The ornamental design for a coat, as shown and de-  
scribed.

**DESCRIPTION**  
FIG. 1 is a front elevational view of a coat showing my  
new design; and  
FIG. 2 is a front elevational view of an alternate em-  
bodiment of FIG. 1.  
The undisclosed rear view is unornamented and is not  
considered part of the claim.  
The characteristic feature of my design resides in the
