[57] CLAIM

The ornamental design for a line-type holder with a magnetic support unit for supporting articles, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a line-type holder with a magnetic support unit for supporting articles showing my new design and shown with the strap broken away to indicate indeterminate length;
FIG. 2 is an enlarged front elevational view of one of the identical end members thereof, with the remaining portions of the article omitted for clarity of illustration;
FIG. 3 is a side elevational view thereof, the opposite side being a mirror image thereof;
FIG. 4 is a rear elevational view thereof;
FIG. 5 is a top plan view thereof; and
FIG. 6 is a perspective view of a second embodiment of FIG. 1 wherein the only difference resides in the appearance of the strap member shown broken away to indicate indeterminate length.
