[57] CLAIM

The ornamental design for a multiple function image switching attachment for a telescope or similar article, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a multiple function image switching attachment for a telescope or similar article showing my new design;
FIG. 2 is a right side elevational view thereof;
FIG. 3 is a front elevational view thereof;
FIG. 4 is a cross-sectional view thereof, taken along line 4—4 of FIG. 1;
FIG. 5 is a rear elevational view thereof; and
FIG. 6 is a perspective view thereof, showing the top component raised.

FIG. 1

FIG. 2

FIG. 3

FIG. 4

FIG. 5
