[57] CLAIM

The ornamental design for a tote bag for use over a seat back, as shown and described.

DESCRIPTION

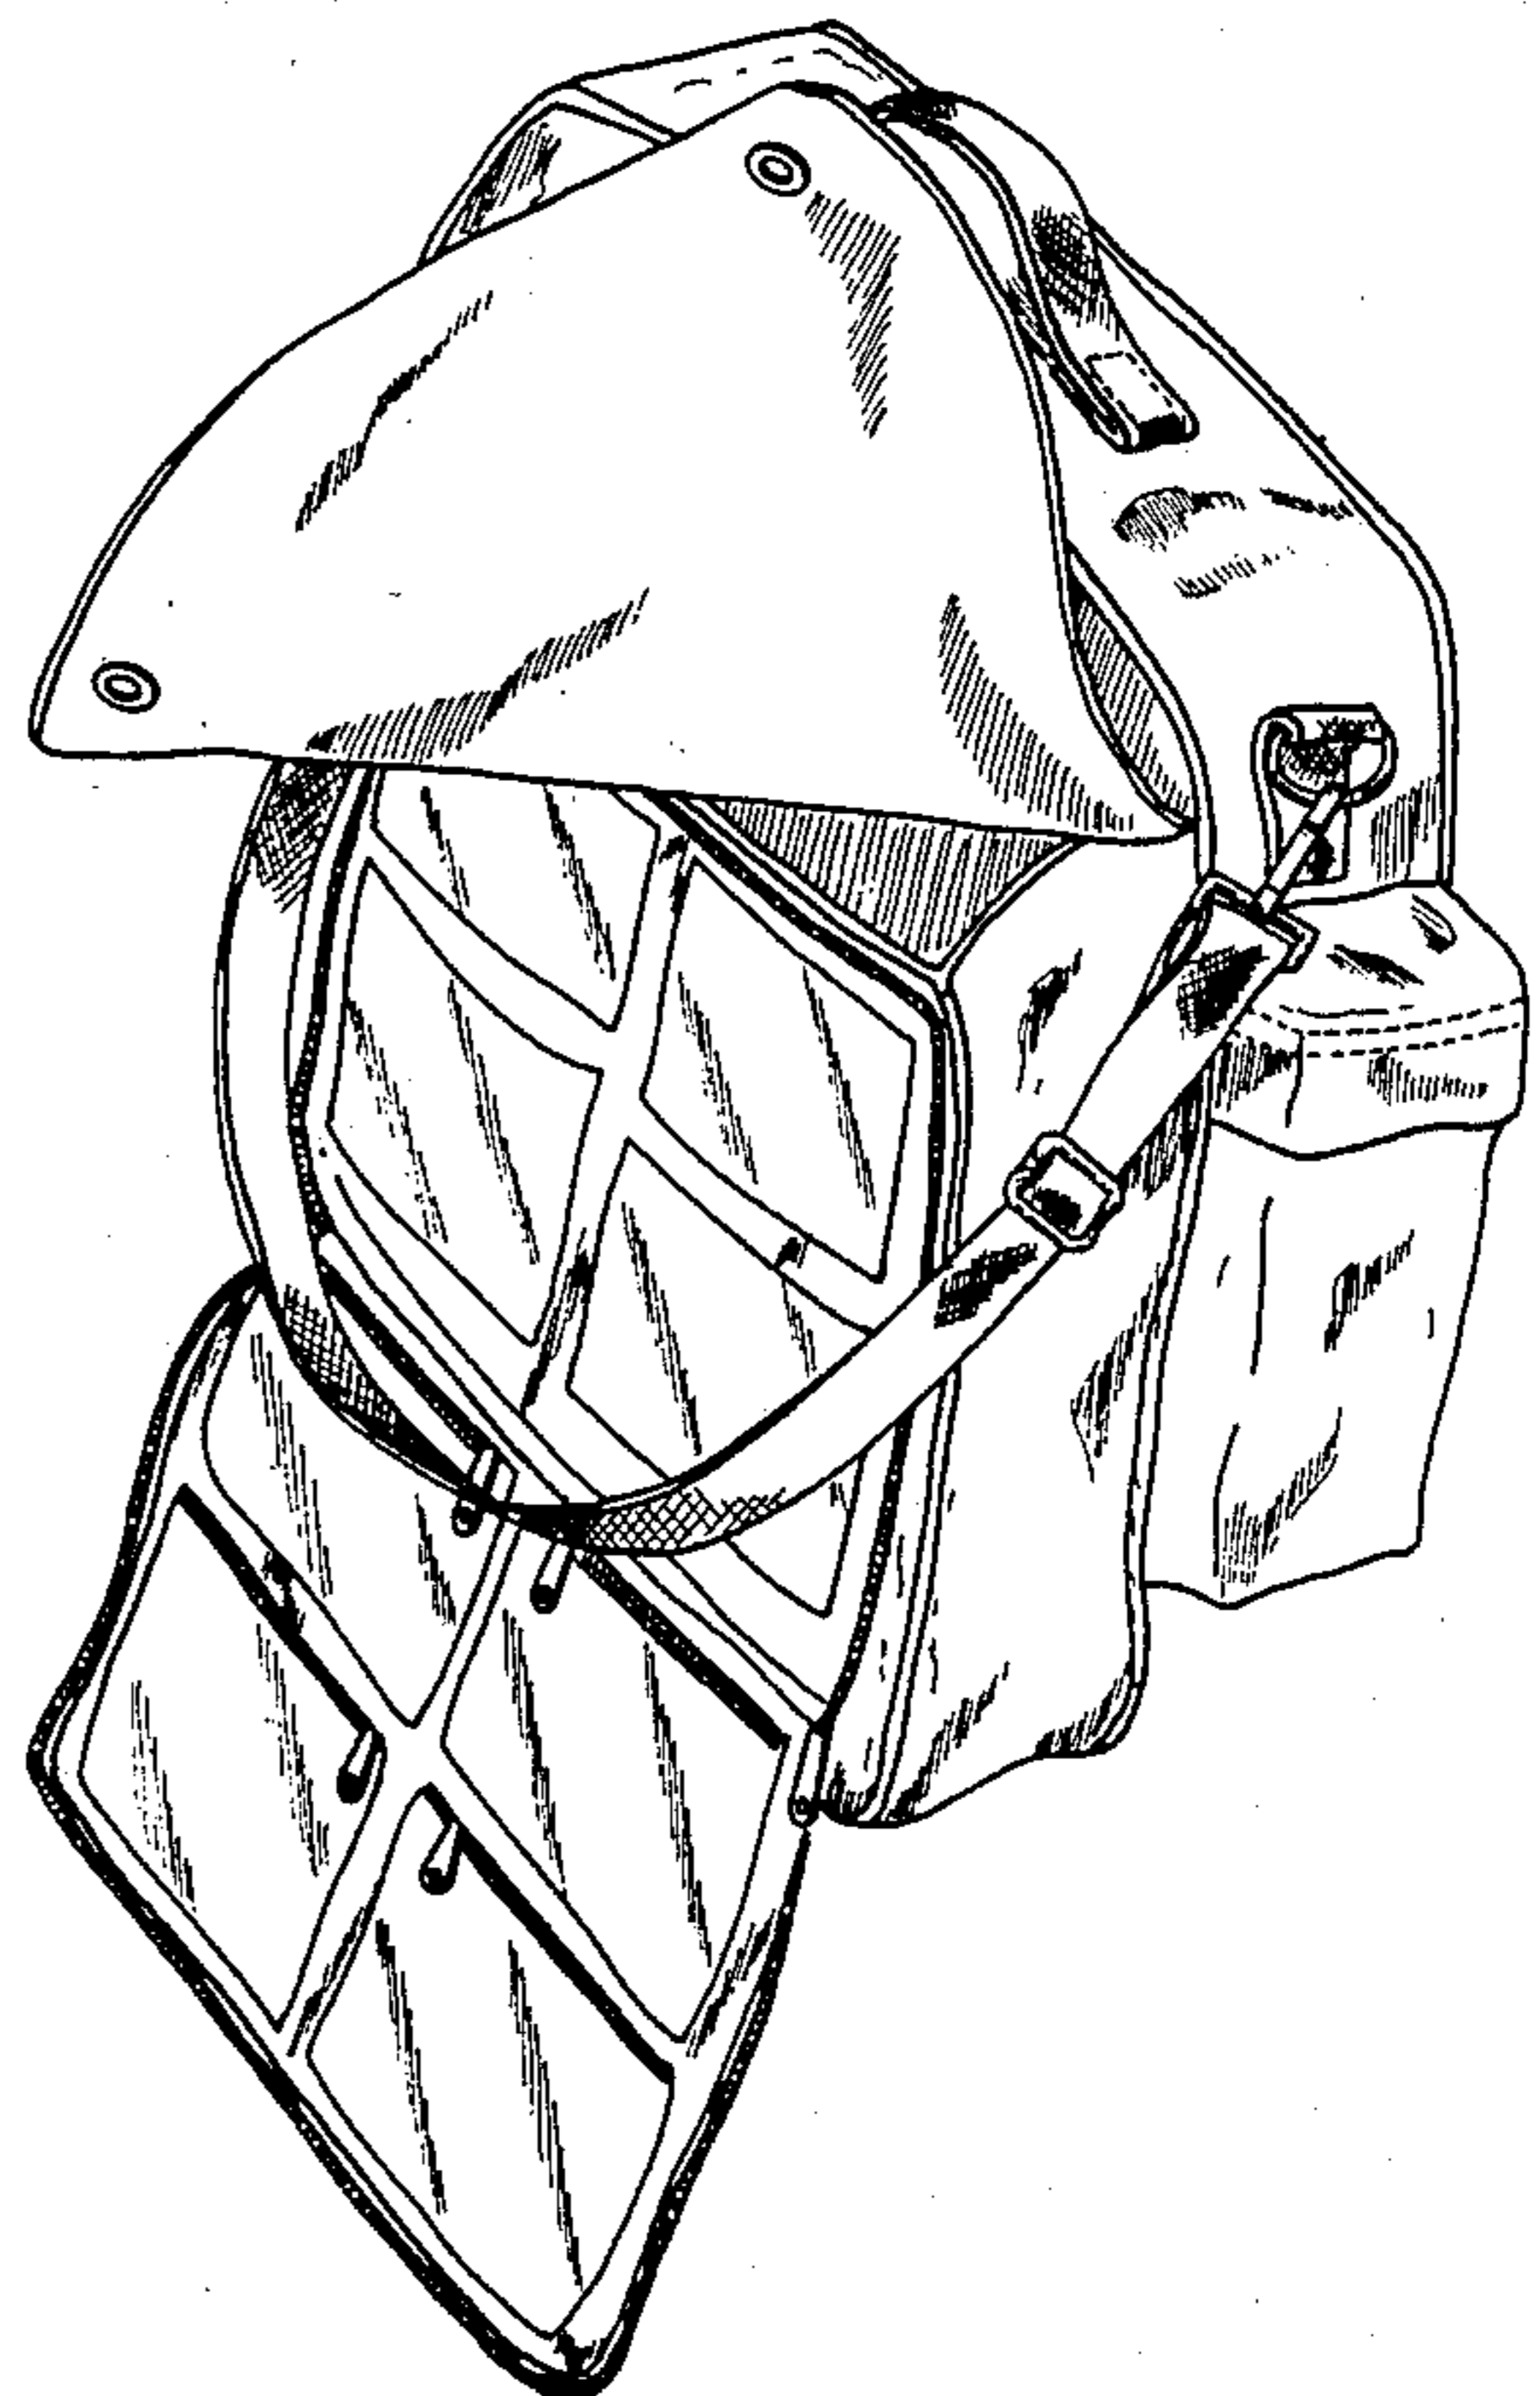

