[57] CLAIM

The ornamental design for a sunshield attachment for an infant carrier, as shown and described.

DESCRIPTION

FIG. 1 is a right side elevational view of a sunshield attachment for an infant carrier showing our new design, the left side being a mirror image of that shown; FIG. 2 is an enlarged front elevational view thereof; FIG. 3 is an enlarged rear elevational view thereof; FIG. 4 is an enlarged top plan view thereof; FIG. 5 is an enlarged bottom perspective view thereof, with the adjustable strap elements shown in an opened position; FIG. 6 is an enlarged bottom perspective view thereof; FIG. 7 is an enlarged, fragmentary rear elevational view of a second embodiment thereof, the only difference residing in the substitution of an elastic fastening means for the velcro-like fastening means; and FIG. 8 is an enlarged, fragmentary rear elevational view of a third embodiment thereof, the only difference residing in the substitution of a buckle-type fastening means for the velcro-like fastening means. The broken-line showing of portions of an infant carrier in FIGS. 1-3 is for illustrative purposes only and forms no part of the claimed design.
