[57] CLAIM

The ornamental design for the "sun glasses", with lenses having a gradient pattern thereon, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of our new design for sun glasses with lenses having a gradient pattern thereon. The circular gradient pattern shown on the lenses appears only on the front side of the lenses, the rear surfaces being plain and conventional.

FIG. 2 is a side elevational view thereof, the opposite side being a mirror image;

FIG. 3 is a fragmentary, cross-sectional view of the lens portion thereof, taken along line 3—3 in FIG. 1; and

FIG. 4 is a fragmentary, cross-sectional view of an alternate lens portion for our sun glasses with lenses having a gradient pattern thereon depicted in FIGS. 1 and 2.

FIG. 5 is a rear perspective view of the sunglasses with lenses having a gradient pattern thereon.
