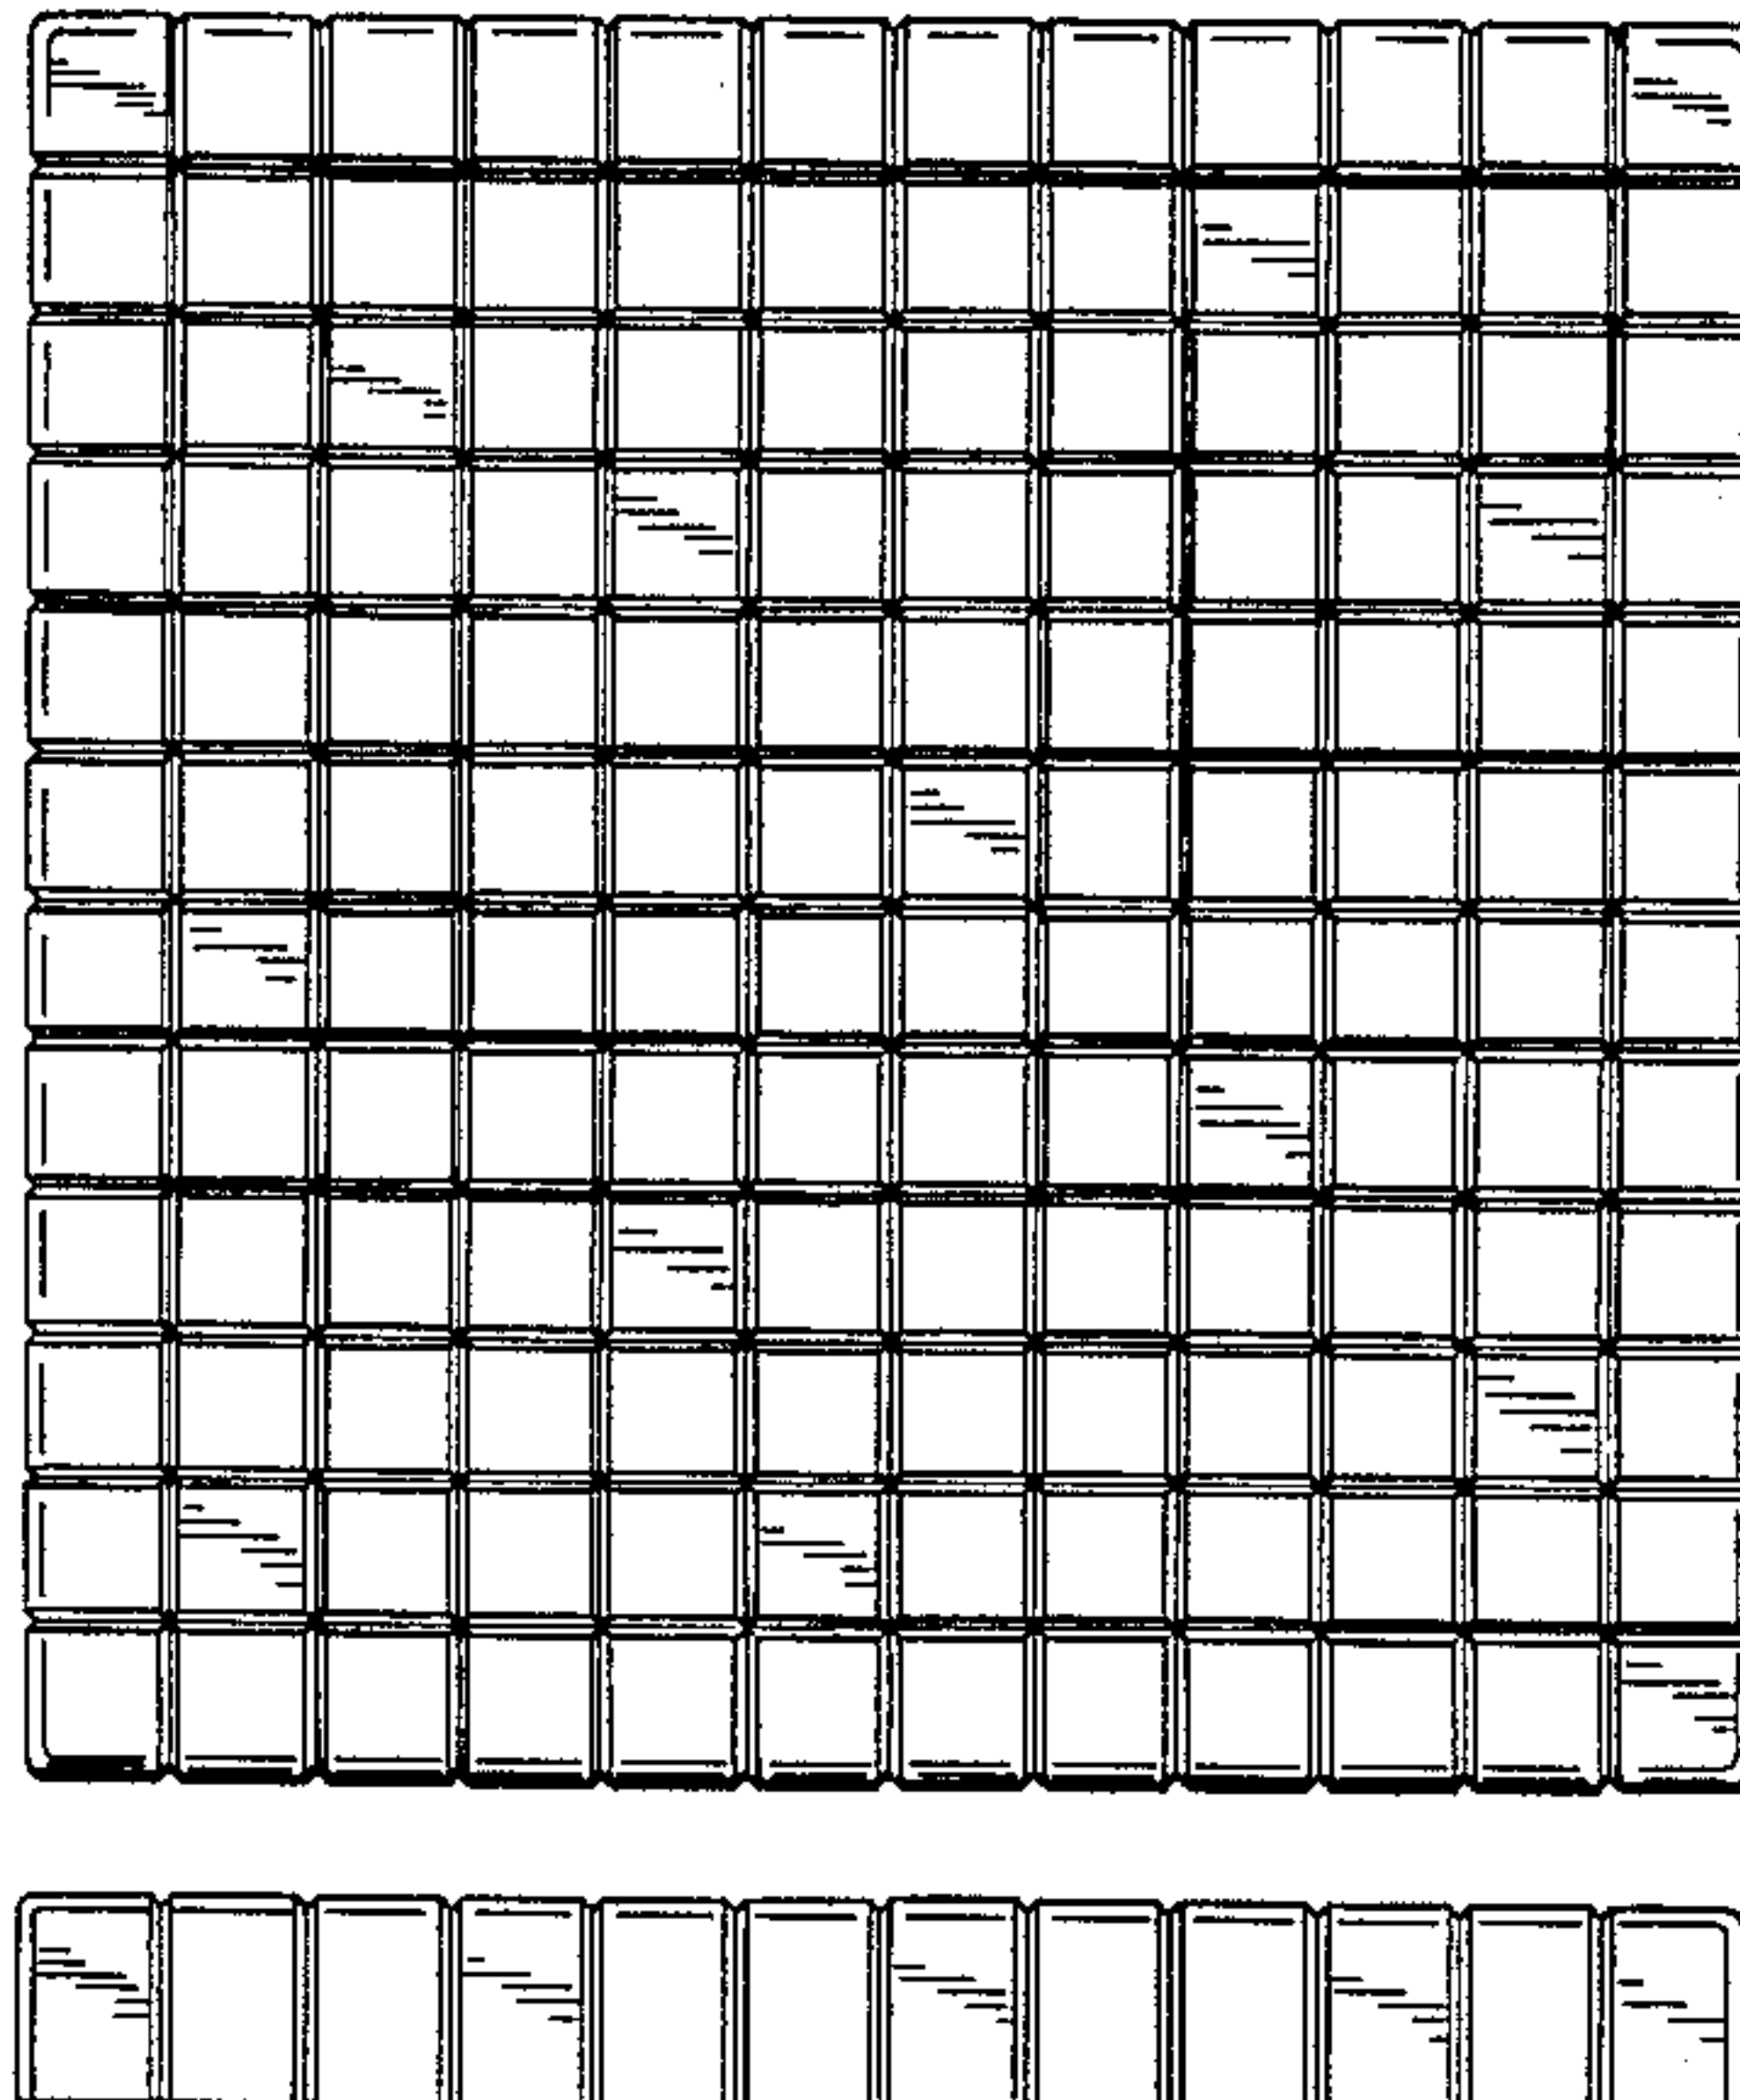

FIG. 11 is a top plan view of one of the side components of the air conditioner support, shown separately for convenience of illustration, it being understood that the remaining 7 side components are the same as that shown;

FIG. 12 is a bottom plan view of FIG. 11;

FIG. 13 is a front elevation view of FIG. 11;

FIG. 14 is a rear elevation view of FIG. 11; and

FIG. 15 is a left side elevation view of FIG. 11, it being understood that the right side is a mirror image of that shown.
