[57] CLAIM
The ornamental design for combined radio/telephone set, as shown and described.

DESCRIPTION
FIG. 1 is a top and left side perspective view of the console with a cassette holder shown open and with an extensible antenna of the console shown upright in an alternative upright position, and a right side and bottom perspective view of the handset telephone positioned next to the console of a combined radio telephone set showing my new design;
FIG. 2 is a front elevational view thereof;
FIG. 3 is a right side elevational view thereof;
FIGS. 4 and 5 are respectively top and bottom plan views of the set in cradled relationship;
FIG. 6 is a left side elevational view of the set as positioned in FIGS. 4 and 5;
FIG. 7 is a rear elevational view thereof;
FIG. 8 is a bracket associated view of the set with the handset invented and a top plan view of the stand with the cassette holder shown open; and
FIG. 9 is a left side elevational view of the set handset and stand as positioned in FIG. 1.
