[57] CLAIM

The ornamental design for a cabinet, as shown and described.

DESCRIPTION

FIG. 1 is a front and right side perspective view of a cabinet showing my new design;

FIG. 2 is a left side elevational view;

FIG. 3 is a front and right side perspective view in an open condition;

FIG. 4 is an enlarged sectional view taken through the lower portion of one of the front doors and disclosing the molding features thereof in greater detail;

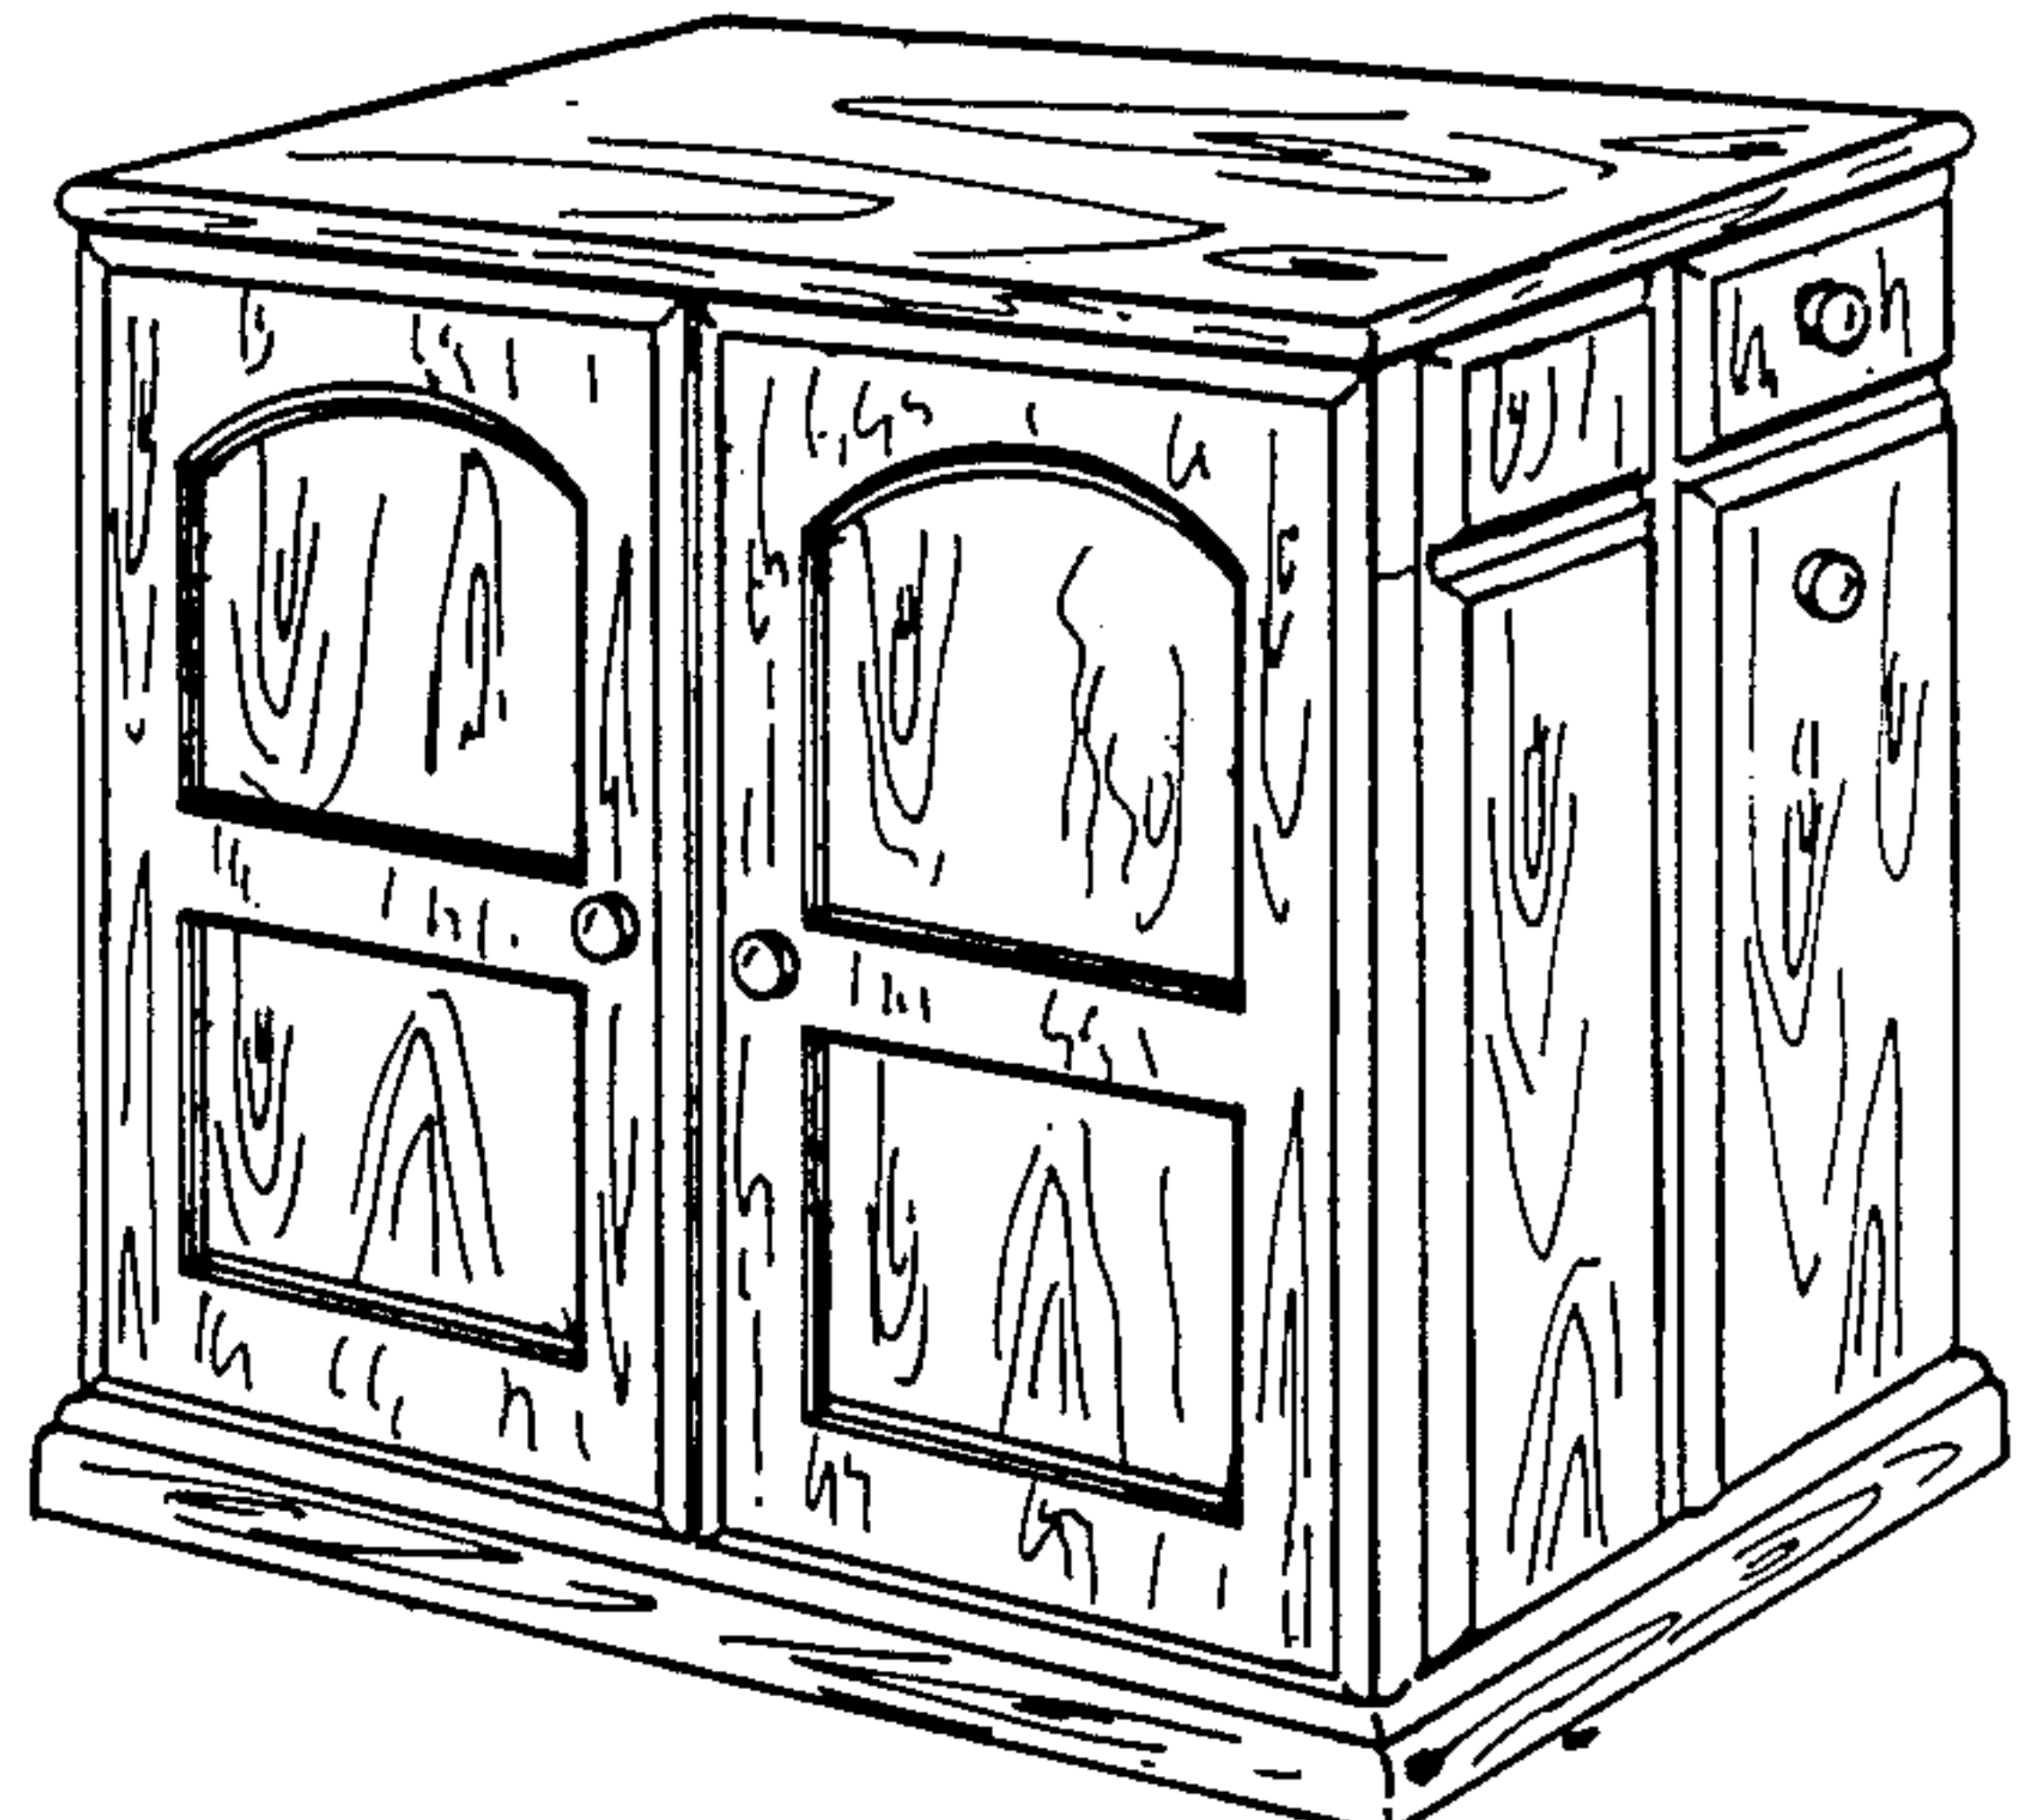

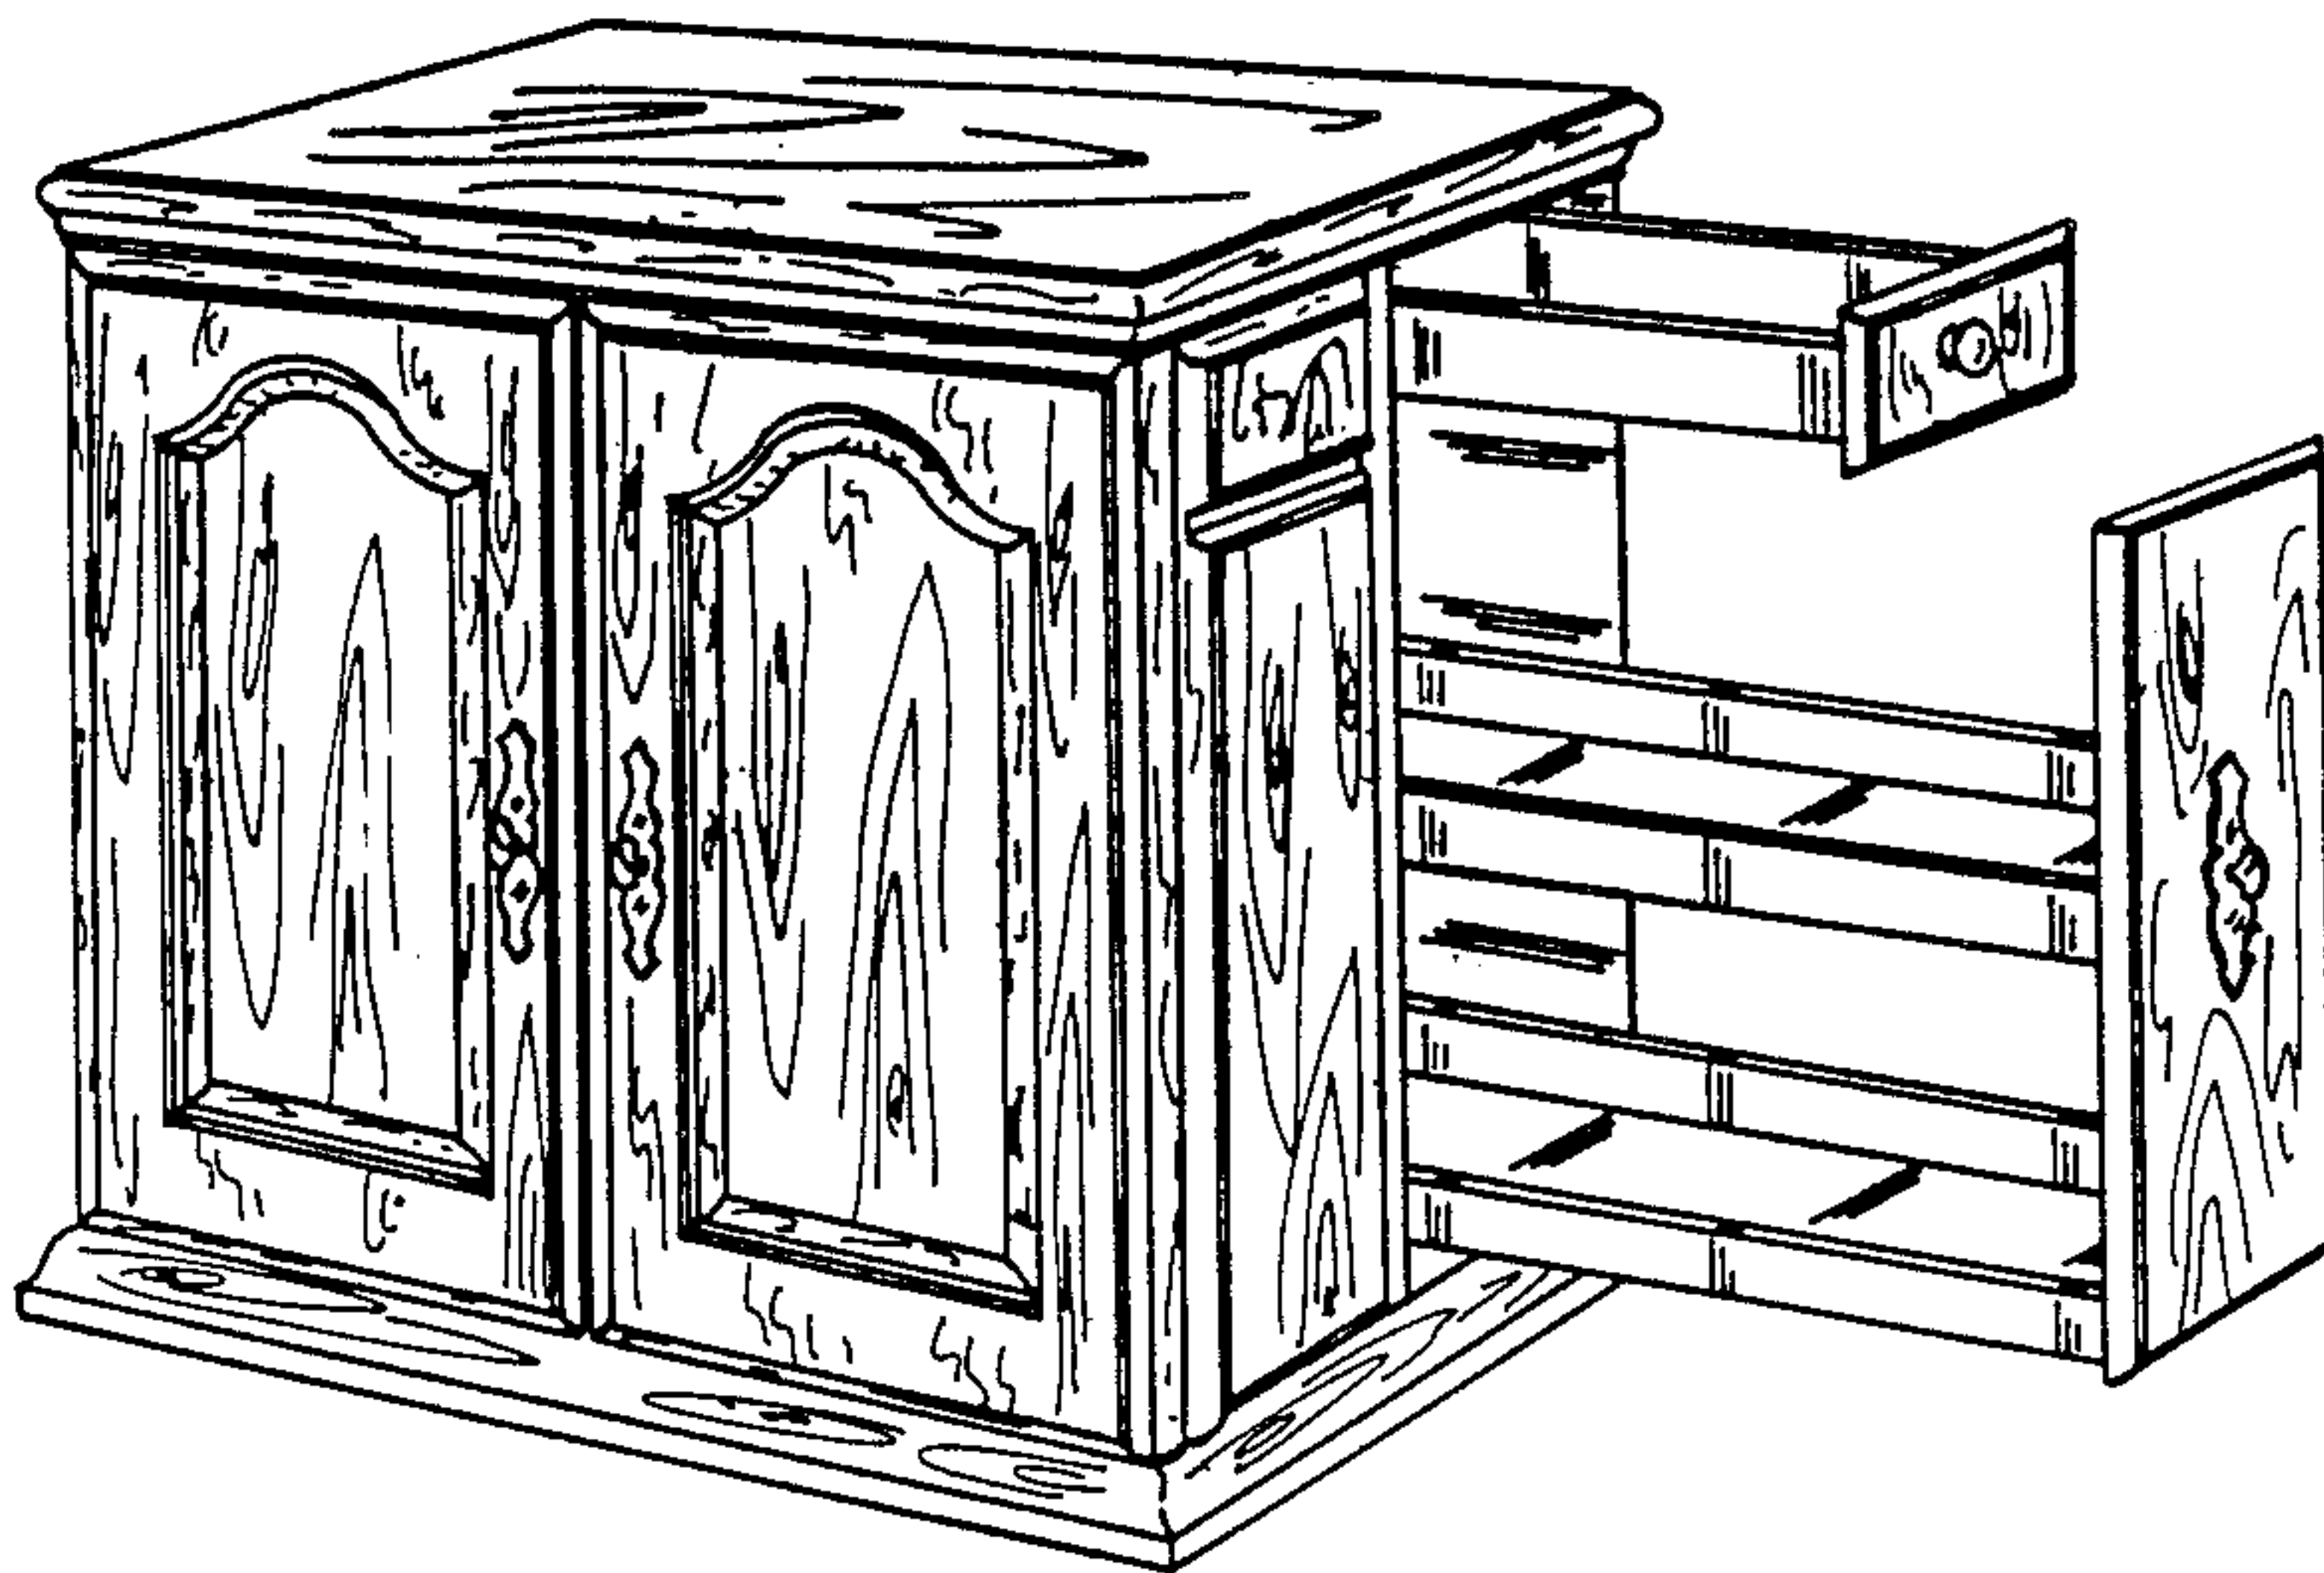

FIG. 5 is an enlarged sectional view taken through the lower portion of the side drawer and disclosing the molding features thereof in greater detail;

FIG. 6 is a front perspective view showing an alternate embodiment of the cabinet of FIG. 1;

FIG. 7 is an enlarged sectional view taken through the lower portion of one of the front door and disclosing the molding features thereof in greater detail; and

FIG. 8 is an enlarged sectional view taken through the lower portion of the side drawer and disclosing the molding features thereof in greater detail.

The rear surfaces of both embodiments are conventionally flat and unornamented.
