[57] **CLAIM**

The ornamental design for a video camera bracket, as shown and described.

DESCRIPTION

FIG. 1 is a right side elevational view of a video camera bracket showing my new design, the left side elevational view being a mirror image;
 FIGS. 2 and 3 are respectively front and rear elevational views thereof;
 FIGS. 4 and 5 are respectively top and bottom plan views thereof taken on the lines 4—4 and 5—5 in FIG. 1;
 FIG. 6 is a left side elevational view of a second embodiment thereof, the opposite side being a mirror image, the only difference in this embodiment, compared to the first embodiment, is in the length of the tubular bracket element;
 FIG. 7 is a front elevational view thereof, the rear elevational view being a mirror image;
 FIG. 8 is a side elevational view of a third embodiment thereof, the opposite side being a mirror image, the sole difference being the suspension of the tubular bracket from an upper horizontal surface;
 FIGS. 9 and 10 are respectively front and rear elevational views thereof; and
 FIGS. 11 and 12 are respectively top and bottom views thereof taken on the lines 11—11 and 12—12 in FIG. 9. The broken line showing of a video camera is for illustrative purposes only and forms no part of the claimed design.