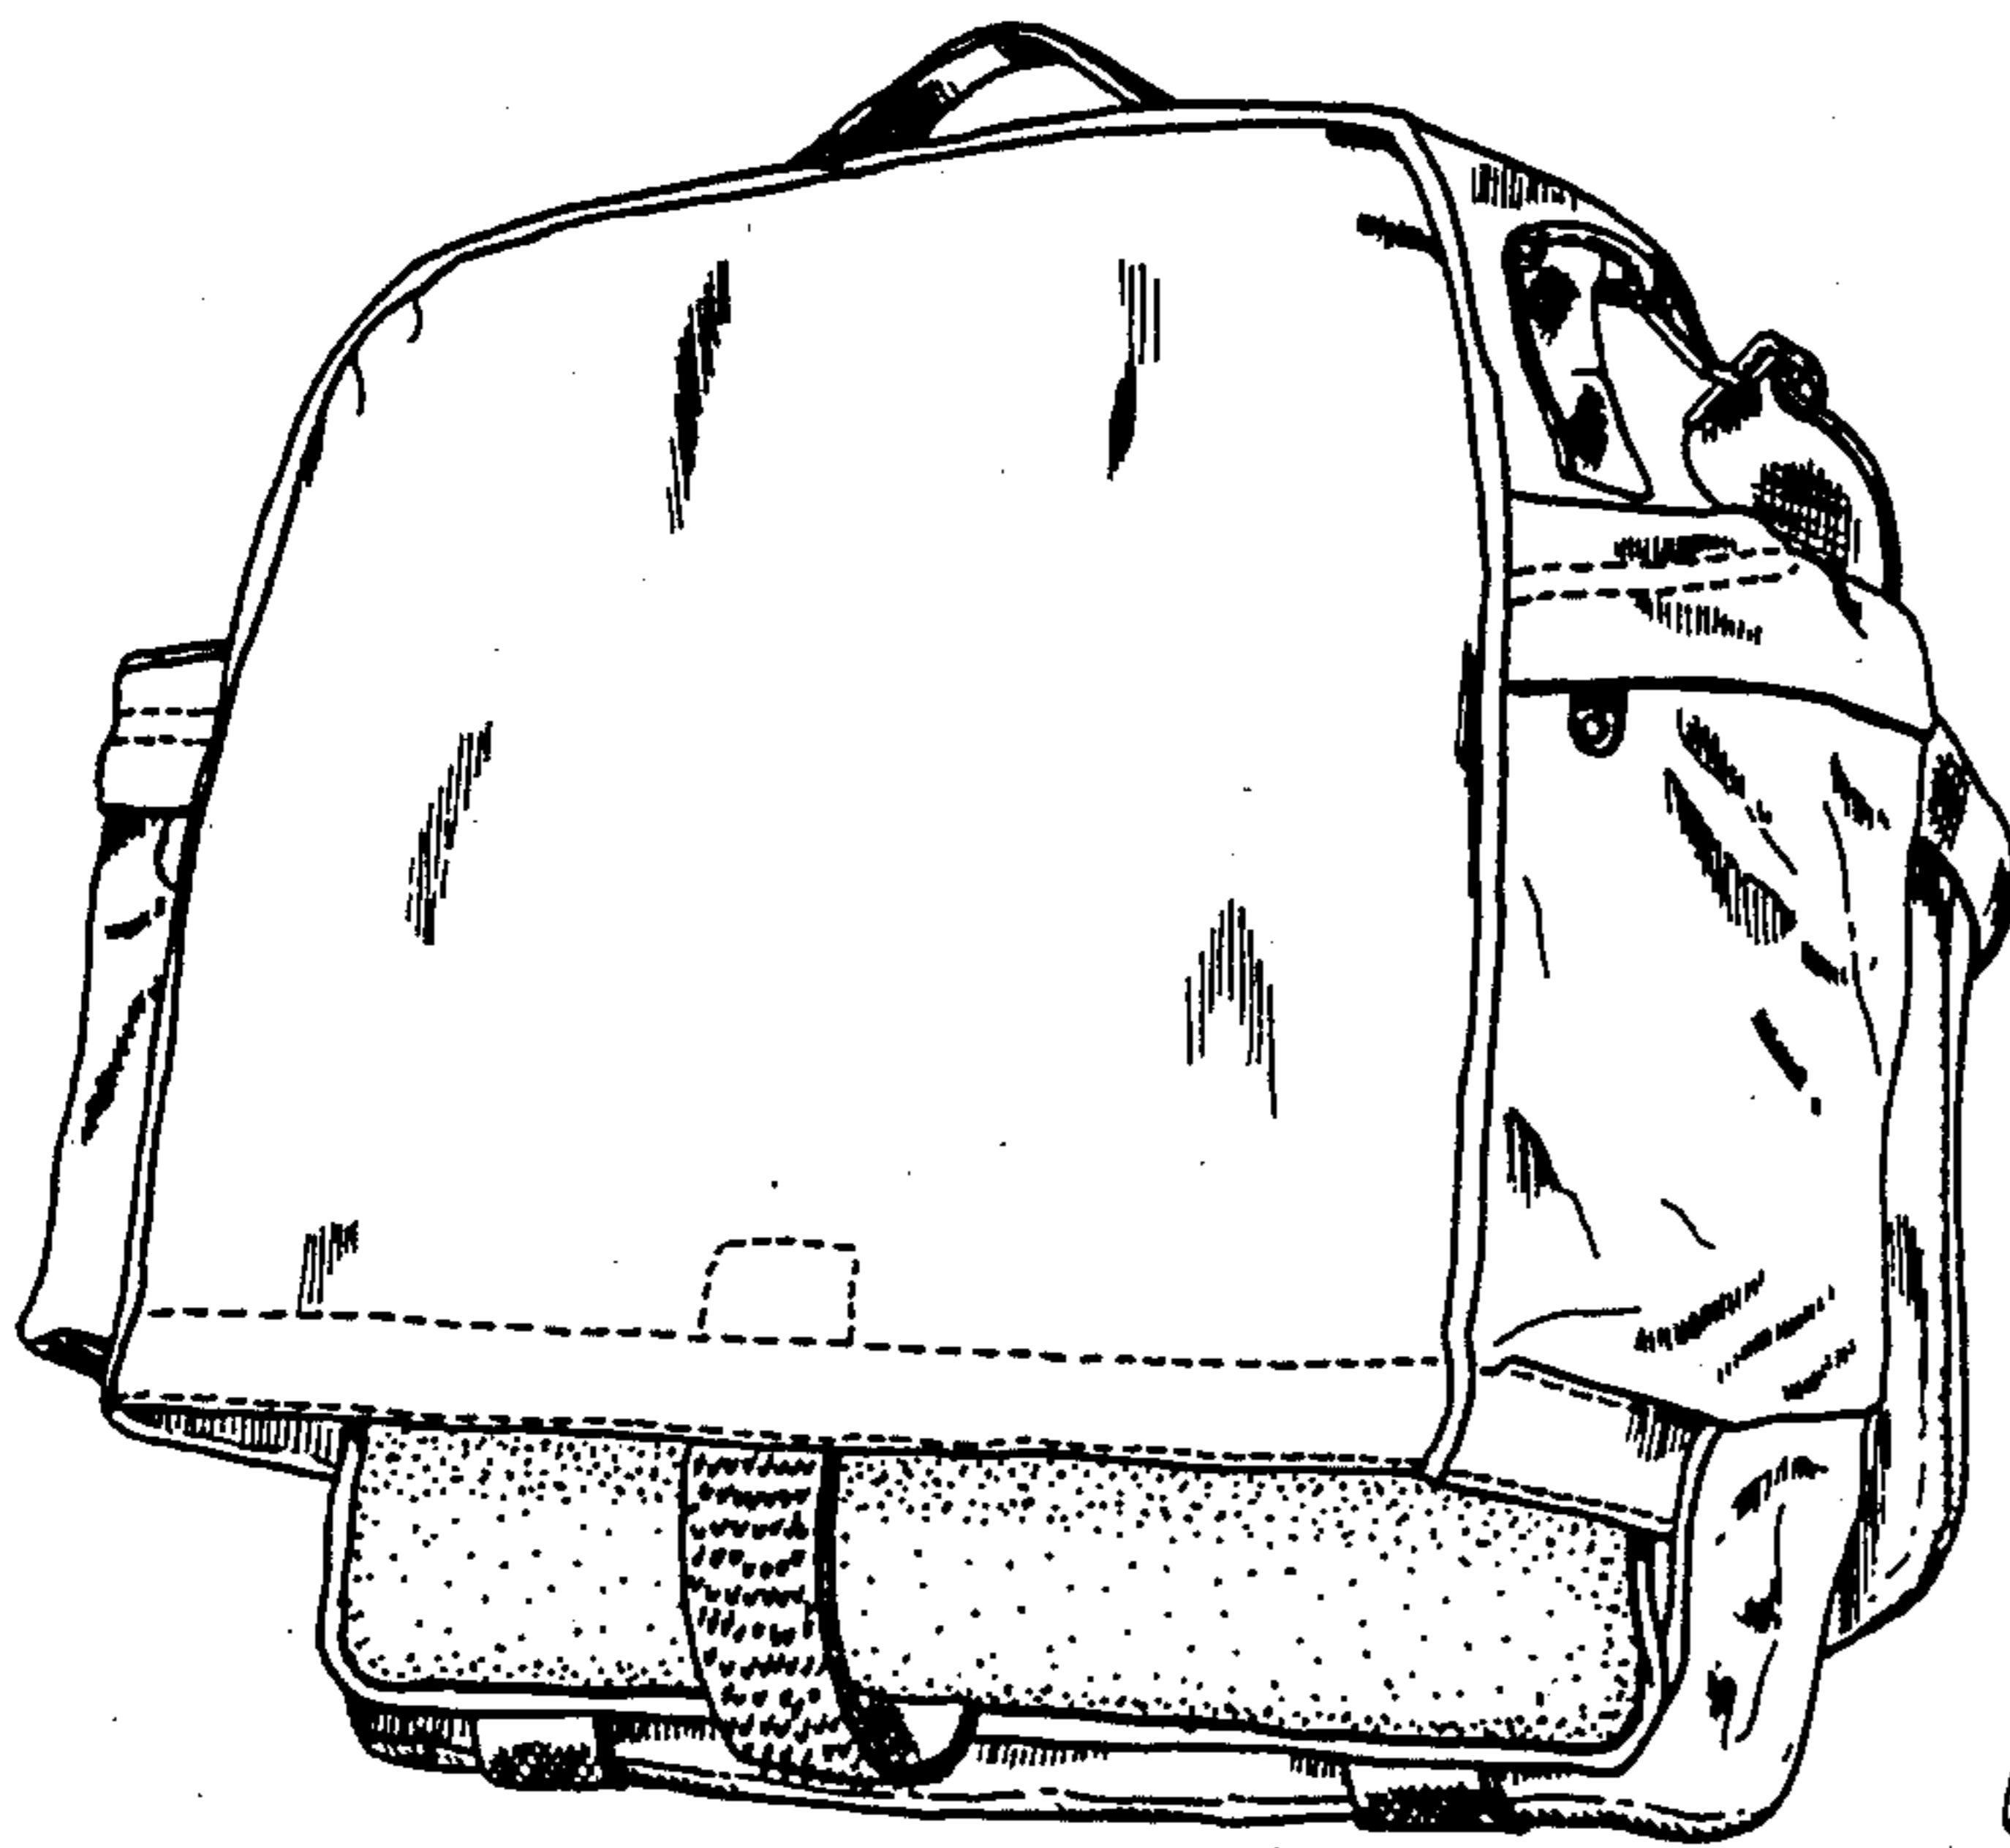

FIG. 1 is a perspective view of the front and left side of a tote bag for use over a seat back, showing my new design;

FIG. 2 is a perspective view of the front and bottom thereof, showing the superficial pouch which fits over the seat back, with the strap for securing the pouch unfastened;

FIG. 3 is a perspective view of the back and left side thereof, showing the back cover flap and zippered storage compartment in the closed position;

FIG. 4 is a perspective view of the back and right side thereof, showing the back cover flap and zippered storage compartment in the open position; and

FIG. 5 is a perspective view of the back and right side of an alternate embodiment thereof, showing the back cover flap in the open position.
