[57] CLAIM

The ornamental design for an electrical connector assembly, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of an electrical connector assembly showing our new design fully assembled;
FIG. 2 is a side elevational view thereof, the opposite side elevational view being a mirror image;
FIG. 3 is a front elevational view thereof;
FIG. 4 is a rear elevational view thereof;
FIG. 5 is a top plan view thereof;
FIG. 6 is a bottom plan view thereof;
FIG. 7 is a front perspective view of the female portion of an electrical connector assembly showing our new design, the male portion being omitted for the purpose of a complete disclosure;
FIG. 8 is a side elevational view thereof, the opposite side elevational view being a mirror image;
FIG. 9 is a front elevational view thereof;
FIG. 10 is a rear elevational view thereof;
FIG. 11 is a top plan view thereof;
FIG. 12 is a bottom plan view thereof;
FIG. 13 is a front perspective view of the male portion of an electrical connector assembly showing our new design, the female portion being omitted for the purpose of a complete disclosure;
FIG. 14 is a side elevational view thereof, the opposite side elevational view being a mirror image.
FIG. 15 is a front elevational view thereof;
FIG. 16 is a rear elevational view thereof;
FIG. 17 is a top plan view thereof;
FIG. 18 is a bottom plan view thereof;
