[57] **CLAIM**
 The ornamental design for a dial for world time zones, as shown and described.

DESCRIPTION
 FIG. 1 is a top plan view of a dial for world time zones showing my new design;
 FIG. 2 is a left side elevational view, the right side being a mirror image thereof.
 FIG. 3 is a bottom edge or side view of the world time zone device of FIGS. 1 and 2. The top edge view would appear substantially the same as the mirror image of this view.
 The bottom of FIG. 1 is flat and unornamented. The shading symbols in FIG. 1 are used to indicate color.
